Categories:

1. Target Audience
2. Programs versions information
3. Learning Portal Features
4. Orientation
5. Learning
  - a. Curriculum
  - b. Day Schedule & Growth Cycles
  - c. Certificates
  - d. Course Exams
  - e. IRC
  - f. Technical Issues
6. Placements
  - a. Placement Support
  - b. Placements Eligibility
  - c. Opportunities

Note: In each category the specific information relevant to 1.0/2.0/3.0 might be included or it might be same for all

## RAG-OPTIMIZED Q&A

Each entry below follows this structure:

**QUESTION\_ID:** Unique identifier for the Q&A pair

**CANONICAL\_QUESTION:** The primary, clean version of the question

**QUESTION\_VARIATIONS:** Other ways the same question is asked (includes Telugu-English / Hinglish phrasing). Use these for semantic matching and retrieval.

**ANSWER:** The single authoritative answer to return for any matched variation. -

**TAGS:** Topic labels to help with filtering and routing.

## RAG RETRIEVAL GUIDANCE FOR THIS SECTION

**Intent categories covered:**

**Common cross-query pattern:** Questions about backlogs, gaps, and low marks all share the same answer pattern — “it depends on the company; apply button will indicate eligibility.” The answers are intentionally consistent to reinforce this core message.

**Language handling note:** Several variations above are in Telugu-English (Tenglish) or colloquial phrasing. RAG systems should normalize these during embedding to match them to the correct canonical answer.

# Program Overview

## NxtWave Intensive — Knowledge Base

**Document Purpose:** Knowledge base for chatbots, voice agents, and LLM-powered retrieval systems.

**Last Updated:** June 2026

**Maintained by:** NxtWave Team

---

### SECTION 1: PROGRAM OVERVIEW

#### 1.1 What is NxtWave Intensive?

NxtWave Intensive is a structured, job-focused full-stack development training program by NxtWave. It is designed to help individuals build software development skills and receive placement support to transition into tech roles. It is NOT a job guarantee program.

**Program Goal:** Help learners become job-ready software developers through hands-on learning, real-world projects, and structured placement support.

**Who runs it:** NxtWave. NxtWave is an official partner of the National Skill Development Corporation (NSDC) under the Ministry of Skill Development & Entrepreneurship, Government of India.

**Website:** <https://www.ccbp.in/intensive>

**Reviews:** <https://www.ccbp.in/reviews>

**Contact:** +91 8008919090 (WhatsApp), [support@nxtwave.tech](mailto:support@nxtwave.tech)

**Hours:** 9:00 AM – 9:00 PM

---

#### 1.2 Program Versions — Evolution History

NxtWave Intensive has evolved over time. Understanding version history is important for handling queries from existing students.

##### *Intensive 1.0 (Active until: 1st January 2023)*

- **Track offered:** MERN Full Stack only
- **Status:** Discontinued. Students from 1.0 were given a one-time opportunity to migrate to 2.0 (migration window closed January 2025).

### *Intensive 2.0 (Active: 1st January 2023 – 7th October 2023)*

- **Why launched:** A segment of 1.0 students found MERN Full Stack difficult to grasp and needed more time or alternative learning paths. To address this, more job tracks were added.
- **Tracks offered:** MERN Full Stack, Java Full Stack, Data Analytics, QA Automation Testing
- **New features added:**
  - Course Exams after completing each course module
  - Placement eligibility unlocked after attempting all course exams
- **Migration:** Existing 1.0 students were given an option to shift to 2.0. Migration window was open for a limited time and closed in January 2025.
- **Status:** Discontinued for new enrollments.

### *Intensive 3.0 — Online (Active: October 2023 – Present)*

- **Format:** Online, self-paced
- **Why launched:** To add human touch and personalized support to the program.
- **New features added over 1.0/2.0:**
  - Dedicated Success Coaches assigned exclusively to each student
  - Live Zoom sessions with mentors for doubt resolution and special sessions
- **Tracks currently offered:** MERN Full Stack, Java Full Stack
  - Note: Data Analytics and QA Automation tracks were discontinued from the online program due to lower market demand compared to MERN and Java stacks.
- **Status:** Currently active for new enrollments.

### *Intensive Offline — Training Center (Launched: December 2025)*

- **Format:** In-person, classroom-based
  - **Why launched:** Exclusively customized for final-year and recent graduates. Entire curriculum was redesigned to focus specifically on achieving software jobs. Offline format adds structured classroom accountability and peer learning.
  - **Tracks offered:** Python Full Stack with Gen AI, Java Full Stack with Gen AI
  - **Eligibility:** Only for 2024, 2025 graduates and students graduating in 2026.
  - **Location:** **NxtWave Intensive Software Training Center** Survey No 76, Block-B, Premier Building, 3rd & 4th Floor, Sri Sai Nagar, Madhapur, Hyderabad, Telangana – 500081
    - **Phone:** 8008919090
    - **Hours:** 9:00 AM – 9:00 PM
    - **Directions:** <https://maps.app.goo.gl/Yee8HQB2AD2qTyxV6>
  - **Status:** Currently active for new enrollments.
-

## SECTION 2: CURRENT PROGRAMS (Active as of 2026)

There are currently TWO active programs:

| Attribute              | Online Program (3.0)              | Offline / Training Center                            |
|------------------------|-----------------------------------|------------------------------------------------------|
| Format                 | Self-paced, Online                | Classroom, In-person                                 |
| Location               | From anywhere                     | Madhapur, Hyderabad                                  |
| Tracks                 | MERN Full Stack, Java Full Stack  | Python Full Stack + Gen AI, Java Full Stack + Gen AI |
| Learning Duration      | 8 months                          | 6 months                                             |
| Placement Support      | Up to 16 months                   | Up to 12 months                                      |
| Total Program Duration | 16 months                         | 12 months                                            |
| Eligibility            | Anyone looking for a software job | 2024/2025/2026 graduates only (60%+ academics)       |
| Classroom Size         | N/A (online)                      | ~60 students per batch                               |
| Gen AI in curriculum   | No                                | Yes                                                  |

---

## SECTION 3: TARGET AUDIENCE

### 3.1 Who should join NxtWave Intensive?

#### Primary target audience:

- Recent graduates (any degree/branch) looking for a software job
- Final-year students (graduating in 2026) wanting to be job-ready upon graduation
- Working professionals who want to shift careers to software development

#### Background:

- Students from ANY degree — B.Tech, B.E, B.Sc, B.A, B.Com, MBA, MCA, M.Tech, etc.
- Students from ANY branch — CS, ECE, EEE, Mechanical, Civil, Chemical, Biotechnology, etc.
- Prior coding knowledge is NOT required. The program starts from fundamentals.

#### Academic eligibility (Offline program only):

- Minimum 60% aggregate in academics - Must be a 2024 or 2025 graduate, OR a final-year student graduating in 2026

#### Academic eligibility (Online program):

- Open to anyone looking for a software job (no specific academic cutoff enforced)

### 3.2 Who is NOT the right fit?

- Someone expecting a job guarantee — this is not a placement guarantee program
  - Someone unable to commit to regular practice and learning
  - For offline: anyone who graduated before 2024 or has graduation year 2027+
- 

#### [BOT CONTEXT — NOT FOR STUDENT DISPLAY]

##### Student Profile — Existing Intensive Program Student Base

The following describes the types of students currently enrolled in the NxtWave Intensive Program. This context helps the bot understand the background of the student it may be interacting with and tailor responses accordingly.

**1. Studying Students (Majority)** Most students are in their B.Tech 3rd Year 2nd Semester or Degree Final Year, or have recently completed B.Tech 4th Year. These students are focused on building skills and securing placements before entering the job market.

**2. Working Professionals** Some students are already employed in IT and are upskilling for better career growth or higher salary packages. Others come from non-IT domains and are looking to transition into the tech industry.

**3. Career Gap Candidates** Some learners have significant career gaps, with graduation years ranging as far back as 2012. They primarily join to restart their careers. The bot should be empathetic with these students and note that placement opportunities may be comparatively limited for candidates with longer career gaps.

**4. Abroad-Based Students** Some students are currently living abroad or planning to move abroad. They tend to inquire more about the Development Associate (DA) role and skill-building opportunities. The bot should note that direct placement opportunities through NxtWave may be relatively limited for students based outside India, and should manage expectations accordingly.

---

##### Why this matters for the bot:

- A studying student asking about placements needs encouragement and timeline clarity
- A working professional may need context about how the program fits around their schedule
- A career gap candidate may need empathetic handling around placement expectations
- An abroad-based student asking about placements should be given honest, measured guidance about availability of opportunities

---

## SECTION 4: JOB TRACKS & CURRICULUM

### 4.1 Online Program — Available Tracks

#### *Track 1: MERN Full Stack (Online)*

- **Duration:** 8 months (learning phase)
- **Projects:** 10+ real-time projects
- **Technologies:** HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, Python, Django, React
- **Curriculum PDF:**  
[https://d14qv6cm1t62pm.cloudfront.net/ccbp-website/intensive/online\\_mern\\_full\\_stack\\_curriculum.pdf](https://d14qv6cm1t62pm.cloudfront.net/ccbp-website/intensive/online_mern_full_stack_curriculum.pdf)

#### *Track 2: Java Full Stack (Online)*

- **Duration:** 8 months (learning phase)
- **Projects:** 10+ real-time projects
- **Technologies:** HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, Java, Spring Boot
- **Curriculum PDF:**  
[https://d14qv6cm1t62pm.cloudfront.net/ccbp-website/intensive/online\\_java\\_full\\_stack\\_curriculum.pdf](https://d14qv6cm1t62pm.cloudfront.net/ccbp-website/intensive/online_java_full_stack_curriculum.pdf)

### 4.2 Offline / Training Center — Available Tracks

#### *Track 1: Python Full Stack with Gen AI (Offline)*

- **Duration:** 6 months (learning phase)
- **Projects:** 10+ real-time projects
- **Technologies:** HTML, CSS, JavaScript, Bootstrap, Python, Tailwind CSS, Django, React + Gen AI
- **Curriculum PDF:**  
<https://d14qv6cm1t62pm.cloudfront.net/ccbp-website/intensive/Training-Center-Python-Full-Stack.pdf>

#### *Track 2: Java Full Stack with Gen AI (Offline)*

- **Duration:** 6 months (learning phase)
- **Projects:** 10+ real-time projects
- **Technologies:** HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, Java, Spring Boot + Gen AI
- **Curriculum PDF:**  
<https://d14qv6cm1t62pm.cloudfront.net/ccbp-website/intensive/Training-Center-Java-Full-Stack.pdf>

### 4.3 Sample Projects Built in Both Programs

- Portfolio website

- Food ordering application
- Social feed platform These help build a portfolio to present to recruiters.

#### 4.4 Tracks No Longer Available (Discontinued)

- Data Analytics — removed from online due to lower market demand
    - Duration: 3 Months
    - Fresher Salaries : 2 LPA - 7 LPA In India
    - **Technologies:**
    - Curriculum PDF: [DA Curriculum](#)
  - QA Automation Testing — removed from online due to lower market demand
    - Duration: 3 Months
    - Fresher Salaries : 2 LPA - 7 LPA In India
    - **Technologies:**
    - Curriculum PDF: [QA Automation Curriculum](#)
- 

## SECTION 5: PROGRAM STRUCTURE & LEARNING FORMAT

### 5.1 Online Program Structure

- **Total Duration:** 16 months
  - Phase 1 — Learning: 8 months (self-paced)
  - Phase 2 — Placement Support: Up to 8 months
- **Format:** Self-paced, online via advanced learning portal (<https://learning.ccbp.in>)
- **Learning approach:**
  - Structured video modules + concept learning
  - Hands-on coding exercises after every concept
  - Real-world projects built step by step
  - Live doubt resolution sessions (11 AM – 8 PM, Monday to Saturday) with domain experts
  - 1:1 Success Coach exclusively assigned to the student
  - 1:1 Mentors available for coding help and guidance

### 5.2 Offline / Training Center Structure

- **Total Duration:** 12 months
  - Phase 1 — Learning: 6 months (classroom)
  - Phase 2 — Placement Support: 6 months
- **Format:** In-classroom at Madhapur Training Center
- **Class size:** ~60 students per classroom
- **Learning approach:**
  - Live instructor-led sessions (instructors who have built real software products)
  - In-class live coding demonstrations
  - Hands-on activities in classroom

- Live doubt resolution sessions (11 AM – 8 PM, Mon–Sat) for additional support outside class
- **Class recordings:** Yes, learning resources are available through the advanced learning portal. Instead of providing exact classroom recordings, students will receive structured recorded sessions that cover the core concepts taught during the program. These recordings are designed specifically for revision and concept clarity.

### 5.3 Study Materials

- All materials (exercises, practice problems, projects) available digitally on the advanced learning portal
- No physical notes/materials are required
- Resources remain accessible during both learning and placement phases

### 5.4 Laptop Requirement

A laptop is REQUIRED to learn effectively (applies to both online and offline).

**Minimum Recommended Specs:** - OS: Windows 10 / Ubuntu / macOS - RAM: 8 GB or higher - Storage: SSD recommended

Some quizzes/sessions may be accessible on mobile, but laptop is mandatory for coding, assignments, and projects.

---

## SECTION 6: SUPPORT STRUCTURE

### 6.1 Types of Support Available

| Support Type                                | Available For                | Details                                                         |
|---------------------------------------------|------------------------------|-----------------------------------------------------------------|
| Instructors / Trainers                      | Offline students (primarily) | Experienced professionals who have built real software products |
| 1:1 Mentors                                 | Online + Offline             | Help when stuck, coding best practices, skill improvement       |
| Success Coaches (Placement Success Manager) | Online (3.0) + Offline       | Guides placement preparation, keeps students interview-ready    |
| Live Sessions                               | Online(3.0) + Offline        | 11 AM – 8 PM, Monday–Saturday, conducted by domain experts      |
|                                             |                              |                                                                 |

## 6.2 Doubt Resolution

There are multiple ways to get help during the program.

- For in-classroom learners, you can ask questions directly during class and interact with trainers.
- For both online and classroom learners, additional support is available through live doubt resolution sessions conducted by domain experts between 11 AM and 8 PM (Monday to Saturday).
- Also, you can always post your questions in the Discussion tab of the respective session/code practice. Domain experts will respond within 24 hours.

This ensures that if you get stuck while practicing or building projects, you can get guidance from mentors.

## 6.3 Batch Change Policy for Offline

- Batch changes are possible only based on slot availability — NOT guaranteed
- Recommended to stay with assigned batch for consistent progress
- Exceptions considered in genuine cases if seats available

## 6.4 Switching Between Online and Offline

- Switching is NOT allowed after enrollment
  - Each format has a different structure, schedule, and learning environment
  - Students must choose the right format before joining
- 

## FREQUENTLY ASKED QUESTIONS (FAQ)

This section is optimized for chatbot retrieval. Each Q&A is self-contained.

---

### **Q: What is NxtWave Intensive?**

A: NxtWave Intensive is a job-focused full-stack development program by NxtWave. It trains you in software development through hands-on projects and provides placement support to help you get a tech job. It is not a job guarantee program.

---

### **Q: What are the two formats of the Intensive program?**

A: There are two formats — Online (self-paced, accessible from anywhere) and Offline (in-classroom at Madhapur, Hyderabad). The online program is for anyone seeking a

software job. The offline program is exclusively for 2024/2025/2026 graduates with  $\geq 60\%$  in academics.

---

**Q: What is the duration of the program?**

A: The duration depends on the learning format you choose.

- In-Classroom Program: 6 months
- Online Program: 8 months

Throughout the program, you will learn full-stack development step-by-step and build multiple real-world projects. You will also receive support with resume preparation, mock interviews, and interview preparation as you move closer to job readiness.

---

**QUESTION\_ID: JT-001**

**CANONICAL\_QUESTION: What training tracks are available in NxtWave Intensive?**

**QUESTION\_VARIATIONS:**

- Which job tracks do you offer?
- What courses are available?
- MERN and Java tracks matrame unnaya?
- Job track options enti?
- Which track should I choose?
- Java Full Stack vs MERN Full Stack, which is available?
- Are there any other tracks besides MERN and Java?
- What specializations are offered?

A: You can choose one of the following full-stack development tracks:

Online Program:

- MERN Full Stack
- Java Full Stack

Offline Training Center(in-classroom) Program:

- Python Full Stack with Gen AI
- Java Full Stack with Gen AI

Across both programs, you will build projects such as:

- A portfolio website

- A food ordering application
- A social feed platform

These projects help you practice real development workflows and build a portfolio you can present to recruiters.

**TAGS:** Job tracks, MERN Full Stack, Java Full Stack, DA track, QA track, Data Analytics, Quality Assurance, available courses, track options, track selection

---

**QUESTION\_ID:** JT-002

**CANONICAL\_QUESTION:** Are Data Analytics or Testing tracks available?

**QUESTION\_VARIATIONS:**

- DA/QA tracks enduku levu?
- DA track undi aa?
- QA track provide chestunnara?
- Data Analytics track available aa?
- Quality Assurance track undi aa?
- Naku QA track kavali, possible aa?
- What is the Curriculum of the job tracks DA and QA?

**ANSWER:** Currently, we offer two job tracks:

- **MERN Full Stack**
- **Java Full Stack**

At present, **DA (Data Analytics) and QA (Quality Assurance) tracks are not available** due to fewer placement opportunities in those domains. These tracks have not been offered since June 2024.

If you are unsure which track to choose between MERN and Java, you don't need to decide immediately — at the end of Growth Cycle 1, you will take the Fundamentals Exam. Based on your performance, the system will suggest a track for you. You can accept that suggestion or choose your preferred track at that point.

**TAGS:** DA track, QA track, Data Analytics, Quality Assurance,

---

**QUESTION\_ID:** JT-003

**CANONICAL\_QUESTION:** What is a Job Track?

**INTENT CATEGORIES:** Job track definition, track explanation, MERN vs Java, track selection, program structure

## QUESTION\_VARIATIONS:

- What is a job track in NxtWave Intensive?
- Job track ante enti?
- What does job track mean?
- Track ante em chestaru?
- MERN or Java — what are these tracks?
- Job track oka course aa?
- What is the difference between job tracks?
- Track select cheyyadam ela?
- Job track ki meaning enti?
- When do I choose my job track?

**ANSWER:** A Job Track is the specialized learning path you follow in the program, designed to prepare you for a specific type of software development role.

In NxtWave Intensive, you do not choose your job track immediately on Day 1. Here is how it works:

**Growth Cycle 1 (Fundamentals)** is the same for everyone — all students complete the same 4 courses regardless of which track they will eventually follow. This phase builds your core foundation.

At the end of GC1, you take the Fundamentals Exam. Based on your performance, the system will suggest a job track for you. You can accept the suggested track or choose your preferred track by submitting the Job Track Preference Form.

### Available tracks:

Online Program: MERN Full Stack, Java Full Stack

Offline / Training Center: Python Full Stack with Gen AI, Java Full Stack with Gen AI

Once your job track is activated, your personalized curriculum — GC2, GC3, and Placement Preparation — unlocks on your My Journey page at <https://learning.ccbp.in/my-journey>

**TAGS:** Job track, track selection, MERN Full Stack, Java Full Stack, Python Full Stack, Gen AI, Fundamentals Exam, track preference, GC1, job track form, track definition

---

**QUESTION\_ID:** JT-004

**CANONICAL\_QUESTION:** Why can't I see my Job Track on the portal?

**INTENT CATEGORIES:** Job track not visible, track not unlocked, My Journey missing tracks, GC1 student confusion

## QUESTION\_VARIATIONS:

- My job track is not showing, why?
- Job track portal lo kanapadatle, enti?
- I can't see GC2 or GC3 on My Journey
- Why is my learning path incomplete on My Journey?
- Job track select chesanu but still not visible
- Track activate avvadam ledu, ela cheyyali?
- I submitted the job track form but nothing changed
- My journey lo only GC1 kanapadutundi, next cycles ekkada?
- Track preference form submit chesanu, next cycle unlock avvadam ledu

**ANSWER:** There are two common reasons why your Job Track may not be visible yet:

### Reason 1 — You are still in Growth Cycle 1

Students currently in GC1 will only see GC1 content on their My Journey page. GC2, GC3, and Placement Preparation become visible only after you:

- Complete all units in GC1
- Take the Fundamentals Exam
- Submit the Job Track Preference Form

This is by design. Until all three steps are done, further Growth Cycles will not appear.

**Reason 2** — You submitted the Job Track Preference Form but the track has not activated yet

After submitting the form, your selected job track is activated from the next day onwards. If it has been more than 24 hours and your track is still not visible, please let me know will raise a support ticket on your behalf

To check your current status, visit your My Journey page at <https://learning.ccbp.in/my-journey> and look for any pending units or notification banners. Or open this job track preference form if you have filled it already: [https://learning.ccbp.in/course?c\\_id=2e09980b-9be7-415e-8d81-2c326efd59ff&t\\_id=452cff46-e7ee-4061-a846-dd84f7a0d697&s\\_id=c44a1731-9be1-42d5-9d07-4aad70d8cec8](https://learning.ccbp.in/course?c_id=2e09980b-9be7-415e-8d81-2c326efd59ff&t_id=452cff46-e7ee-4061-a846-dd84f7a0d697&s_id=c44a1731-9be1-42d5-9d07-4aad70d8cec8)

**TAGS:** Job track not visible, track not showing, My Journey, GC1, Fundamentals Exam, Job Track Preference Form, track activation, pending units, Growth Cycle unlock, support

---

**QUESTION\_ID:** JT-005

**CANONICAL\_QUESTION:** Can I switch my job track after selecting it?

**INTENT CATEGORIES:** Track switching, job track change, MERN to Java, Java to MERN, track selection, backend difference

**QUESTION\_VARIATIONS:**

- Can I change my job track after submitting the preference form?
- Job track change cheyyachu aa select chesaka?
- MERN nundi Java ki switch cheyyachu aa?
- Java nundi MERN ki change cheyyachu aa?
- I selected MERN but want Java now, is it possible?
- Track change cheyyataniki option undi aa?
- Can I switch tracks midway through the program?
- Job track wrong ga select chesanu, change cheyyachu aa?
- Is it possible to change my specialization after choosing?
- I want to change my backend technology track, how?
- MERN and Java lo difference emi?
- Which track should I choose, MERN or Java?
- Backend lo difference enti MERN and Java madhya?

**ANSWER:** Once you submit the Job Track Preference Form, switching to a different track is not allowed. It is important to think carefully before making your selection.

To help you decide, here is the key difference between the two tracks:

Both tracks cover the same frontend technologies — HTML, CSS, JavaScript, Bootstrap, and Tailwind CSS. The only difference is in the backend:

- MERN Full Stack — Backend uses Python, Node.js, Express JS, and MongoDB
- Java Full Stack — Backend uses Java and Spring Boot

If you are comfortable with Python or have some prior exposure to it, MERN Full Stack may feel more natural. If you prefer Java or have a background in it, Java Full Stack is the right choice. Java will be more complex than MERN.

Both tracks have strong placement opportunities. The choice should be based on which backend technology you are more comfortable learning, not on perceived difficulty — both are equally achievable starting from zero.

Take your time to decide before submitting the form. Once submitted, the track cannot be changed.

**TAGS:** Track switching, job track change, MERN Full Stack, Java Full Stack, backend difference, Python, Node JS, Java, Spring Boot, track selection, preference form, track comparison

---

**Q: Why are HTML & CSS used in Power BI/Tableau, DA?**

A: HTML and CSS are commonly used in Power BI and Tableau to create custom visualizations and to customize the appearance of the data visualization. In Power BI and Tableau, HTML and CSS can be used to create custom visualizations and to customize the appearance of the data visualization, such as adding custom logos, background images, and customizing the layout.

Additionally, Power BI and Tableau can import and use custom visualizations built in JavaScript and other web technologies, which requires a basic understanding of web development concepts like HTML, CSS and JavaScript.

All these will not usually be covered in other training institutions. Our robust curriculum is why 1000s of companies hire NxtWave learners.

---

**Q: Why are HTML & CSS necessary for QA?**

A: Though CSS and HTML have few applications in QA or Power BI/ Tableau. The probability of getting a job becomes higher when you learn all these. All these will not usually be covered in other training institutions. Our robust curriculum is why 1000s of companies hire NxtWave learners.

---

**Q: What is the primary programming language you teach in the QA automation testing course: Python or Java?**

A: In our Quality Assurance track, we provide training in Selenium with Java.

---

**QUESTION\_ID:** MG-001

**CANONICAL\_QUESTION:** Can I migrate from Intensive 1.0 or switch to Intensive 2.0?

**INTENT CATEGORIES:** Migration, version switch, Intensive 1.0, Intensive 2.0, program upgrade, version change

**QUESTION\_VARIATIONS:**

- Can I move from 1.0 to 2.0?
- Intensive 1.0 nundi 2.0 ki switch cheyyachu aa?
- Migration window still open aa?
- I am a 1.0 student, can I upgrade?
- How do I switch to the latest version of Intensive?
- 1.0 to 3.0 migrate cheyyachu aa?

- Can I move to the current program from an older version?
- Version change cheyyatam possible aa?
- Old program nundi new program ki switch cheyyachu aa?
- 1.0 student ki migration option undi aa?
- Intensive 2.0 ki ela vellaali?
- Program version update cheyyatam ela?

**ANSWER:** Migration from Intensive 1.0 to 2.0 is no longer available.

The migration window closed in January 2025 and has not been reopened.

Similarly, Intensive 2.0 is discontinued and is no longer open for new enrollments or switches.

The currently active program is Intensive 3.0 (Online), which offers MERN Full Stack and Java Full Stack tracks, along with dedicated Success Coaches and live doubt sessions.

TAGS: Migration, Intensive 1.0, Intensive 2.0, Intensive 3.0, version switch, migration window closed, program upgrade, discontinued,

---

### **Q: Why is NxtWave Intensive effective for learning full stack development?**

A: NxtWave Intensive focuses on learning by building and practicing, rather than just watching lectures.

Across both programs, the learning process typically includes:

- Concept learning through guided sessions or structured modules
- Hands-on coding exercises to practice every concept
- Building real-world projects step by step
- Access to mentors and domain experts for doubt clarification
- Mock interviews and resume preparation as you approach placement readiness

This approach helps learners gradually move from learning concepts to building projects and preparing for interviews.

You can read learner experiences here: <https://www.ccbp.in/reviews>

---

### **Q: How many students will be there in each classroom?**

A: For the in-classroom program, each classroom usually has around 60 students. This allows trainers to guide the class through concepts, live coding sessions, and hands-on activities while keeping the sessions interactive.

For the online program, learners access the curriculum through the learning portal and receive support from mentors, success coaches, and scheduled doubt support sessions.

---

**Q: Will class recordings be provided?**

Yes, learning resources are available through the advanced learning portal. Instead of providing exact classroom recordings, you will receive structured recorded sessions that cover the core concepts taught during the program. These recordings are designed specifically for revision and concept clarity.

This allows you to:

- Revisit topics anytime
- Revise before interviews
- Strengthen concepts while practicing coding

These resources remain accessible during your learning and placement preparation period.

---

**Q: Will I receive physical notes or study materials?**

A: All study materials, coding exercises, practice problems, and project instructions are available digitally through the advanced learning portal, which is used by learners in both the online and in-classroom programs.

---

**Q: Can I change my batch during the course?  
(Applicable only for Offline/in-classroom program)**

A: Batch changes may be possible depending on slot availability, but they cannot be guaranteed. We recommend continuing with your assigned batch to maintain consistent learning progress. In exceptional situations, a change may be considered if seats are available in another batch.

---

**Q: What is the eligibility to join Offline / In-classroom program?**

A: You are eligible if you are:

- A 2024 or 2025 graduate, or A final-year student graduating in 2026
- Applicants should have 60% or above in academics.

Students from any degree or branch can apply. Prior programming knowledge is not mandatory, as the program begins with fundamental concepts before moving into advanced topics.

Online Program is Open to anyone looking for a software job (no specific academic cutoff enforced)

---

**Q: Can I switch between the online and in-classroom programs later?**

A: Switching between the online and in-classroom programs after enrollment is not allowed. Each format follows a different training structure, schedule, and learning environment. Because of this difference, learners are required to choose the program format that suits them best before joining.

---

**Q: How can I get my doubts clarified? Or How to get my doubts clarified by domain experts?**

**QUESTION\_VARIATIONS:**

**How can I contact a domain expert?**

A:

**If student is from Offline Program:**

There are multiple ways to get help during the program.

- For in-classroom learners, you can ask questions directly during class and interact with trainers.
- Additional support is available through live doubt resolution sessions conducted by domain experts between 11 AM and 8 PM (Monday to Saturday).
- Also, you can always post your questions in the Discussion tab of the respective session/code practice. Domain experts will respond within 24 hours.

This ensures that if you get stuck while practicing or building projects, you can get guidance from mentors.

**If student is from Online Program (Intensive 3.0):**

There are multiple ways to get help during the program.

- Additional support is available through live doubt resolution sessions conducted by domain experts between 11 AM and 8 PM (Monday to Saturday).
  - You can join these live sessions from Home Page - Live Sessions

- Also, you can always post your questions by clicking on Ask doubt present in the respective session/code practice. Domain experts will respond within 24 hours.
  - You can also see the doubts asked by other students in the Discussions tab below the session.

This ensures that if you get stuck while practicing or building projects, you can get guidance from mentors.

### **Intensive 1.0 or Intensive 2.0:**

- You can always post your questions in the Discussion tab of the respective session/code practice. Domain experts will respond within 24 hours.
- 

### **Q: Can students from non-technical backgrounds join the NxtWave Intensive program? Or Do I need prior coding knowledge?**

A: Yes. Students from any degree or branch can join the program.

Both the online program (8 months) and the in-classroom program (6 months) start with fundamental programming concepts, so prior coding knowledge is not required.

During the program, you will gradually move from: Learning core programming concepts  
Practicing coding through guided exercises  
Building real-world projects  
These projects help you build a portfolio that you can showcase during interviews. Many learners from B.A, B.Com, B.Sc, MBA and other non-technical degrees have transitioned into software roles after completing the program. You can read their experiences here:

<https://www.ccbp.in/reviews>

---

### **Q: Can students from non-CS branches like Mechanical, Civil, ECE or EEE get tech jobs through this program?**

A: Yes. Students from Mechanical, Civil, ECE, EEE, Chemical and other non-CS branches regularly transition into software roles. Most companies hiring for entry-level developer roles focus on:

- Coding ability
- Problem-solving skills
- Project experience

During the program, you will build several practical projects and strengthen your coding fundamentals, which helps demonstrate these skills during interviews. Many graduates

from non-CS branches have successfully moved into software development roles after completing the program. You can explore their stories here: <https://www.ccbp.in/reviews>

---

### **Q: Do I need a laptop to attend the NxtWave Intensive program?**

A: Yes, a laptop is required to learn effectively. While some sessions or quizzes may be accessible on mobile devices, you will need a laptop to:

- Practice coding Complete assignments
- Build projects

This applies to both the online program and the in-classroom program.

#### **Recommended Laptop Specifications**

- Operating System: Windows 10 / Ubuntu / macOS
- RAM: 8 GB or higher
- Storage: SSD recommended

A laptop meeting these specifications will be sufficient for completing the program and working on projects.

---

---

# Onboarding

## SECTION 7: Onboarding

When you enroll in the program, your onboarding process includes four steps:

1. Welcome Session by Founder
2. Profile Details
3. Orientation
4. Start Learning

### Welcome Session

Your onboarding begins with a 2-minute welcome note from the NxtWave Founders. This session introduces you to the program and sets the tone for your learning journey.

### Profile Details

You will fill in your Basic Details, Education Details, Work Experience, Projects, and Achievements. This information will be shared with companies during your placement process.

### Orientation

After completing your Profile Details, you will attend an Orientation Session. The Orientation Session is available in both Telugu and English.

In the Orientation Session, you will learn what Intensive is all about, how your learning journey will be structured, and what types of support will be available to you throughout the program. Understanding these details will help you learn more effectively and make the most of the course.

The Orientation Session is conducted live every Monday and Thursday from 10:00 AM to 11:00 AM. A recorded version is made available in the portal in case you miss the live session.

If you miss the Monday session, you can watch the recorded session until 10:00 PM on Tuesday.

If you miss the Thursday session, you can watch the recorded session until 10:00 PM on Friday.

You must watch the Orientation Session completely (100%). Only after completing the Orientation Session will you be able to start your classes.

## **Start Learning**

After completing the Orientation Session, your first class will start at 12:00 PM in the afternoon. If you missed the live Orientation on Monday or Thursday, watch the recording first. Once you click on Start Learning, you will receive your daily schedule to complete.

The course follows a daily schedule. You are expected to complete your daily tasks by the end of each day. During the Orientation Session, you will also make a commitment to complete your daily schedule on time and stay consistent throughout the course.

# Daily schedules and growth cycles

## S4b qWhat is the Daily Schedule?

The Daily Schedule helps you stay on track by providing a structured day-by-day learning plan.

The domain experts have already planned the curriculum progression(what to study, when to study, how much to study), so you do not need to create your own study plan. You simply need to follow the schedule provided in the portal.

A specific portion of the curriculum is scheduled for you each day.

## What activities are included in the daily schedule?

Examples of scheduled activities:

- **Video Lectures:** Concept explanations with guided learning.
- **Cheatsheets:** Short summaries for each topic to help you review and easily remember key points.
- **MCQ Practices:** Concept validation and self-assessment.
- **Coding Practices:** Hands-on programming exercises. Coding practices are completed using the Code Playground.
- **Assignments:** Concept validation and self-assessment.
- **Course Exams:** Conducted on a weekly basis at the end of each course to to assess your understanding and knowledge of the course content

## When are sessions unlocked?

On Sunday we have a holiday so Monday to Saturday you will have the schedule. Daily there will be six hours of learning in total. Classes will be unlocked at 10 am IST daily.

## How to check your Daily Schedule?

In this section we are going to see how to follow your daily schedule in the learning portal and when the sessions will be accessible or unlocked for you.

1. Firstly check if you are using the latest version of Google Chrome. If it is not updated yet, please update it.
2. Open Google Chrome and log in to the advanced learning portal(<https://learning.ccbp.in/>) with your registered mobile number and OTP.
3. You will find the "Your Schedule" section on the home screen.
4. There will be a date-wise schedule available for you for the entire program.
5. You will get the sessions, practice sets, and assignments to be completed on a specific day.
6. You can see them by clicking on the date in the calendar.
7. Under each session or assignment you can also see the duration, that is, how long it will take to complete the session in general.
8. For example here it takes 2 hours to complete the Arrays and Objects session and 3 hours to complete the assignment.

9. Click on the session to open the session.

### How do I mark a session as completed?

10. Once you complete the entire session you can click on the Mark as Completed button.
11. Then comes a popup where you have to click on Yes to confirm. Then the session will be marked with a green tick indicating that you have completed the session.
12. After completing the session you can give your feedback by clicking on the Submit Feedback button and if you have any doubts you can post them by clicking on the Ask Doubt button.
13. Sessions and assignments are usually auto-marked as complete once finished.
14. In the case of **Cheatsheets**, the reading material with all session-related keynotes, you can mark them as completed once you finish reading them.
15. **Code Playground:** You can also practice coding while you attend a session with the help of the code playground within the session.
16. **Notes:** You can take notes while watching the session with the help of notes.
17. You can revise the previous sessions just by clicking on the session of your choice from the table of contents present on the left pane.
18. If you want to go back to the home screen, just click on the arrow icon on top of the menu bar or the NxtWave logo.
19. If you have finished all the sessions and assignments on a given day, the day will be marked with a green tick.

### What happens if I miss sessions?

20. If you have completed a few and there are a few more to complete, then the green circle would be partially filled.
21. The sessions will be unlocked on a daily basis.
22. For example if a particular session is scheduled for tomorrow at 10:00 am, then it will be unlocked only at 10:00 am tomorrow.
23. Until then you won't be able to access it.
24. Make sure that you plan to stick to your daily schedule and complete them in the order that we have provided because a few sessions are built based on the topics that are covered in the previous sessions.
25. Skipping these sessions leads to a lack of clarity and confusion.
26. So strictly follow your schedule and complete them in the order given.
27. If you miss a few sessions for some reason, you can cover the pending topics first and then take up the day's schedule on the next day.
28. There won't be any sessions during the holidays and when you hover the cursor on these dates, it will show as a holiday.
29. If you have completed all the given sessions, you will get today's session in your schedule by default.
30. It means that you are up to date.

31. If you are not up to date, then by default you will get the day's schedule in which you have pending sessions in the Your Schedule section.

## How to watch sessions and access previous sessions?

You can watch the previous sessions in a course in 3 ways:

### **My Journey page:**

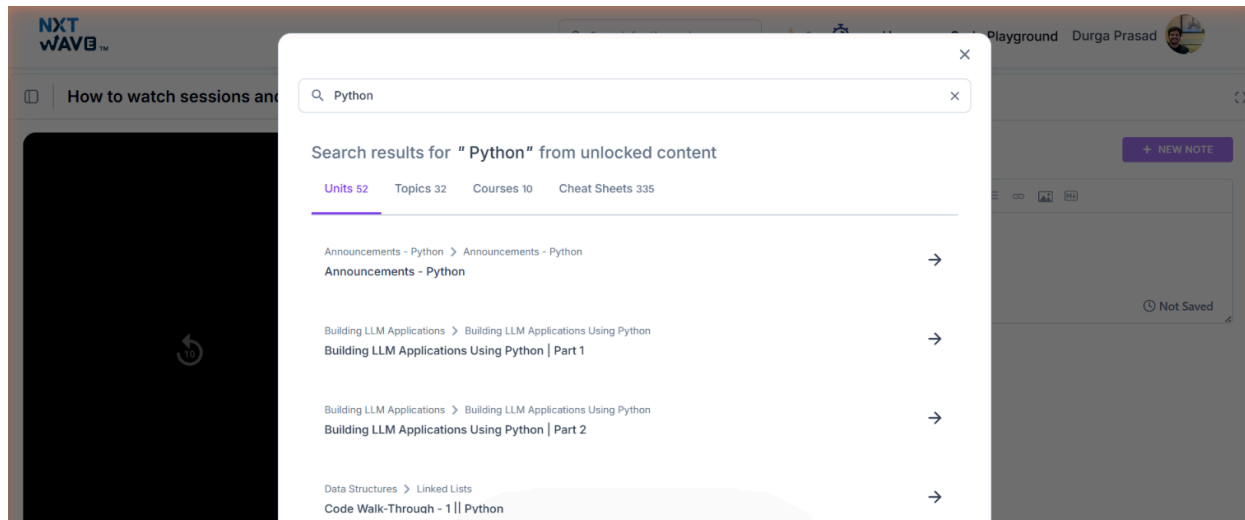

32. Click on My Journey in the left pane.
33. You can find all the mandatory courses that are part of your program here.
34. Select the course in which you want to see previous sessions.
35. You can click on the specific Course button to access all the sessions in the course of your choice.
36. If you are watching the sessions on a laptop or a desktop you can see the contents on the left pane.
37. Select the session of your choice to start watching it.
38. For example, if you want to watch Loops concept present in Programming Foundations, you have to navigate to My Journey from the home screen and select Programming Foundation course in the Fundamentals Growth Cycle.
39. In the right pane you can select Loops from the table of contents.

### **Daily Schedule:**

40. You can click on the calendar icon on Your Schedule section and select the date on which the session is unlocked.
41. For example if you want to revise the sessions released on the 28th of the previous month, you can directly click on the calendar icon and select the corresponding date and you will be able to see the sessions unlocked on that date.

### **Search Feature:**

1. The search feature helps you quickly navigate to relevant content without manually browsing through courses.
2. You can access the Search option from the navigation bar at the top of the page or from the left pane main menu.
3. Use the Search feature to find any session, course, topic, unit, or cheatsheet by entering a keyword. Your search results will display all matching content available across the platform.

## How does growth cycle progression work?

42. Sessions in the next growth cycle will be unlocked only after completing all sessions, practice sets, and assignments in the current growth cycle.
43. If you build solid foundations, you can learn advanced concepts present in the next growth cycle easily.
44. The sessions in the next growth cycle will not be unlocked until you complete the sessions in the current growth cycle.
45. The sessions on these dates will be locked.
46. For example if your growth cycle 1 is going to be completed by 15th April but you have a few pending sessions that would take another 5 days for you to complete.
47. The schedule won't be unlocked from April 15th to April 20th.
48. That is, if you complete your assignments on 20th April, you will get new sessions from 21st April.

---

**QUESTION\_ID:** CP-001

**CANONICAL\_QUESTION:** What are Coding Practices?

**INTENT CATEGORIES:** Coding practice definition, hands-on exercises, practice sessions, coding after class

**QUESTION\_VARIATIONS:**

- What are coding practices in the schedule?
- Coding practice ante enti?
- Why do I have coding exercises after class?
- Practice sessions ki meaning emi?
- Coding practice mandatory aa?

- What is the purpose of coding exercises?
- Are coding practices graded?
- Coding practice skip cheyyachu aa?
- How are coding practices different from assignments?
- Session tarvata coding practice ela cheyyadam?

ANSWER: Coding Practices are hands-on exercises that appear in your daily schedule after the video sessions. They are designed to help you immediately apply the concept you just learned — by writing actual code, not just watching or reading.

Each coding practice is tied to a specific concept from the session. For example, after learning about Arrays, your coding practice will involve solving problems using Arrays.

### **Why they matter:**

Concepts make sense only when you apply them. Coding practices are where real learning happens — not just in the videos.

They build the problem-solving muscle that companies test in hiring exams.

Assignments and advanced topics are built on top of concepts practiced here. Skipping them leads to gaps in understanding.

### **Are they mandatory?**

Yes. Assignments are unlocked only after you complete the required classes, practice sessions, MCQs, and coding exercises. Skipping coding practices will restrict your access to assignments and exams.

### **Recommended order per session:**

Watch the video session → Practice live using the Code Playground → Review the Cheat Sheet → Complete MCQs → Complete Coding Practice → Attempt the Assignment

**TAGS:** Coding practice, hands-on exercises, practice sessions, mandatory, assignments, MCQs, session order, code playground, concept application, daily schedule

**QUESTION\_ID:** SC-001

**CANONICAL\_QUESTION:** How will I get updates about my daily schedule?

### **QUESTION\_VARIATIONS:**

- Where can I check my daily schedule?
- Schedule ela chudali?

- Daily updates ikkada vastaya?
- How do I know what to study today?
- Portal lo schedule ela check cheyyali?
- Will I get notifications for schedule updates?
- Where are my classes listed?
- Today's sessions ela chudali?
- Schedule changes ela telsustai?
- How will I be informed about new sessions?
- Daily class timings ela check cheyyali?
- Is there an app or portal to check my schedule?
- New content unlock ayindaa ani ela telsukovali?
- Where do I find what's pending for today?
- Schedule regular ga update avutundaa?

**ANSWER:** Your daily schedule is available directly on the learning portal. You can log in and check it regularly to see your classes, practice sessions, and any new content that has been unlocked for the day.

Make it a habit to check the portal each day so you stay on top of your schedule and don't miss any sessions.

**TAGS:** Daily schedule, portal updates, schedule check, new sessions, class timings, learning portal, daily content, schedule notification, pending tasks, today's classes

---

## **SECTION: Daily Schedule Unlock Timings**

**GENERIC INFO (for RAG system context)** Daily classes unlock at fixed scheduled times (such as 10:00 AM, 12:00 PM, 3:00 PM, or 5:00 PM) and cannot be unlocked earlier on request. This is by design — the structured timing ensures students attend the class and then have dedicated time immediately after to complete practice sessions and other learning activities. The schedule is intentionally fixed, similar to how college timetables work, to build discipline and routine. Early unlock is not possible regardless of personal preference or circumstance.

---

## **RAG RETRIEVAL GUIDANCE FOR THIS SECTION**

Intent categories covered: Schedule timing, early unlock request, morning learning preference, class access timing, flexibility in schedule.

Common cross-query pattern: Students asking this are often working professionals, morning learners, or students with limited free time windows. They may frame it as a preference or a practical need. The answer is consistent — early unlock is not possible — but the tone should be empathetic and reinforce the value of routine and discipline.

Language handling note: Students may mention specific times or express frustration about timing. RAG systems should map all such timing-related unlock requests to this answer.

---

**QUESTION\_ID:** ST-003

**CANONICAL\_QUESTION:** What are the timings of daily sessions?

**INTENT CATEGORIES:** Session unlock times, class timings, daily schedule timings, when sessions open

**QUESTION\_VARIATIONS:**

- What time do sessions unlock daily?
- Daily classes ki timings enti?
- What time will my class open today?
- Sessions epudu unlock avutayi?
- Class timings ela chuskovaali?
- When will today's sessions be available?
- What time does the portal unlock new content?
- Morning lo classes unlock avutayaa?
- 10 AM ki sessions vastayaa?
- Daily unlock time enti?

**ANSWER:** Your daily sessions are unlocked at fixed scheduled times — typically 10:00 AM, 12:00 PM, 3:00 PM, or 5:00 PM. The exact time depends on when your session is scheduled for that day.

Once a session is unlocked, you can watch it at any time — it stays accessible and does not expire. You do not need to watch it at the exact unlock time.

**A few things to know:**

- Sessions cannot be unlocked earlier than their scheduled time, even on request. This structure is intentional — it mirrors a college timetable and helps build consistency and routine.
- If you complete today's sessions, the next sessions will unlock only at their scheduled time, not immediately.
- Sessions from previous days are always available for revision through My Journey or the daily schedule calendar.
- For the full schedule of what sessions are unlocked today, check the Your Schedule section on the home screen of your learning portal at <https://learning.ccbp.in>

**TAGS:** Session timings, unlock time, class timings, 10 AM, daily unlock, schedule, session availability, fixed timings, early unlock not possible, portal access

---

**QUESTION\_ID:** ST-001

**CANONICAL\_QUESTION:** Can my daily class be unlocked earlier, such as at 6:00 AM?

**QUESTION\_VARIATIONS:**

- Can I access today's class before the scheduled time?
- Why does my class open only at 10 AM? Can it open earlier?
- I am free in the morning, can I study then?
- Class early ga unlock cheyyachu aa?
- Morning lo cheyyadam comfortable ga untundi, timing change cheyyachu aa?
- I work in the afternoon, can classes open in the morning?
- Can I get early access to today's session?
- Schedule timing change cheyyachu aa?
- Class 6 AM ki open avvachu aa?
- I want to study early morning, is that possible?
- Can the unlock time be customized for me?
- Naku morning free time untundi, class appudu open cheyyachu aa?
- I have other commitments later in the day, can I access class early?
- Is there a way to unlock the class before it officially opens?
- Can classes be made available earlier based on my schedule?

**ANSWER:** Currently, early unlock of daily classes is not possible. Classes are designed to open only at their fixed scheduled times — such as 10:00 AM, 12:00 PM, 3:00 PM, or 5:00 PM — and this cannot be changed based on individual preferences.

The structured timing is intentional. After attending the class, you have dedicated time set aside to complete your practice sessions and other learning activities. This flow — class first, then practice — is what makes the learning effective.

Think of it like a college timetable: timings are fixed for everyone and don't change based on personal preference. This structure is what builds consistency, routine, and discipline — all of which are essential to make real progress in the program.

If mornings are your most productive or undisturbed time, the best approach is to align your other activities around the scheduled class time and use that energy for your practice and revision after the class unlocks.

Sticking to the routine as given — rather than working around it — is what will help you stay on track and get the most out of the program.

**TAGS:** Schedule timing, early unlock, class access, morning learning, fixed schedule, routine, discipline, unlock time, timing change, class availability, schedule flexibility

---

**QUESTION\_ID:** ST-002

**CANONICAL\_QUESTION:** I've completed my schedule for today. When will I get the next sessions?

**QUESTION\_VARIATIONS:**

- When will my next session be unlocked after completing today's schedule?
- I finished today's sessions. Can I access tomorrow's sessions now?
- I completed all sessions for today, when do I get new sessions?
- Can I access the next day's sessions after completing the current day?
- Today's tasks complete ayindi, next sessions ela unlock avutayi?
- Schedule complete chesaanu, epudu next sessions vasatayi?
- I am ahead of schedule. Can I unlock the next sessions early?

**ANSWER:** You can access the sessions only at the mentioned timings. So, even if you complete today's sessions, subsequent sessions unlock only at the mentioned time.

Our Domain Experts have designed the schedule to help you make the most out of the program. Each day, you will unlock new sessions and practice sets. All you have to do is follow the daily schedule and keep learning.

**TAGS:** Next session unlock, schedule completion, session timing, daily unlock, completed schedule, session availability, unlock time, session access, ahead of schedule

---

## **SECTION: Daily Schedule Duration & Modification**

**GENERIC INFO (for RAG system context)** The daily learning schedule is fixed at approximately 6 hours — 3 hours of classes and 3 hours of practice sessions. This cannot be reduced or modified based on individual circumstances such as being a working professional or a college student. Students can complete the schedule at their own pace and use Sundays to clear any pending tasks. The structure is intentional and designed to ensure consistent progress and thorough learning.

---

## **RAG RETRIEVAL GUIDANCE FOR THIS SECTION**

Intent categories covered: Schedule reduction, workload management, part-time learning, working professional concerns, daily hour commitment.

Common cross-query pattern: Students asking this are often working professionals or college students who feel 6 hours is too much given their other commitments. They may frame it as a

request to reduce hours, have fewer classes per day, or follow a lighter schedule. The answer is consistent — schedule modification is not available — but the tone should be empathetic and redirect toward the Pause feature or Sunday catch-up as practical alternatives.

Language handling note: Students may express this as a time constraint rather than a direct request for schedule change. RAG systems should map all such workload or hour-reduction intents to this answer.

---

**QUESTION\_ID:** SD-001

**CANONICAL\_QUESTION:** Can my daily schedule be reduced to fewer hours?

**QUESTION\_VARIATIONS:**

- I am a working professional, can I have a lighter schedule?
- Can I reduce my daily learning from 6 hours to 4 hours?
- I have college, can I do fewer classes per day?
- Daily schedule takkuva cheyyachu aa?
- Naku job undi, 6 hours cheyyatam possible kaadu, schedule reduce cheyyachu aa?
- Can I follow a part-time schedule?
- I can only give 3-4 hours a day, is that okay?
- Can the number of daily classes be reduced?
- Schedule modify cheyyachu aa personal situation ki?
- I am busy, can I do less per day?
- Is there a flexible schedule option?
- Can I split the 6 hours across the day?
- I have other responsibilities, can I get a reduced workload?
- Daily 6 hours cheyyadam కష్టం undi, takkuva cheyyachu aa?
- Can I customize how many classes I attend per day?

**ANSWER:** A reduced or modified daily schedule is not available. The daily learning plan is fixed at approximately 6 hours — 3 hours of classes and 3 hours of practice sessions — and this cannot be changed based on individual circumstances such as work or college commitments.

That said, here are two ways to manage if you're finding it hard to keep up:

**Complete at your own pace:** You don't have to finish everything in one stretch. You can spread the 6 hours across the day in whatever way works for you — morning, afternoon, or evening — as long as you're completing it.

**Use Sundays to catch up:** If you miss tasks on any weekday, Sundays are available to clear any pending work and get back on track.

If you're going through a particularly busy period and need a short break, you can also use the **Pause Learning** feature to temporarily pause your schedule and resume when you're ready.

The structure is designed this way intentionally — consistent daily effort is what leads to real progress and job readiness. Staying committed to the schedule, even when it feels demanding, is what sets students apart in the long run.

**TAGS:** Schedule reduction, daily hours, working professional, part-time learning, flexible schedule, 6 hours, fewer classes, schedule modification, workload, college student, Sunday catchup, pace, Pause Learning

### **Offline Program:**

A: After completing the 3 hours in class sessions with instructors, you have to complete the respective coding practices. Otherwise, it will become difficult for you to understand the advanced concepts built based on the previous topics. So, you have to complete the daily schedule as it is. Even if you miss one or 2 days you have to complete them on Holidays/Sundays

---

**QUESTION\_ID:** CS-001

**CANONICAL\_QUESTION:** What is a Cheatsheet?

**INTENT CATEGORIES:** Cheatsheet definition, study material, quick reference, session notes, revision material

### **QUESTION\_VARIATIONS:**

- Cheatsheet ante enti?
- What are cheatsheets in the portal?
- Are cheatsheets helpful for revision?
- Cheatsheet notes ki same aa?
- What is the purpose of cheatsheets?
- Session lo cheatsheet emi chesatundi?
- Cheatsheet download cheyyachu aa?
- Cheatsheets ki use emi?
- Are cheatsheets available for all topics?
- Session notes ekkada untayi?

**ANSWER:** A Cheatsheet is a short, crisp set of notes covering the key concepts from a session — designed for quick reference and revision. Each cheat sheet summarises the most important points from a specific topic so you don't have to rewatch the full session every time you want to recall something.

They are especially useful when revising before assignments, assessments, or interviews.

Cheatsheets are organised topic-wise and are available for each course in the program. They can be accessed directly from your daily schedule (as part of that day's session flow) or all at once through the My Journey page.

Note: There is no option to download cheat sheets. All cheat sheets remain accessible on the portal at any time for revision.

TAGS: Cheatsheet, session notes, quick reference, revision, study material, topic-wise notes, daily schedule, My Journey, no download, portal access

---

**QUESTION\_ID:** CS-002

**CANONICAL\_QUESTION:** How do I access all Cheatsheets for a course at once?

**INTENT CATEGORIES:** Cheatsheet access, My Journey, course cheatsheets, topic-wise notes, revision navigation

**QUESTION\_VARIATIONS:**

- Where can I find all cheatsheets in one place?
- Course ki related anni cheatsheets ekkada untayi?
- How to open cheatsheets from My Journey?
- Cheatsheets topic wise chudadam ela?
- All cheatsheets at once ela access cheyyali?
- My Journey lo cheatsheets ekkada untayi?
- Course cheatsheets together chudadam ela?
- Specific topic cheatsheet ela find cheyyali?
- Cheatsheets navigate cheyyatam ela?
- Revision ki anni cheatsheets okachota chudachu aa?

**ANSWER:** You can access all cheat sheets for a course in one place through the My Journey page. Here are the steps:

- Step 1: Go to My Journey from the left navigation pane.
- Step 2: Click on the course for which you want to view the cheat sheets (for example, Build Your Own Static Website).
- Step 3: A panel will open showing three tabs: Course Plan, Cheat Sheets, Certification
- Step 4: Click on the Cheatsheets tab. All cheatsheets for that course are organised topic-wise. Click on any cheat sheet to open and read it.

You can also use the Search option within this tab to quickly find a cheatsheet by topic name.

This is the fastest way to revise all concepts for a course before assessments or interviews without having to navigate session by session.

**TAGS:** Cheatsheets, My Journey, course plan, access cheatsheets, topic-wise, revision, search cheatsheet, session notes, portal navigation

---

## **RAG KNOWLEDGE BASE ENTRY**

### **SECTION: Downloading Classes & Notes**

**GENERIC INFO (for RAG system context)** There is no option to download classes, notes, or any other learning materials from the portal. All content — including classes and notes — is accessible only within the portal. However, the content remains available on the portal at all times, so students can revisit and revise any class or material whenever they need to.

---

### **RAG RETRIEVAL GUIDANCE FOR THIS SECTION**

Intent categories covered: Content download, offline access, saving materials, PDF download, video download, notes download.

Common cross-query pattern: Students asking this are often looking for offline access — to study during travel, in low-network areas, or at their own convenience without being online. The answer is consistent — downloading is not available — but should reassure students that content remains accessible on the portal anytime for revision.

Language handling note: Students may ask about downloading videos, PDFs, notes, or classes specifically. RAG systems should map all such download or offline access intents to this answer.

---

**QUESTION\_ID:** DL-001

**CANONICAL\_QUESTION:** Can I download the classes or notes from the portal?

#### **QUESTION\_VARIATIONS:**

- Can I download the videos from my schedule?
- Is there an option to save the class recordings?
- Can I download notes as a PDF?
- Classes download cheyyachu aa?
- Notes PDF ga download cheyyachu aa?
- Offline lo chudaniki download cheyyachu aa?
- Can I save the learning materials to my device?
- Is there a way to access classes without internet?
- Videos offline lo chudaniki download cheyyachu aa?
- Can I export the cheat sheets or notes?

- Download option undi aa portal lo?
- I want to study offline, can I download the content?
- Can I get a PDF of the class notes?
- Is there any way to download course content?
- Materials save cheyyachu aa later chudaniki?

**ANSWER:** Currently, there is no option to download classes, notes, cheat sheets, or any other learning materials from the portal. Content cannot be saved to your device or exported as a PDF or any other format.

However, you don't need to worry about losing access. All classes and learning materials remain available on the portal at all times — you can go back and revise any class, notes, or content whenever you need to, as many times as you like.

So while offline access is not available, everything stays accessible on the portal for revision at your convenience.

**TAGS:** Download, offline access, video download, notes download, PDF export, cheat sheet, save content, offline learning, portal access, revision, content availability, no download option

---

## **RAG KNOWLEDGE BASE ENTRY**

**SECTION:** Accessing and Replaying Sessions

**GENERIC INFO (for RAG system context)** All completed sessions remain available in the student's learning portal at all times. Students can revisit any session for revision. Sessions are best experienced on a laptop for full functionality including coding practices, assignments, and projects. Mobile access is possible for the first 1-2 weeks but a laptop is strongly recommended.

## **RAG RETRIEVAL GUIDANCE FOR THIS SECTION**

Intent categories covered: Session replay, missed sessions, session access on mobile, device requirements, session availability.

Common cross-query pattern: Students may ask if they missed a session, if they can replay it, or if they can access sessions on their mobile phone. The answer is consistent — sessions are always accessible for replay. For mobile, emphasize that a laptop is needed for the full experience.

Language handling note: Students may say 'missed class', 'watch later', 'replay session', 'mobile phone use', 'phone lo cheyyadam'. RAG systems should map all such intents to the appropriate answer.

**QUESTION\_ID:** AR-001

**CANONICAL\_QUESTION:** Can I watch the sessions later, if I missed attending a session on time?

**QUESTION\_VARIATIONS:**

Can I watch a missed session later?

I missed today's class, can I watch it later?

Are sessions recorded and available to replay?

Session miss ayyindi, tarvata chudachu aa?

Can I access completed sessions at any time?

What happens if I can't attend a session on time?

I was busy and missed the session, is it still available?

What happens if I miss today's schedule?

**ANSWER:** Yes, you can watch the sessions later as well. All the completed sessions will be available in your learning portal. You can revisit the sessions at any time for revision.

But, we strongly suggest you to complete the sessions as per your schedule.

**TAGS:** Session replay, missed session, watch later, session availability, learning portal, revision, completed sessions, attend on time

---

**QUESTION\_ID:** AR-002

**CANONICAL\_QUESTION:** Can I watch sessions on Mobile?

**QUESTION\_VARIATIONS:**

- Can I use my phone to watch the sessions?
- Is it possible to access the learning portal on mobile?
- I don't have a laptop, can I use my phone?
- Mobile lo sessions chudachu aa?
- Do I need a laptop or can I use a mobile?
- Phone use cheyyadam possible aa for learning?
- Can I complete the program on mobile without a laptop?

**ANSWER:** You'll need a laptop to learn effectively. In the first one to two weeks, you can complete the schedule on your mobile. However, coding practices, assignments, and projects require a laptop. So, get a laptop as soon as possible.

**TAGS:** Mobile access, laptop requirement, phone learning, device compatibility, coding on mobile, assignment requirements, laptop urgency

---

**SECTION:** Checking the Daily Schedule

**RAG RETRIEVAL GUIDANCE FOR THIS SECTION**

Common cross-query pattern: Students are often confused about where to find their daily schedule or today's tasks. The answer is always to check the 'Your Schedule' section on the home screen.

**QUESTION\_ID:** CDS-001

**CANONICAL\_QUESTION:** How to check the Daily Schedule?

**Intent categories covered:** Daily schedule navigation, finding today's sessions, schedule overview, portal navigation.

**QUESTION\_VARIATIONS:**

Where can I find my daily schedule?

How do I see today's tasks in the portal?

Daily schedule ekkada chudali?

How to view my schedule on the learning portal?

What sessions do I have to complete today?

Where is the Your Schedule section?

where is my schedule?

today's tasks kanapadatle

**ANSWER:** Under the 'Your Schedule' section on the home screen, you will find sessions, practice sets, and assignments that you have to complete today.

We suggest you follow the same order shown in the 'Your Schedule' section.

**TAGS:** Daily schedule, Your Schedule section, home screen, sessions today, practice sets, assignments, schedule navigation, portal home

---

**QUESTION\_ID:** CDS-002

**CANONICAL\_QUESTION:** How to watch sessions and access previous sessions in the Advanced Learning Portal?

**QUESTION\_VARIATIONS:**

How do I access previous sessions in the portal?

Where can I find and watch old sessions?

How to watch sessions in Advanced Learning Portal?

Paatha sessions ela chudali portal lo?

How to replay a previous class in the learning portal?

Previous sessions access cheyyadam ela?

**ANSWER:** You can access and watch sessions in the Advanced Learning Portal in multiple ways:

Via My Journey page: Navigate to 'My Journey' from the left pane, find the mandatory courses for your program, select a course and click the Course button to access all sessions. Select the session of your choice to start watching.

Via Daily Schedule: Navigate to the home screen, click on a date on the calendar to see sessions for that day, and select the session you want to watch from the left pane.

Via Search: Use the Search option from the navigation bar or the left pane main menu to find any session by entering a keyword.

**TAGS:** Watch sessions, previous sessions, access sessions, My Journey, session replay, portal navigation, search session, session access

---

**SECTION:** Schedule Pace and Consistency

**GENERIC INFO (for RAG system context)** The program is self-paced, so students are not penalized for being behind by a few days. However, consistent daily learning is strongly recommended as companies look for consistency in candidates. Students can catch up by covering pending topics first.

**QUESTION\_ID:** SPC-001

**CANONICAL\_QUESTION:** Should I worry about being behind schedule by a few days?

**Common cross-query pattern:** Students who have fallen behind schedule often feel anxious or worried. The reassuring answer is that the program is self-paced. However, the tone should also emphasize the value of consistency for career outcomes.

**Intent categories covered:** Self-paced learning, schedule lag, consistency, being behind schedule, learning pace.

**QUESTION\_VARIATIONS:**

I'm behind schedule by a few days, is that a problem?

I missed a few days, should I be worried?

Schedule tappisaanu, problem avutunda?

What happens if I fall behind in the program?

Is the program strictly scheduled or self-paced?

I couldn't study for 3 days, can I catch up?

Schedule lo kaadu, ela catch up cheyyadam?

**ANSWER:** The program is self-paced in nature, so there is no need to worry. You can learn at your own pace.

However, we strongly recommend you to be consistent in your learnings, as most companies look for consistent candidates.

**TAGS:** Behind schedule, self-paced, learning pace, consistency, missed days, catch up, schedule lag, worried about schedule, company preference

---

## SECTION: My Journey & Growth Cycles

My Journey is your personalized learning roadmap on the learning portal. You can access it from the left pane main menu.

Your My Journey page displays your full learning path organised by Growth Cycles. Each Growth Cycle shows you the courses and topics assigned to that phase, along with the start and end dates, total duration in days, and your current completion percentage.

Each course in your journey displays the relevant technology tags so you know exactly which skills you are building. A green tick indicates that you have completed a course. An incomplete circle indicates that a course is pending.

You must complete all pending units in your current Growth Cycle before the next Growth Cycle is unlocked. If you have pending units, a notification banner will appear on your My Journey page with a View Pending Units button to help you navigate directly to the incomplete content.

[View Pending Units](#)

#### Java Full Stack

**Fundamentals** (Feb 17 to May 18) - 78 Days 50%

- Intro to Intensive ✓
- Build Your Own Static Website ○ HTML, CSS, BOOTSTRAP
- Build Your Own Responsive Website ✓ HTML, CSS, BOOTSTRAP
- Programming Foundations ○ PYTHON
- Introduction to Databases ○
- Choose Your Job Track ○

**Growth Cycle - 2** (May 19 to Aug 27) - 87 Days 26%

Your full learning path ends with a Mini Project, an Industry-Ready Certificate, and a Job Opportunity — all of which are unlocked progressively as you complete each stage of your journey.

## Growth Cycles Overview

Your learning program is structured into four phases:

- Growth Cycle 1 (GC1)
- Growth Cycle 2 (GC2)
- Growth Cycle 3 (GC3)
- Placement Preparation (GC4)

Growth Cycles 1 through 3 cover your technical curriculum, and Placement Preparation prepares you for job opportunities.

**Note:** Students in GC1 will not yet see further Growth Cycles on their My Journey page — these are only visible after they complete GC1, take the Fundamentals Exam, and select their job track. Until then, only GC1 content is visible on the My Journey page.

## Growth Cycle 1 — Fundamentals

Growth Cycle 1 focuses on Fundamentals that helps learners build core technical knowledge and professional skills before progressing to specialized Job Tracks.

It is the same for both job tracks. During GC1, you complete 4 courses that are identical across MERN Full Stack and Java Full Stack tracks.

At the end of GC1, you will take the Fundamentals Exam. Based on your performance, the system will suggest a job track for you. You can accept the suggested track or choose your preferred track — either MERN Full Stack or Java Full Stack. Once you submit the Job Track Preference Form, your selected job track will be activated from the next day onwards.

## Duration by Growth Cycle and Job Track

The duration of each Growth Cycle depends on your selected job track, as shown below:

| Phase / Growth Cycle          | MERN Full Stack Duration | Java Full Stack Duration |
|-------------------------------|--------------------------|--------------------------|
| Growth Cycle 1 (Fundamentals) | 70 days                  | 70 days                  |
| Growth Cycle 2                | 56 days                  | 87 days                  |

|                             |                       |                       |
|-----------------------------|-----------------------|-----------------------|
| Growth Cycle 3              | 52 days               | 44 days               |
| Placement Preparation (GC4) | 38 days               | 11 days               |
| Total                       | ~216 days (~6 months) | ~212 days (~6 months) |

## Courses by Growth Cycle and Job Track

The table below shows the courses you will complete in each Growth Cycle based on your job track:

| Growth Cycle               | MERN Full Stack Courses                                                                                                                                                           | Java Full Stack Courses                                                                                                                                                   |

|--|-----------------------------------------------|--|
|  | Mock Interview Tools,<br>Interview Essentials |  |
|--|-----------------------------------------------|--|

## Java Full Stack Curriculum:

- Initially, you will learn Programming Foundations with Python to grasp fundamental principles applicable to various programming languages, including Java.
- After mastering these concepts, you will proceed to Java-specific sessions, building on your foundational knowledge from the Python sessions.
- This structured approach will provide you with a more comprehensive understanding of programming concepts.

## Placement Preparation

By Growth Cycle-3 all course exams will be unlocked. Upon completing all of the courses and attempting each course exam, your placement preparation growth cycle starts.

The placement preparation is meticulously crafted to provide you with support, including resume building, offering interview preparation sessions, and conducting personalized one-on-one mock interviews to help you hone your interview skills.

- **Orientation:** Provides an introduction to the placement process and expectations.
- **Interview Preparation:** Helps you prepare for technical and non-technical interviews.
- **Create Resume:** Guides you in building a professional resume suitable for placements.
- **Interview Readiness:** Evaluates and improves your overall interview preparedness.
- **Mock Interviews:** Provides opportunities to practice interview scenarios before actual recruitment processes.

Placement Preparation Link: <https://learning.ccbp.in/placement-support>

Tip: Since recruiters will have access to your academic details, personal information, and work experience, it is crucial to ensure they are kept current. Please review and update this information in your Profile at <https://learning.ccbp.in/edit-profile>.

## Placement Opt-in and Activation

At the end of Placement Preparation (GC4), you need to fill out the Placement Opt-in Form. This form will be available in your last day's schedule under the name **Placement Opt-in Form**.

After submitting the form, it usually takes 24 to 48 hours for your placement eligibility to be activated. Once activated, you will get access to the Placement Portal and can start participating in placement opportunities.

---

**QUESTION\_ID:** GC-001

**CANONICAL\_QUESTION:** How much time will it take to complete each Growth Cycle?

Intent categories covered: Growth Cycle duration, course length, time to complete, My Journey page, job track, schedule overview, Placement Preparation duration, GC4 duration.

Common cross-query pattern: Students asking about duration may be in GC1 (where future cycles aren't visible yet) or in GC2+ (where full journey is visible). The answer must be conditional — GC1 students should be told that further Growth Cycles will appear after job track selection; GC2+ students should be directed to the My Journey page directly. RAG systems should use current Growth Cycle context if available to route appropriately.

**QUESTION\_VARIATIONS:**

- How long does each Growth Cycle take?
- What is the duration of the course?
- How many days is GC2 or GC3?
- Each growth cycle ki enni days untayi?
- Course complete avvadam ki entha time padutundi?
- How long is the full program?
- MERN track ki enni days untayi?
- Java track duration ela untundi?
- My journey lo duration chudachu aa?
- Course total duration enti?
- How many months will it take to finish the program?
- Growth cycle duration telsukovalante ela?
- When will I finish the course?
- Each phase ki enta time kavali?
- How many days remaining in my learning path?
- How long is placement preparation?
- GC4 enni days?
- When will my course end?
- What is my expected completion date?
- Is the Java track longer than MERN?

**ANSWER — FOR STUDENTS CURRENTLY IN GROWTH CYCLE 1:** Right now, you are in Growth Cycle 1 (Fundamentals), which is 70 days and is the same for both job tracks.

The further Growth Cycles — GC2, GC3, and Placement Preparation — will be visible on your **My Journey** page only after you complete GC1, take the Fundamentals Exam, and select your job track (MERN Full Stack or Java Full Stack). Once your job track is activated, your full learning path with all durations will appear on your My Journey page at <https://learning.ccbp.in/my-journey>.

Here is a preview of the durations based on each track:

| Phase                 | MERN Full Stack              | Java Full Stack              |
|-----------------------|------------------------------|------------------------------|
| GC1 — Fundamentals    | 70 days                      | 70 days                      |
| GC2                   | 56 days                      | 87 days                      |
| GC3                   | 52 days                      | 44 days                      |
| Placement Preparation | 38 days                      | 11 days                      |
| <b>Total</b>          | <b>~216 days (~6 months)</b> | <b>~212 days (~6 months)</b> |

Both tracks take approximately 6 months to complete.

---

**ANSWER — FOR STUDENTS IN GROWTH CYCLE 2 OR BEYOND:** You can view the duration of all your Growth Cycles on your **My Journey** page at <https://learning.ccbp.in/my-journey>.

Your My Journey page shows your full learning path organised by Growth Cycles, along with start and end dates, total duration in days, and your current completion percentage for each phase.

For reference, here are the durations by track:

| Phase              | MERN Full Stack | Java Full Stack |
|--------------------|-----------------|-----------------|
| GC1 — Fundamentals | 70 days         | 70 days         |
| GC2                | 56 days         | 87 days         |

|                       |                              |                              |
|-----------------------|------------------------------|------------------------------|
| GC3                   | 52 days                      | 44 days                      |
| Placement Preparation | 38 days                      | 11 days                      |
| <b>Total</b>          | <b>~216 days (~6 months)</b> | <b>~212 days (~6 months)</b> |

Note: **The durations above are standard reference values. Your My Journey page shows your actual personalised start and end dates.**

**TAGS:** Growth Cycle duration, course length, My Journey, job track, MERN Full Stack, Java Full Stack, GC1, GC2, GC3, Placement Preparation, total days, program duration, learning path, track selection, schedule overview

---

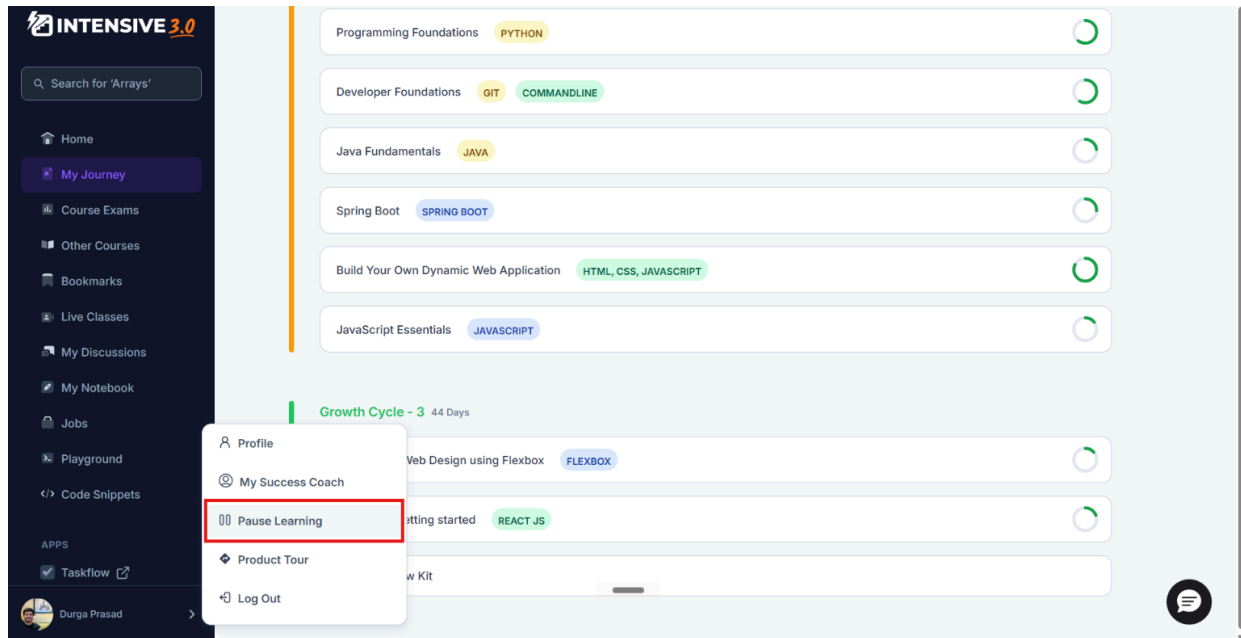

### **Pause Learning Feature**

**Intent categories:** Pausing schedule, resuming schedule, rescheduling missed classes, pending tasks due to personal reasons, managing backlog

**TAGS:** Pause learning, resume learning, schedule pause, pending tasks, backlog, catch up, rescheduled classes, missed sessions, pause limit, 90 days, exams, health, travel, family function, early resume, daily schedule

The Pause Learning feature allows you to temporarily pause your daily schedule when you are unable to continue due to personal circumstances. You can access the Pause Learning option by clicking on your profile icon at the bottom left of the left navigation pane and selecting Pause Learning from the menu.

### **How to Pause Your Learning**

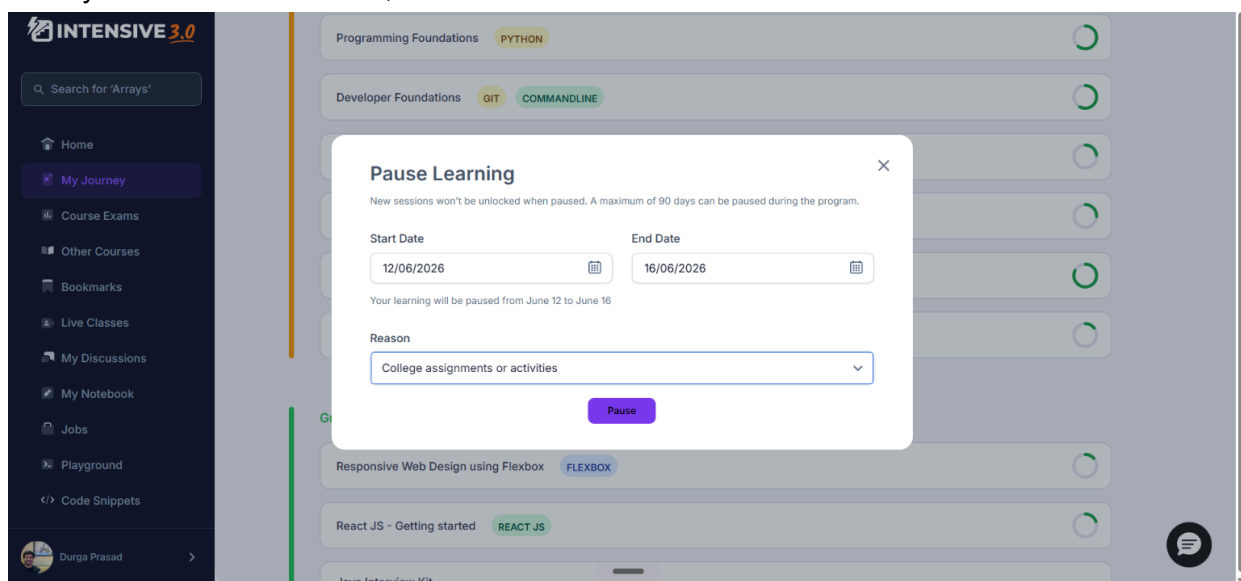

When you click Pause Learning, a dialog box will appear asking you to fill in three fields:

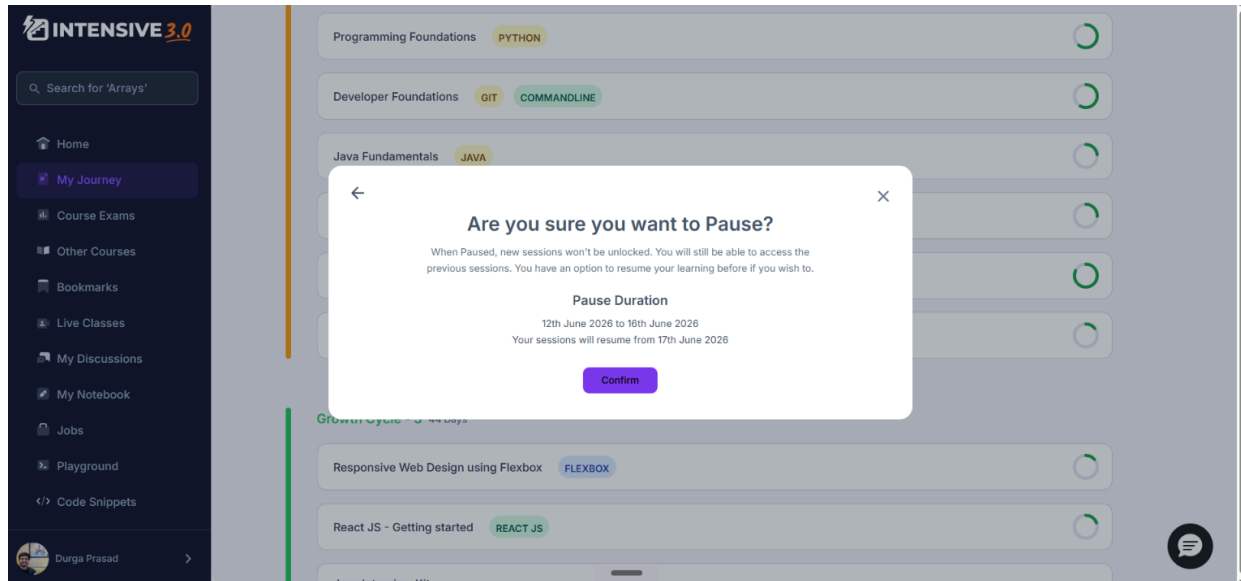

**Start Date:** Select the first date from which you want to pause your schedule.

**End Date:** Select the last date of your pause period.

**Reason:** Select the reason for pausing from the dropdown. The available reasons are: Exams, Health, Need to finish pending videos or practices, College assignments or activities, Family functions or event, Travelling, Network or device issues, and Other.

Once you fill in all three fields, click the Pause button to confirm.

## What Happens When You Pause

When you pause your schedule, new sessions will not be unlocked for the paused dates. The daily classes scheduled for those paused dates will not be accessible from their original dates. A pause symbol will appear on those dates in your schedule. You will be able to access the previous sessions. You have an option to resume your learning, if you wish to.

Your paused classes will automatically be carried forward to the upcoming dates in your schedule. For example, if you pause June 1st and June 2nd, the June 1st class will appear on June 3rd and the June 2nd class will appear on June 4th automatically. You can access the paused classes through the rescheduled dates going forward.

Pausing your schedule does not affect your access to any previously completed classes, course exams, live sessions, or any other content on the portal. Only the specific paused days are skipped. All previously available content remains accessible as usual.

## Pause Duration Limit

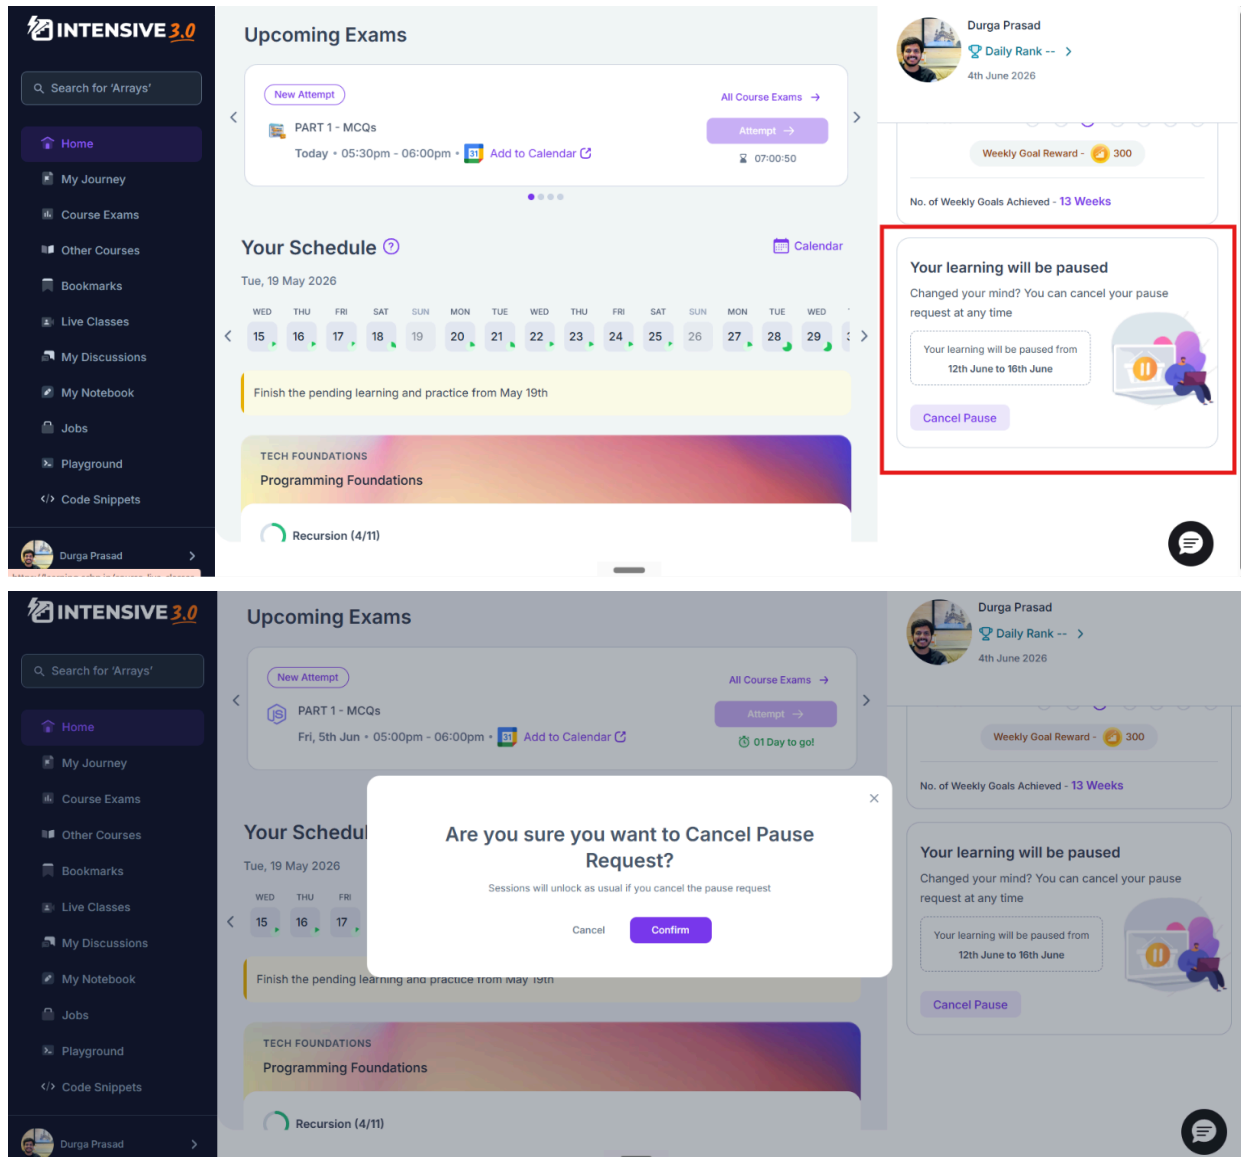

You can use the Pause option for as many days as needed, such as 2 days, 3 days, or longer periods. However, the maximum total pause duration allowed across the entire course is 90 days. Once you reach the 90-day limit, the Pause option will no longer be available.

## How to Resume Learning

If you paused your schedule for a certain number of days but your situation resolved earlier than expected, you can resume learning before your originally selected end date.

For example, if you paused for 15 days due to exams but your exams are completed in 10 days, you can resume your classes from the 11th day. Once you resume, your schedule will reopen from the next active day onwards.

Click on **Cancel Pause** and **Confirm**, you will get the schedule

**QUESTION\_ID:** PR-001

**CANONICAL\_QUESTION:** How do I pause my learning schedule?

**QUESTION\_VARIATIONS:**

- Can I pause my course for a few days?
- I have exams coming up, can I pause my schedule?

- I am unwell, can I take a break from the course?
- How to pause classes temporarily?
- Schedule pause cheyyadam ela?
- Nenu konni rojulu pause cheyyachu aa?
- I am travelling, can I pause my learning?
- Family function undi, schedule pause cheyyachu aa?
- I have college assignments, can I pause for a few days?
- Network issues unnai, pause cheyyachu aa?
- I can't study for a week, what should I do?
- Pending tasks chala unnai, pause cheyyachu aa?
- I have too many pending topics, should I pause?
- Exams ki prepare avvadam ledu, schedule pause cheyyachu aa?
- Can I skip some days without losing my classes?

**ANSWER:** Yes, you can pause your learning schedule using the **Pause Learning** feature.

**How to pause:** Click on your profile icon at the bottom left of the left navigation pane and select **Pause Learning** from the menu. A dialog box will appear where you need to fill in three fields:

- **Start Date** — the first date you want to pause from
- **End Date** — the last date of your pause period
- **Reason** — select from the dropdown (Exams, Health, Need to finish pending videos or practices, College assignments or activities, Family functions or event, Travelling, Network or device issues, Other)

Once all fields are filled, click **Pause** to confirm.

**What happens when you pause:**

- New sessions will not be unlocked on the paused dates
- Your paused classes are not lost — they are automatically rescheduled to upcoming dates. For example, if you pause June 1st and June 2nd, the June 1st class will appear on June 3rd and the June 2nd class on June 4th
- All previously completed classes, exams, live sessions, and other content remain fully accessible — only the specific paused days are skipped

**Pause duration:** You can pause for as many days as needed. However, the maximum total pause allowed across the entire course is **90 days**. Once this limit is reached, the Pause option will no longer be available.

**QUESTION\_ID:** PR-002

**CANONICAL\_QUESTION:** I have a lot of pending tasks. What should I do?

## QUESTION\_VARIATIONS:

- Chala pending undi, emi cheyyali?
- Backlog chala undi, ela manage cheyyali?
- I am falling behind on my schedule, what do I do?
- Too many pending videos and practices, how to catch up?
- I missed many days, how do I get back on track?
- Pending topics complete cheyyataniki time ledu, emi cheyyali?
- I couldn't study for many days, what happens to my classes?
- Schedule ante chala behind poyanu, pause cheyyachu aa?
- I want to complete my pending tasks before moving forward
- Can I pause to finish my pending work?
- How should I proceed if I was unable to finish the course because of unforeseen circumstances?
- I had an emergency and couldn't study, what should I do?
- Unforeseen circumstances valla course complete cheyyaleka poyanu
- I was unwell and missed many sessions, how do I catch up?
- Life lo problems vachhayi, course behind poyindi, emi cheyyali?
- I couldn't follow the schedule due to personal issues, what now?

**ANSWER:** Don't worry — falling behind due to unexpected circumstances happens, and there is a clear way to get back on track.

The best approach is to first **pause your schedule** to stop new sessions from piling up while you catch up on what you've missed. Use that paused time to go back, review the concepts you've already covered, and solidify your understanding before moving forward.

For example, if you have around 10 days' worth of pending content, pause for 10 days, clear your backlog during that time, and then resume — you'll be back on track without any additional pressure.

### How pausing helps:

- No new sessions unlock during the pause period
- Your upcoming classes get pushed forward automatically — nothing is lost
- You get focused, pressure-free time to catch up and revise

Once you've cleared your pending work, resume your schedule and continue from where you left off. Staying consistent from here is what matters most — you can still finish the course and reach your goals.

**To pause:** Go to your profile icon (bottom left) → select **Pause Learning** → fill in your start date, end date, and reason → click **Pause**.

To resume early once you're ready, go to your profile icon → select **Cancel Pause**.

**TAGS:** Pending tasks, backlog, catch up, unforeseen circumstances, missed sessions, emergency, fell behind, pause learning, resume learning, schedule management, personal issues, overwhelmed

---

**QUESTION\_ID:** PR-003

**CANONICAL\_QUESTION:** How do I resume my learning before my pause end date?

**QUESTION\_VARIATIONS:**

- My exams got over early, how do I resume?
- I want to start learning again before the pause ends
- Pause early ga resume cheyyadam ela?
- Nenu pause chesanu but ippudu continue cheyyali, ela cheyyali?
- I paused for 15 days but I'm ready in 10 days, can I resume early?
- How to unpause my schedule?
- Can I restart my classes before the pause period is over?
- Pause end avvakapoina mundu resume cheyyachu aa?
- I feel better now, how do I get back to studying?
- My situation resolved early, how do I continue my course?

**ANSWER:** Yes, you can resume your learning at any time before your originally selected pause end date.

Once you click on **Cancel Pause**, your schedule will reopen from the next active day onwards and continue as normal.

For example, if you paused for 15 days due to exams but finished your exams in 10 days, you can resume on day 11 — and your schedule will pick up from there without waiting for the full 15 days to pass.

To resume, go to your profile and select the **Cancel Pause** option to reactivate your schedule ahead of the planned end date.

**TAGS:** Resume early, cancel pause, unpause schedule, resume before end date, pause chesinappudu ela resume, restart learning

---

**QUESTION\_ID:** PR-004

**CANONICAL\_QUESTION:** I am unable to access paused sessions. How do I access them?

## QUESTION\_VARIATIONS:

- Sessions not accessible after pause, how to access them?
- My paused sessions are not visible, what should I do?
- Paused sessions access avvattledu, ela cheyyadam?
- I resumed but I can't find my paused sessions.
- Pause chesina sessions resume tarvata ekkada untayi?
- Where do I find the sessions I paused?
- Can I watch my paused sessions before the pause period ends?
- Sessions are locked even after I resumed from pause.

**ANSWER:** Paused sessions should be accessible after your pause period ends. Once you resume, you can access the sessions where you left off.

Say you pause from 1st Aug to 7th Aug and resume sessions on 8th Aug, then the 1st to 7th Aug schedule will be allocated from 8th Aug onwards.

**TAGS:** Paused sessions access, sessions after pause, resume sessions, pause schedule access, session visibility after pause, paused days rescheduling

---

## QUESTION\_ID: PR-005

### **Q: Will my course duration extend by X days if I pause the course for X days?**

A: Your course access period will be extended if you pause your course. For instance, if you pause a course for 30 days, you will have access to it for another 30 days beyond your 16 months of access from the date of your registration.

Note: A maximum of 90 days can be paused during the program.

---

### **Q: Can I skip a few topics and directly attempt assignments?**

Assignments are unlocked only after you complete the required classes, practice sessions, MCQs, and coding exercises — so skipping topics will restrict your access to assignments and exams until the eligibility criteria are met.

The learning path follows a deliberate sequence for a reason. Each topic builds on the previous one. The recommended order is:

1. Attend the class
2. Practice live during the session
3. Review the cheat sheet for that topic
4. Complete the MCQs

## 5. Practice coding exercises

Following this sequence reinforces your understanding and builds the ability to apply concepts — both of which matter when it comes to actual assignments and company hiring exams.

It's worth asking: the goal here is a job, and a good one. Rushing through half-understood concepts might feel faster, but it often leads to failing technical screenings and losing more time in the long run. Moving through the course properly — even if it takes a bit longer — gives you a stronger foundation and a better shot at clearing those exams confidently.

If you've already skipped some topics, no need to worry. Simply go back to the topic or day you missed and pick up from there. Pending tasks are not a problem — learning correctly is what counts.

---

### SECTION: Early Access

**GENERIC INFO (for RAG system context)** Early Access allows eligible students to unlock and complete an entire upcoming Growth Cycle (level) ahead of the standard daily schedule. It is intended for students who have prior knowledge, relevant experience, or can invest significantly more time (10–12 hours/day) into learning. Early Access is granted only at the Growth Cycle level — not for individual days or topics. To request it, students must email **support@nxtwave.tech** from their registered email ID, stating their reason. After completing the requested Growth Cycle, they can request the next the same way.

**QUESTION\_ID:** EA-001

**CANONICAL\_QUESTION:** I already know these topics. Can I move on to the next topics or level?

**Intent categories:** Schedule acceleration, prior knowledge, skipping levels, self-paced fast-tracking

### QUESTION\_VARIATIONS:

- I already know this — can I skip ahead?
- I have prior experience with this content. Can I access the next level?
- These topics are too basic for me. Can I jump to advanced content?
- I don't want to wait for the daily schedule. Can I learn at my own pace?
- I want to complete the course faster. Is that possible?
- Naku ee topics already vastunnai, next topics ki vellachu aa?
- Naku ivi already telusu, munduku vellachu aa?
- I know programming already, can I skip to next cycle?

- Course slow gaa undi, fast gaa complete cheyyachu aa?
- Memu already ivi cheppindi, again cheyyadam waste of time ga feel avutundi
- I have more time, can I study more than the daily schedule?
- Can I complete two days' content in one day?
- Daily schedule kaakaunda complete cheyyadam possible aa?
- I want to learn faster, what should I do?
- Is there any way to unlock next topics early?

**ANSWER:** If you already have prior knowledge of the current topics, have relevant experience, or can dedicate more time to learning (around 10–12 hours per day), you may be eligible for Early Access.

Early Access allows you to unlock and complete an entire upcoming Growth Cycle (level) ahead of the standard daily schedule — so you can progress at your own pace rather than waiting for each day's content to open.

A few important things to know:

- Early Access is available only at the Growth Cycle level. It cannot be used to unlock just the next day's or next topic's content.
- For example, if your program has Growth Cycle 1, 2, and 3 — you can request Early Access for the full Growth Cycle 1 (Fundamentals) in advance, but not for individual sessions within it.

**To request Early Access:** Send an email to [support@nxtwave.tech](mailto:support@nxtwave.tech) from your registered email ID. Mention that you'd like Early Access and explain your reason (prior knowledge, experience, availability, etc.).

Once you complete that level, you can send another email to request Early Access for the next Growth Cycle and continue the same process.

**TAGS:** Early Access, schedule, unlock, skip topics, prior knowledge, fast track, Growth Cycle, self-paced, level unlock, support request

---

## Early Access — Why Re-requesting Is Required for Each Growth Cycle

**GENERIC INFO (Additional context for RAG system)** Each Growth Cycle has a system-enforced minimum duration (e.g., 50 days, 60 days — varies by cycle). The next Growth Cycle unlocks automatically only after this duration has passed AND the mandatory units are completed. Students who take Early Access often finish a Growth Cycle well before the system-enforced duration (e.g., completing in 30 days what is set for 50 days). In such cases, the system will not automatically unlock the next Growth Cycle — it will wait until the 50-day mark. This is why Early Access students must contact the Support Team again to manually unlock the next Growth Cycle. If a student has taken longer than the specified duration to

complete the cycle, the next Growth Cycle unlocks automatically and no support request is needed.

**QUESTION\_ID:** EA-002

**CANONICAL\_QUESTION:** I completed my Growth Cycle under Early Access. Why isn't the next one unlocked yet?

**QUESTION\_VARIATIONS:**

- I finished the level but the next one is not opening
- I completed Growth Cycle 1, next cycle is not unlocking
- Nenu early access lo complete chesanu, next cycle ela unlock avutundi?
- Next growth cycle open avvadam ledu, enti cheyyali?
- I finished everything, why is the next level still locked?
- Early access teesukunnanu, complete chesanu but next topics ravadam ledu
- I completed the cycle in 20 days but next cycle is not showing
- Next level unlock avvadam ledu, support ki mail cheyyalaa?
- After completing early access what should I do for next level?
- Cycle complete chesanu, next cycle ki early access ela teesukovali?

**ANSWER:** Each Growth Cycle has a system-enforced minimum duration (for example, 50 days or 60 days, depending on the cycle). The next Growth Cycle unlocks automatically only after this time period has passed and all mandatory units in the current cycle are completed.

When you take Early Access, you often complete the cycle faster than its set duration — for instance, finishing a 50-day cycle in just 30 days. In this case, the system still waits until the 50-day mark before auto-unlocking the next cycle.

That is why the next Growth Cycle does not open immediately after you finish — and why you need to contact the Support Team again to request Early Access for the next Growth Cycle.

**What you should do:** Send an email to [support@nxtwave.tech](mailto:support@nxtwave.tech) from your registered email ID, mention that you have completed the current Growth Cycle and would like Early Access for the next one.

**Note:** If you have taken longer than the specified duration to complete the cycle (e.g., more than 50 days), the next Growth Cycle will unlock automatically — no support request is needed in that case.

**TAGS:** Early Access, Growth Cycle unlock, next level locked, system duration, auto unlock, re-request, support email, cycle complete, minimum duration, schedule enforcement

---

**QUESTION\_ID:** NL-001

**CANONICAL\_QUESTION:** Why is my next session, unit, or Growth Cycle not unlocking?

**GENERIC INFO (for RAG system context)** There are multiple reasons why content may appear locked. The RAG system should attempt to identify which of the following scenarios applies based on the student's message context — whether they are asking about a full Growth Cycle not unlocking, a specific unit within a course being locked, or a specific form or exam not appearing. Each scenario has a distinct resolution path. If the specific locked item cannot be determined from context, the system should ask a clarifying question before routing to a resolution.

### **RAG RETRIEVAL GUIDANCE FOR THIS SECTION**

Intent categories covered: Locked content, next Growth Cycle not unlocking, specific unit locked, exam not visible, job track form not appearing, early access cycle not opening, QA/DA track curriculum gap.

Cross-reference: If the student has completed a Growth Cycle under Early Access and the next cycle is locked → route to EA-002 in addition to this entry.

Disambiguation trigger: If the student mentions a specific unit, course, or topic being locked → ask "Which course and unit is locked?" before routing to support ticket creation.

### **QUESTION\_VARIATIONS:**

- Why is the next Growth Cycle not opening?
- My next session is locked, why?
- Next growth cycle unlock avvadam ledu, enti cheyyali?
- I completed everything but next level is still locked
- Why can't I access the next topic?
- Specific unit lock avundi, ela open cheyyali?
- Next cycle ki access ledu, emi cheyyali?
- I finished all videos but next session is not showing
- Why is my course unit still locked?
- Fundamentals Exam is not showing, why?
- Job Track Preference Form is not unlocking
- Next growth cycle enduku lock avundi?
- I completed GC1 but GC2 is not opening
- Unit open avvadam ledu, support raise cheyyalaa?
- Recursion unit lock avundi, ela access cheyyali?

### **ANSWER — SCENARIO 1: Next Growth Cycle is not unlocking (standard schedule)**

The most common reason is that you have pending units in your current Growth Cycle. All mandatory units must be completed before the next Growth Cycle unlocks.

Check your **My Journey** page at <https://learning.ccbp.in/my-journey> — if there are pending units, a notification banner will appear with a **View Pending Units** button. Complete those units and the next Growth Cycle will unlock within 24 hours.

#### **ANSWER — SCENARIO 2: Next Growth Cycle is not unlocking (Early Access students)**

If you completed your Growth Cycle under Early Access earlier than the system-defined duration, the next cycle will not unlock automatically — it waits until the minimum duration period is reached. You will need to contact the Support Team to manually unlock it. See EA-002 for full details.

#### **ANSWER — SCENARIO 3: A specific unit within a course is locked**

Please share which course and which specific unit is locked. I can raise a support ticket on your behalf, based on these details, the Support Team can investigate and unlock it if applicable.

#### **ANSWER — SCENARIO 4: Fundamentals Exam is not visible**

The Fundamentals Exam unlocks only after you complete all required units across the GC1 courses. Check for any pending units on your My Journey page and complete them — the exam will appear once all prerequisites are done.

#### **ANSWER — SCENARIO 5: Job Track Preference Form is not appearing**

The Job Track Preference Form unlocks only after you complete the Fundamentals Exam. Complete the exam first and the form will become available.

#### **ANSWER — SCENARIO 6: QA/DA job track students — Recursion unit is locked**

For students on the QA or DA job track, the Programming Foundations Recursion and beyond units are not part of your core curriculum. If you are interested in learning these concepts, they can be unlocked manually. Please let us know and we will raise a support ticket to get this enabled for you.

**ESCALATION PATH:** For Scenarios 3 and 6, or any case where the above steps do not resolve the issue, a support ticket should be raised with the following details: student's registered email ID, the specific course name, and the specific unit or session that is locked.

**TAGS:** Locked content, next Growth Cycle, unit locked, session locked, pending units, Fundamentals Exam, Job Track Form, Early Access, QA track, DA track, Recursion unlock, My Journey, support ticket, Growth Cycle unlock, 24 hours

---

#### **SECTION: Unlocking Specific Topics in Advance**

**GENERIC INFO (for RAG system context)** Students who need to learn a specific topic from a future Growth Cycle — for example, due to an upcoming job application or interview requirement — do not need to wait until that Growth Cycle unlocks in their regular schedule. That specific topic can be accessed through other available courses on the portal. Progress completed there is reflected in the main program, so when the student naturally reaches that Growth Cycle, the topic will already show as completed with green tick marks. This is different from Early Access, which unlocks an entire Growth Cycle. This option is for unlocking individual topics in advance.

## **RAG RETRIEVAL GUIDANCE FOR THIS SECTION**

Intent categories covered: Topic-specific early access, job preparation, interview readiness, unlocking future content, learning specific skills ahead of schedule.

Common cross-query pattern: Students typically don't ask "how do I unlock a topic in advance" — they express urgency around a specific technology or skill needed for a job application or interview. These should map to this answer. Distinguish from Early Access (which is for full Growth Cycle unlock) — if the student needs only one specific topic, this is the relevant answer.

Language handling note: Students may mention specific technologies like ReactJS, Node.js, SQL, etc. RAG systems should treat these as topic-specific unlock intents and map to this answer regardless of the technology named.

**QUESTION\_ID:** TU-001

**CANONICAL\_QUESTION:** I need to learn a specific topic from a future level. Can I access it now?

### **QUESTION\_VARIATIONS:**

- I have an interview and need to learn ReactJS, but it's in a later cycle
- Can I access a future topic without waiting for my schedule?
- I am applying for jobs and need to learn a specific skill now
- Next cycle lo undi topic ippude nerchukovali, ela cheyyali?
- ReactJS naku ippude kavali, but it's not in my current schedule
- Can I unlock just one topic from the next Growth Cycle?
- I need Node.js / SQL / specific skill for an interview, how do I access it?
- Future topic early ga nerchukovalante ela?
- Job apply chestunna, specific topic unlock cheyyachu aa?
- I don't want full early access, I just need one topic
- Can I study a topic that hasn't been unlocked yet in my schedule?
- Interview ki React kavali, ippude nerchukune option undi aa?
- Specific subject unlock cheyyadam ela?
- I need to prepare for a company test, can I access a topic from next level?
- Next growth cycle lo unna oka topic matrame ippude cheyyadam possible aa?

**ANSWER:** Yes, if you need to learn a specific topic from a future Growth Cycle — for example, ReactJS from Growth Cycle 3 while you are currently in Growth Cycle 2 — that topic can be unlocked through other available courses on the portal, without waiting for your regular schedule to reach that level.

**How it works:**

- The specific topic you need is made accessible through a separate course available on the portal
- You can learn and complete that topic there at your own pace
- When you later reach that Growth Cycle in your regular schedule, the topic will already show as completed with green tick marks — your progress carries over automatically

**Important distinction:** This is different from Early Access, which unlocks an entire Growth Cycle. If you only need one specific topic in advance — especially for a job application or interview — this is the right option for you.

To get a specific topic unlocked, reach out to the Support Team at [support@nxtwave.tech](mailto:support@nxtwave.tech) from your registered email ID, mention the exact topic you need and the reason (such as a job application or interview), and the team will assist you.

**TAGS:** Topic unlock, specific topic, future Growth Cycle, early topic access, job preparation, interview preparation, ReactJS, advance access, individual topic, green tick, progress sync, course portal, support request

---

## **RAG KNOWLEDGE BASE ENTRY**

### **SECTION: No Schedule / Empty Dates in Calendar**

**GENERIC INFO (for RAG system context)** When a student sees no sessions or an empty schedule for a range of dates, there are three distinct scenarios that explain it. The RAG system should identify which scenario applies based on context clues in the student's message — whether they mention having paused, being near the end of their program, or simply noticing blank dates unexpectedly. Each scenario has a different resolution and display behavior on the portal.

### **RAG RETRIEVAL GUIDANCE FOR THIS SECTION**

Intent categories covered: Empty schedule, no sessions showing, blank dates, missing classes, schedule gap, no content for certain dates.

Cross-reference: If student mentions having paused → cross-reference PR-001 (Pause & Resume). If student mentions Early Access completion and locked next cycle → cross-reference EA-002.

Disambiguation trigger: If context is unclear, ask — "Are you seeing a pause symbol on those dates, or are the dates blank with no symbol?"

**QUESTION\_ID:** NS-001

**CANONICAL\_QUESTION:** Why is there no schedule or sessions for certain dates?

**QUESTION\_VARIATIONS:**

- Why are some dates empty in my schedule?
- No sessions are showing for this week, why?
- Konni dates lo schedule ledu, enti?
- My calendar shows blank dates, what happened?
- Why are there no classes for these dates?
- Schedule gap undi, enduku?
- Certain dates lo content ledu, emi cheyyali?
- I don't see any sessions for the next few days
- My schedule stopped showing new content
- No new sessions are unlocking, why?
- Schedule paused symbol chustundi, enti?
- Last day complete chesanu but nothing is showing now
- I finished everything, what do I do next?
- Schedule empty ga undi, sessions enduku ravadam ledu?
- Why did my daily schedule stop?

**ANSWER — SCENARIO 1: You took longer than the expected Growth Cycle duration**

If you were unable to complete your current Growth Cycle within its pre-defined duration, new sessions will not be unlocked for the extra dates that went beyond the schedule. The dates in your calendar will appear empty, and when you click on those dates, you will see a message: **"Completing the pending sessions."**

New sessions will resume within 24 hours once you finish all pending units in your current Growth Cycle. Focus on completing the pending content and your schedule will reopen automatically.

**ANSWER — SCENARIO 2: You have paused your schedule for those dates**

If you previously used the Pause Learning feature for certain dates, those dates will show no sessions — this is expected. A **pause symbol** will appear on those dates in your calendar.

Your paused classes are not lost — they are automatically rescheduled to upcoming dates. Once your pause period ends, your schedule will resume normally. If you want to resume earlier than your selected end date, you can do so from your profile settings.

### **ANSWER — SCENARIO 3: You have completed your entire program (Last day of Placement Preparation)**

If you have completed all sessions in your final Growth Cycle — Placement Preparation — and there are no further sessions in your schedule, this means you have reached the end of your learning journey.

At this stage, a notification will appear on your **My Journey** page prompting you to improve your mock interview scores to increase your chances of getting placed. Focus on that and ensure your Placement Opt-in Form has been submitted if you haven't done so already.

If you haven't submitted the Placement Opt-in Form yet, it will be available on your last day's schedule. After submission, placement eligibility activation takes 24 to 48 hours, following which you will get access to the Placement Portal.

**TAGS:** Empty schedule, no sessions, blank dates, schedule gap, paused dates, pause symbol, Growth Cycle duration exceeded, pending sessions, Placement Preparation complete, last day, mock interview, Placement Opt-in, schedule stopped, no new content, calendar empty

---

**QUESTION\_ID:** FE-001

**CANONICAL\_QUESTION:** What happens if I fail the Fundamentals Exam?

**INTENT CATEGORIES:** Fundamentals exam, pass or fail, exam result, job track suggestion, exam purpose, exam anxiety, exam performance

**QUESTION\_VARIATIONS:**

- What if I don't do well in the Fundamentals Exam?
- Fundamentals exam fail ayithe emi avutundi?
- Is there a pass or fail in the Fundamentals Exam?
- Fundamentals exam lo low score vasthe emi avutundi?
- Will I be removed from the program if I fail the exam?
- Exam badly chesthe job track vasatunda?
- Fundamentals exam result recruiters ki vastunda?
- Will my exam score affect my placement?
- Exam lo marks takkuva vasthe emi avutundi?
- Is the Fundamentals Exam graded?
- What is the purpose of the Fundamentals Exam?
- Exam attempt cheyyakapothe emi avutundi?
- Fundamentals exam score share avutunda?
- Can I retake the Fundamentals Exam if I don't do well?
- Exam nervous ga undi, fail ayithe emi chestaru?

**ANSWER:** There is no pass or fail in the Fundamentals Exam. The exam is not designed to judge you or determine whether you can continue in the program. Its sole purpose is to assess your current level of understanding and help recommend the most suitable job track for you — MERN Full Stack or Java Full Stack.

After you attempt the exam, our team reviews your performance and suggests a track that aligns with your strengths. You can accept the suggested track or choose your preferred track by submitting the Job Track Preference Form.

**A few important things to know:** The Fundamentals Exam report will not be shared with recruiters or companies at any point. It is strictly used internally to guide your learning path.

Completing the four Fundamentals courses is mandatory before you can attempt the exam — Build Your Own Static Website, Build Your Own Responsive Website, Python Programming Foundations (up to Functions), and Introduction to Databases (SQL).

The exam is an opportunity to understand where you stand, not something to be anxious about. Focus on completing your Fundamentals courses thoroughly and you will be well-prepared.

**TAGS:** Fundamentals Exam, pass or fail, exam result, job track suggestion, exam purpose, low score, exam anxiety, recruiter sharing, exam report, MERN Full Stack, Java Full Stack, track recommendation, GC1, prerequisites, exam attempt

---

**QUESTION\_ID:** FE-002

**CANONICAL\_QUESTION:** Why do I need to appear for the Fundamentals Exam if I can select my job track myself?

**INTENT CATEGORIES:** Fundamentals exam purpose, exam necessity, track selection, exam value, why exam is required

**QUESTION\_VARIATIONS:**

- Why is the Fundamentals Exam mandatory?
- Exam endi mandatory, track nenu chooskovachu kadha?
- Why can't I just select my job track without the exam?
- Fundamentals exam endi ivali?
- Exam purpose emi, direct ga track choose cheyyachu kadha?
- Is the Fundamentals Exam compulsory?
- Why do I have to take the exam before choosing a track?
- Exam mandatory aa, skip cheyyachu aa?
- What is the point of the Fundamentals Exam?
- Can I skip the exam and directly choose my track?

**ANSWER:** The Fundamentals Exam is a required step before you can select your job track, and it serves an important purpose beyond just letting you choose.

The exam assesses your understanding of the core concepts you have studied — Static Website, Responsive Website, Python (up to Functions), and SQL. Based on your performance, our industry experts analyze your strengths and suggest the most suitable job track for you.

This matters because choosing the wrong track — one that does not align with your current strengths — can slow your progress and affect your placement outcomes. The exam helps ensure you are guided toward the track where you are most likely to succeed.

That said, the final choice always remains yours. You can accept the suggested track or choose your preferred track when you submit the Job Track Preference Form. The exam is not meant to restrict your choice — it is meant to inform it.

**TAGS:** Fundamentals Exam, exam purpose, mandatory exam, track selection, job track suggestion, exam necessity, skip exam, GC1, track recommendation, exam value

---

**QUESTION\_ID:** FE-003

**CANONICAL\_QUESTION:** Can I attempt the Fundamentals Exam more than once?

**INTENT CATEGORIES:** Exam attempts, retake exam, multiple attempts, exam frequency, exam policy  
**QUESTION\_VARIATIONS:**

- Can I retake the Fundamentals Exam?
- Fundamentals exam multiple times attempt cheyyachu aa?
- If I don't like my result, can I give the exam again?
- Can I appear for the exam again?
- Exam retake option undi aa?
- One time matrame exam ivvachu aa?
- Can I give the Fundamentals Exam twice?
- Exam once attempt chesaka, malli cheyyachu aa?
- Is there a second attempt for the Fundamentals Exam?
- What if I want to retake the exam after seeing my results?

**ANSWER:** The Fundamentals Exam is attempted only once. Since there is no pass or fail in this exam, there is no need to retake it.

The exam is purely used to assess your current understanding and recommend the most suitable job track for you. Once you attempt it, our team reviews your performance and suggests a track. You can then accept the suggestion or choose your preferred track yourself when submitting the Job Track Preference Form.

Before attempting the exam, make sure you have completed all four prerequisite courses — Build Your Own Static Website, Build Your Own Responsive Website, Python Programming Foundations (up to Functions), and Introduction to Databases (SQL). Completing these thoroughly is the best way to feel confident going into the exam.

**TAGS:** Fundamentals Exam, retake, multiple attempts, exam once, exam policy, exam attempt, job track suggestion, prerequisites, GC1

---

**QUESTION\_ID:** FE-004

**CANONICAL\_QUESTION:** What is the format of the Fundamentals Exam?

**INTENT CATEGORIES:** Exam format, exam pattern, exam duration, MCQ, coding questions, mock exam, exam structure

**QUESTION\_VARIATIONS:**

- What type of questions are in the Fundamentals Exam?
- Fundamentals exam lo em vasatundi?
- How long is the Fundamentals Exam?
- Exam duration enti?
- Is it MCQ or coding?
- Exam pattern ela untundi?
- What subjects are covered in the exam?
- Fundamentals Exam - SQL exam format ela untundi?
- Fundamentals Exam - HTML and Python exam lo coding questions untaya?
- Is there a mock exam before the main exam?
- Can I practice before the Fundamentals Exam?
- Exam ki prepare avvadam ela?
- How many minutes is the Fundamentals Exam?
- What to expect in the Fundamentals Exam?
- Exam lo MCQ only untaya aa coding kuda untunda?

**ANSWER:** Here are the details of the Fundamentals Exam:

**Pattern:** MCQ-type questions for SQL, and coding questions for HTML, CSS, and Python (up to Functions)

**Duration:** 120 minutes

**Mock Exam:** Before the main exam, you will get a chance to attempt a mock exam. This helps you get familiar with the exam pattern and the test environment before you sit for the actual exam.

The exam covers the four prerequisite courses — Build Your Own Static Website, Build Your Own Responsive Website, Python Programming Foundations (up to Functions), and Introduction to Databases (SQL). Completing these courses thoroughly is the best preparation you can do.

**TAGS:** Fundamentals Exam, exam format, exam pattern, MCQ, coding questions, exam duration, 120 minutes, SQL, HTML, CSS, Python, mock exam, exam structure, GC1, exam preparation

---

**QUESTION\_ID:** FE-005

**CANONICAL\_QUESTION:** Can I access the Fundamentals Exam without completing the prerequisite courses?

**INTENT CATEGORIES:** Exam access, prerequisites, mandatory courses, exam eligibility, course completion requirement

**QUESTION\_VARIATIONS:**

- Can I skip the prerequisite courses and take the exam directly?
- Fundamentals exam ki prerequisites mandatory aa?
- I haven't completed all courses, can I still take the exam?
- Exam access cheyyataniki courses complete cheyyali aa?
- Can I attempt the exam before finishing Static and Responsive courses?
- Prerequisites complete cheyyakapothe exam vastunda?
- Is course completion mandatory before the exam?
- Can I access the exam without finishing Python and SQL?
- Exam unlock avvadam ki em complete cheyyali?
- I want to take the exam early, is that possible?

**ANSWER:** No. Completing all four prerequisite courses is mandatory before the Fundamentals Exam becomes accessible to you. The exam will not unlock until you have finished all of the following:

Build Your Own Static Website, Build Your Own Responsive Website, Python Programming Foundations (up to Functions), Introduction to Databases (SQL)

This requirement exists for a reason — the exam directly tests your understanding of these four courses. Attempting it without completing them would not give you an accurate picture of your strengths, and the track suggestion would not be meaningful.

Focus on completing these courses in the order given in your daily schedule, and the exam will unlock automatically once all prerequisites are done.

**TAGS:** Fundamentals Exam, prerequisites, mandatory courses, exam access, exam eligibility, course completion, Static Website, Responsive Website, Python, SQL, exam unlock, GC1

---

**QUESTION\_ID:** AM-001

**CANONICAL\_QUESTION:** Are assignments mandatory?

**INTENT CATEGORIES:** Assignment requirement, mandatory tasks, assignment eligibility, skip assignment

**QUESTION\_VARIATIONS:**

- Do I have to complete all assignments?
- Assignments mandatory aa?
- Can I skip assignments?
- Assignments complete cheyyakapothe emi avutundi?
- Are assignments graded?
- What happens if I don't submit an assignment?
- Assignment submit cheyyakapothe next topic unlock avutunda?
- Are daily assignments compulsory?
- I missed an assignment, will it affect my progress?
- Assignment importance enti?
- Are assessments mandatory?
- Do I have to take all assessments?
- Assessments mandatory aa?
- Course exam compulsory aa?
- What happens if I don't attempt the assessment?
- Assessment skip cheyyachu aa?
- Exam attend cheyyakapothe emi avutundi?
- Are course exams required to proceed?
- Assessment complete cheyyakapothe next cycle unlock avvada?
- Exam give cheyyakapothe placement affect avutunda?

**ANSWER:** Yes, assignments are a mandatory part of the program. They are included in your daily schedule and contribute directly to your learning progress and curriculum completion.

Assignments are not unlocked immediately — they become accessible only after you complete the required classes, practice sessions, MCQs, and coding exercises for that topic. This ensures you have the necessary foundation before attempting them.

- What happens if you skip or miss assignments:
- You will not be able to mark the day as complete
- Your Growth Cycle completion may be delayed

Next Growth Cycle content will not unlock until all mandatory units — including assignments — are finished

If you have missed assignments, go back to the day or topic in your schedule, complete the pending sessions in order, and the assignment will become accessible.

**TAGS:** Assignments, mandatory, daily schedule, assignment unlock, skip assignment, pending tasks, Growth Cycle completion, session order, compulsory

---

**QUESTION\_ID:** PJ-001

**CANONICAL\_QUESTION:** What are Projects in the program?

**INTENT CATEGORIES:** Projects definition, real-world projects, portfolio building, project importance

**QUESTION\_VARIATIONS:**

- What kind of projects will I build?
- Program lo projects untaya?
- Are projects part of the curriculum?
- How many projects will I complete?
- Projects mandatory aa?
- What is the purpose of projects?
- Real-world projects ante enti?
- Projects portfolio ki help avutaya?
- Project build cheyyadam ela nerchukuntam?
- What projects are included in MERN or Java track?

**ANSWER:** Projects are practical, real-world development activities built into your curriculum. They allow you to apply everything you have learned — HTML, CSS, JavaScript, Python/Java, frameworks — by building complete, working applications from scratch.

You will build 10+ projects across the program. Examples of projects you will build include:

- A portfolio website
- A food ordering application
- A social feed platform

**Why projects matter:**

- They are the most important part of your portfolio when applying for jobs
- They demonstrate to recruiters that you can build real software, not just answer theory questions

- Each project is built step by step as part of your Growth Cycle curriculum — they are not optional extras

Projects are a mandatory part of the curriculum. Completion of projects is required to finish your Growth Cycle and progress toward placement preparation.

**TAGS:** Projects, real-world projects, portfolio, curriculum, mandatory, MERN Full Stack, Java Full Stack, food ordering app, portfolio website, social feed, job readiness, placement

---

**QUESTION\_ID:** CC-001

**CANONICAL\_QUESTION:** How do I know if I have completed my curriculum?

**INTENT CATEGORIES:** Curriculum completion check, Growth Cycle status, My Journey progress, completion indicators

**QUESTION\_VARIATIONS:**

- How do I know when I've finished the course?
- Curriculum complete ayyinda ani ela telsukovali?
- How to check my course completion status?
- My Journey lo completion ela check cheyyali?
- Have I completed all sessions?
- What does a completed Growth Cycle look like?
- Green tick ante complete ayyindaa?
- How do I confirm I've finished a Growth Cycle?
- What are the signs that I've completed everything?
- Course complete chesanu, next step emi?

**ANSWER:** You can check your curriculum completion status from two places on the portal:

1. Your Schedule (Home Screen: <https://learning.ccbp.in>)

- If all sessions, coding practices, and assignments for a given day are completed, that date will show a green tick on the calendar.
- If some tasks are pending, the circle will be partially filled.

2. My Journey Page (<https://learning.ccbp.in/my-journey>)

- Each course in your journey shows a completion percentage and a green tick when fully completed.
- If there are any pending units in your current Growth Cycle, a notification banner will appear with a View Pending Units button.

- A fully completed Growth Cycle means all sessions, practice sets, assignments, assessments, and projects in that cycle are done.

Your curriculum is considered complete when:

- All four Growth Cycles — GC1, GC2, GC3, and Placement Preparation — are finished
- All mandatory sessions, coding practices, assignments, assessments, and projects are completed
- The Placement Opt-in Form has been submitted

**TAGS:** Curriculum completion, Growth Cycle complete, My Journey, green tick, pending units, course status, completion check, placement eligibility, Placement Opt-in Form

---

**QUESTION\_ID:** CA-001

**CANONICAL\_QUESTION:** What happens after completing the curriculum?

**INTENT CATEGORIES:** Post-curriculum steps, placement phase, what's next after course, placement portal

**QUESTION\_VARIATIONS:**

- Course complete chesaka emi avutundi?
- What is the next step after finishing the course?
- After completing the program, how do I get placed?
- Placement process ela start avutundi?
- I finished all Growth Cycles, what do I do now?
- Curriculum complete ayyindi, placement ela vasatundi?
- Post-course mee support ela untundi?
- After course completion, what support do I get?
- Placement portal access ela vasatundi?
- Course chesaka interview opportunities vasataaya?

**ANSWER:** Once you complete the curriculum, you move into the Placement Preparation phase (Growth Cycle 4), if you haven't reached it already. Here is what happens after you complete your full curriculum:

#### **Step 1 — Submit the Placement Opt-in Form**

- The Placement Opt-in Form will be available in your last day's schedule under that name. Submit it to signal that you are ready for placement support.

#### **Step 2 — Placement eligibility activation**

- After submitting the form, it takes 24 to 48 hours for your job portal to be activated.

### Step 3 — Access the Placement Portal

- Once activated, you will get access to the Placement Portal, where you can start participating in placement opportunities — job openings, company hiring processes, and interview slots.

### Step 4 — Continue with mock interviews and preparation

- Even after completing the curriculum, your My Journey page will prompt you to improve your mock interview scores to increase your chances of getting placed. Use this time to sharpen your skills.

Placement support duration:

- Online Program: Up to 8 months of placement support

**TAGS:** After curriculum, placement process, Placement Opt-in Form, Placement Portal, placement eligibility, mock interviews, post-course, what's next, Growth Cycle 4, placement support duration

---

**QUESTION\_ID:** CA-002

**CANONICAL\_QUESTION:** Will completing the curriculum help me prepare for placements?

**INTENT CATEGORIES:** Placement readiness, curriculum value, job preparation, skill building

**QUESTION\_VARIATIONS:**

- Does completing the course guarantee a job?
- Curriculum complete cheyyatam placement ki help avutunda?
- Will I get placed after finishing the program?
- How does the course prepare me for interviews?
- Is the curriculum aligned with what companies look for?
- Course chesaka job vasatunda?
- Program lo placement preparation untunda?
- Will I be interview-ready after finishing the course?
- How job-ready will I be after completing NxtWave Intensive?
- Does the curriculum cover what companies test?

**ANSWER:** Yes. The curriculum is specifically designed to build the skills and experience that companies look for when hiring entry-level software developers.

Here is how the curriculum prepares you for placements:

- **Technical foundation:** You progressively build skills in HTML, CSS, JavaScript, Python or Java, frameworks, and databases — all of which are tested in company hiring exams.
- **Hands-on projects:** You build 10+ real-world projects (portfolio website, food ordering app, social feed platform, and more). These give you something concrete to present to recruiters and demonstrate that you can build actual software.
- **Coding practices and assessments:** These mirror the kind of problem-solving and technical questions asked in company hiring rounds.
- **Aptitude and English:** From around Day 13–14 of your schedule, aptitude and English sessions are also included in your daily plan, as these are tested in many company selection processes.
- **Placement Preparation phase (GC4):** The final Growth Cycle includes Placement Orientation and Interview Essentials — specifically designed to prepare you for interviews, resume writing, and the overall hiring process. NxtMock AI Interviews & Company Specific Trainings are also provided.

**Important note:** NxtWave Intensive is not a job guarantee program. It provides structured learning, real project experience, and placement support — the outcome depends on consistent effort, skill development, and performance in interviews.

**TAGS:** Placement readiness, curriculum and jobs, interview preparation, placement support, job guarantee, projects, aptitude, English, hiring exams, placement preparation, GC4, job-ready

---

**QUESTION\_ID:** SK-001

**CANONICAL\_QUESTION:** What skills will I gain after completing the curriculum?

**INTENT CATEGORIES:** Skills gained, curriculum outcomes, job roles, technologies learned, certificates, Industry-Ready Certificate, track-specific skills, placement readiness

**QUESTION\_VARIATIONS:**

- What will I learn in this program?
- Program complete chesaka naku emi vasatundi?
- Which technologies will I know after the course?
- What job roles am I eligible for after completing?
- Course chesaka which companies can I apply to?
- What is the Industry-Ready Certificate?
- IRC ante enti?
- Certificate vasatunda course chesaka?
- Will I get a certificate for each course?
- What skills does MERN Full Stack teach?
- Java Full Stack lo em nerchukuntam?
- After program completion what are my job opportunities?

- Course tarvata which roles ki apply cheyyachu?
- Program tarvata salary expectations emi?
- What is the viva interview for?

ANSWER: The skills you gain depend on the job track you choose. Here is a full breakdown:

### **MERN Full Stack Track (Online)**

- **Technologies you will learn:** HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, Python, Django, React JS, Node JS, Express JS, MongoDB
- **What you will build:** 10+ real-world projects including a portfolio website, food ordering application, social feed platform, and the React JS Mini Project
- **Job roles you become eligible for:** Frontend Developer, Full Stack Developer (MERN), React Developer, Node.js Developer, Web Developer

### **Java Full Stack Track (Online)**

- **Technologies you will learn:** HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, Java, Spring Boot, React JS
- **What you will build:** 10+ real-world projects including a portfolio website, food ordering application, social feed platform, and the React JS Mini Project
- **Job roles you become eligible for:** Java Developer, Full Stack Developer (Java), Spring Boot Developer, Backend Developer, Web Developer

Beyond technical skills, the curriculum also covers:

- **Aptitude and English:** Included in your daily schedule from around Day 13-14 — tested in most company selection processes
- **Interview preparation:** Resume writing, mock interviews, and Interview Essentials (covered in Placement Preparation / GC4)
- Problem-solving through coding practices, MCQs, and assessments throughout the program

### **Certifications you will receive:**

- **Course Certificates:** A certificate is awarded upon completing each individual course in the program (e.g., upon completing Programming Foundations, React JS, etc.)
- **Industry-Ready Certificate (IRC):** The most significant credential in the program. It is awarded after:
  - Completing the entire curriculum across all Growth Cycles
  - Successfully clearing a Viva Interview

The IRC is recognized as a signal to employers that you have met the required learning, project completion, and practical demonstration criteria for your program track. It can be added to your resume and LinkedIn profile.

**Note:** NxtWave Intensive is not a job guarantee program. Placement outcomes depend on consistent effort, skill development, project quality, and performance in company interviews.

**TAGS:** Skills gained, technologies, MERN Full Stack, Java Full Stack, Python Full Stack, job roles, certificates, Industry-Ready Certificate, IRC, viva interview, course certificate, aptitude, English, placement readiness, curriculum outcomes, frontend developer, Java developer, React developer, full stack developer

---

**QUESTION\_ID:** PJ-002

**CANONICAL\_QUESTION:** What is the Mini Project (Capstone Project)?

**INTENT CATEGORIES:** Mini project definition, capstone project, React JS mini project, project eligibility, project submission, Industry-Ready Certificate, placement, My Journey milestone

**QUESTION\_VARIATIONS:**

- What is the mini project in the program?
- Mini project ante enti?
- What is a capstone project?
- Capstone project NxtWave lo undi aa?
- React JS mini project ela unlock avutundi?
- Mini project ki eligible avvadam ela?
- Mini project submit cheyyatam ela?
- Project resume lo pettachu aa?
- Mini project complete cheyyakapothe emi avutundi?
- My Journey lo mini project ekkada untundi?
- Mini project test cases ela pass cheyyali?
- Project randomly select avutunda?
- What projects can I build in the mini project?
- How do I unlock the mini project?
- Mini project placement ki help avutunda aa?

**ANSWER:** The Mini Project (also referred to as the Capstone Project, React Mini Project) is a major hands-on project that appears near the end of your learning journey on the My Journey page — specifically after you complete the React JS course in your Growth Cycle 3.

**What it is:**

It is a full, real-world application you build independently — demonstrating your hands-on development skills with React JS. Including it on your resume or portfolio shows potential

employers that you can build production-level software and helps you stand out from other candidates.

### **How to become eligible:**

To unlock the Mini Project, you must complete at least 90% of the required units in React JS — specifically, completing 5 assignments in the React JS course. Once eligible, one project will be randomly assigned to you from the available project pool.

### **Projects you may be assigned include:**

- Movies App (Netflix / Amazon Prime Clone)
- Covid Dashboard
- Tasty Kitchens (Swiggy / Zomato Clone)
- Spotify Remix (Spotify Clone)
- Mini Games (Collection of Memory Games)
- Task Manager (Trello Clone)
- Github Profile Visualizer

(and others from the project pool)

### **How submission works:**

Once you build and submit your project, it is evaluated automatically through test cases directly on the portal. Your submission is accepted once all test cases pass.

### **Why it matters for placement:**

Adding a completed mini project to your resume significantly improves your chances of getting noticed by recruiters and clearing initial screening rounds. It is one of the strongest signals to employers that you have practical, hands-on experience — not just theoretical knowledge.

**TAGS:** Mini project, capstone project, React JS mini project, project eligibility, assignment completion, 90% criteria, test cases, project submission, resume, portfolio, placement, My Journey, Netflix clone, Swiggy clone, Spotify clone, Trello clone, random project, industry-ready

---

**QUESTION\_ID:** APP-001

**CANONICAL\_QUESTION:** Is there a NxtWave app I can download for learning?

**INTENT CATEGORIES:** Mobile app, NxtWave app, app download, portal access, home screen shortcut, Chrome browser

**QUESTION\_VARIATIONS:**

- NxtWave app download cheyyachu aa?
- Is there an app for the learning portal?
- Play Store lo NxtWave app undi aa?
- App Store lo NxtWave app undi aa?
- Can I install the NxtWave app on my phone?
- Portal ki app undi aa?
- Learning app undi aa NxtWave ki?
- Phone lo app install cheyyatam ela?
- App download link emi?
- Portal ni app la use cheyyatam ela?

**ANSWER:** Currently, there is no dedicated NxtWave app available on the Play Store or App Store. The Advanced Learning Portal is accessed through the Google Chrome browser at <https://learning.ccbp.in>

However, you can add a shortcut to the portal on your phone's home screen so it feels and opens like an app:

**On Android (Chrome):**

- Open <https://learning.ccbp.in> in Chrome → Tap the three-dot menu → Select "Add to Home Screen" → Tap Add

**On iPhone (Safari):**

- Open <https://learning.ccbp.in> in Safari → Tap the Share icon → Select "Add to Home Screen" → Tap Add

This shortcut gives you one-tap access to the portal directly from your home screen.

**Important:** A laptop is required for coding practices, assignments, and projects. The portal shortcut on mobile is useful for watching sessions or reviewing cheat sheets on the go, but not a substitute for a laptop.

**TAGS:** NxtWave app, mobile app, app download, Play Store, App Store, home screen shortcut, Chrome browser, portal access, Android, iPhone, learning portal, mobile access

---

## Subject Doubts

## Coding Problems/Assignments

**QUESTION\_ID:** CODE-001

**CANONICAL\_QUESTION:** How can I solve coding practices better?

**QUESTION\_VARIATIONS:**

- Coding problems solve cheyyatam ela?
- I'm struggling with coding assignments, what should I do?
- Coding practice improve cheyyatam ela?
- I can't solve the coding problems, help cheyandi
- Coding assignment lo stuck ayya, emi cheyyali?
- How to approach a coding problem?
- Coding skills ela improve cheyyali?

**ANSWER:** Here are the steps to approach any coding problem effectively:

1. **Read and understand** the problem clearly before writing any code
2. **Break it down** — split the problem into smaller, manageable parts
3. **Identify the concepts** involved and analyze the right approach for that problem
4. **Write an algorithm** — plan the steps before coding
5. **Write clean code** based on your algorithm

The more you practice, the better you get. If you have subject-related doubts while solving a coding practice, post your question in the **Discussion tab** of that specific session or coding practice. Domain experts will respond within 24 hours.

**TAGS:** coding practice, assignments, problem solving, discussion tab, coding skills, approach

---

**QUESTION\_ID:** PD-001

**CANONICAL\_QUESTION:** What are Pinned Discussions and how do I use them?

**QUESTION\_VARIATIONS:**

- Pinned discussions ante enti?
- Why are some questions at the top of the discussion tab?
- Discussion tab lo pinned questions ela work avutayi?
- How do I find if my doubt is already answered?
- Before posting a doubt what should I check?
- Discussion lo top lo unna questions enti?
- Frequently asked questions discussion lo ekkada untayi?
- My doubt already answered avundaa ela chekk cheyyali?
- Pinned discussion ekkada untundi?
- Should I check something before asking a doubt?

- Discussion post cheyyamundu em cheyali?
- Common doubts ekkada chudali?
- Same question already asked avundaa ela telusukovali?
- Pinned questions ela find cheyyali?
- Discussion tab lo important questions ela identify cheyyali?

**ANSWER:** Pinned Discussions are commonly asked questions that are highlighted and kept at the top of the Discussion tab within each session or coding practice. When multiple students ask similar questions, those discussions are pinned so they are easy for everyone to find.

Before posting a new doubt, always check the Pinned Discussions first — your question may already be answered there. This saves you time and gets you an answer immediately without waiting for a response.

**How to use them:** Open any session or coding practice and scroll to the Discussion tab. Pinned questions will appear at the top of the list. Read through them to see if your doubt has already been addressed.

If your question is not covered in the pinned discussions, you can post it as a new doubt by clicking Ask Doubt. Domain experts will respond within 24 hours.

**TAGS:** Pinned discussions, commonly asked questions, discussion tab, doubt answered, Ask Doubt, before posting, frequently asked questions, domain experts, session discussions, coding practice discussions

---

## Exams

**QUESTION\_ID:** CODE-002

**CANONICAL\_QUESTION:** I have doubts about the Foundation Exams or Mock Tests in Programming Foundations with Python. Where can I ask?

**QUESTION\_VARIATIONS:**

- Foundation exam lo doubt undi, ela clear cheyyali?
- Mock test question answer teliyatledu
- Programming Foundations exam doubt ela ask cheyyali?
- Foundation exam lo discussion section ledu enduku?
- Why is there no discussion tab in the foundation exam?
- Foundation exam 1 2 3 4 doubt ela clear cheyyali?
- Python foundations exam lo problem undi
- I'm stuck on a foundation exam question

**ANSWER:** Foundation Exams and Mock Tests are intentionally designed without a discussion section. This is because these assessments are meant to test your independent problem-solving ability — a critical skill for software developers and interviews. Relying on external help for exam questions limits your ability to build this skill.

Here's what you can do instead:

- **Revise the relevant concepts** from the sessions and cheat sheets in the course
- **Re-attempt the exam** after revising — you can attempt it multiple times
- If you need help **understanding a concept** (not the exam question itself), post your doubt in the **Discussion tab of the respective course session** and domain experts will assist you within 24 hours

**Note:** Foundation Exams are part of the Programming Foundations with Python course and are different from both Course Exams and the Fundamentals Exam used for job track selection.

- After completing **Foundation Exams 1 & 2**, students are given the opportunity to select their job track
- **Foundation Exams 3 & 4** are part of **Growth Cycle 2** and are applicable only for **MERN & Java Full Stack** students in **Intensive 2.0 & 3.0**
- **DA & QA job track** students have only **Foundation Exams 1 & 2** — Exams 3 & 4 are not part of their curriculum
- **Intensive 1.0** students have all 4 Foundation Exams regardless of job track

**TAGS:** foundation exam, mock test, Programming Foundations Python, discussion tab, doubt, intensive 1.0 2.0 3.0, MERN, Java, DA, QA, problem solving

---

**QUESTION\_ID:** JV-001

**CANONICAL\_QUESTION:** Why are there no videos for some concepts in Java Fundamentals?

**INTENT CATEGORIES:** Java videos missing, no video in Java, Java cheatsheet only, Python to Java, Java fundamentals, missing sessions, concept already covered

**QUESTION\_VARIATIONS:**

- Why are some Java topics missing videos?
- Java lo konni concepts ki videos levu, enduku?
- Java fundamentals lo videos kanapadatle, emi cheyyali?
- Why is there only a cheatsheet and no video for some Java topics?
- Java lo concepts skip chesara?
- Some Java sessions have no video, is that a mistake?
- Java lo loops ki video ledu, enduku?
- Why are certain Java topics only in cheatsheet format?

- Java fundamentals incomplete ga undi, emi cheyyali?
- Python lo cheppindi, Java lo video ledu enduku?
- Is the Java curriculum incomplete?
- Java sessions lo content missing ga undi
- Why do some Java concepts only have cheatsheets?
- Java lo konni topics ki videos enduku ivvadam ledu?
- Did they skip teaching some Java concepts?

**ANSWER:** This is intentional and here is the reasoning behind it.

Programming Foundations with Python is already completed before starting Java Fundamentals. Python is used to teach you the core fundamentals of programming such as variables, loops, functions, conditions, and more. These concepts are universal across all programming languages. The logic is the same, only the syntax changes.

Think of it this way — "hello" in English, "namaskaram" in Telugu, "vanakkam" in Tamil. The meaning is identical, only the way you say it differs. Programming works the same way. A loop in Python and a loop in Java do the same thing — the difference is only in how you write it. What takes 3 lines in Python might take 10 lines in Java, but the underlying concept is identical.

Since you have already learned and understood these core concepts thoroughly during the Python sessions, there is no need to re-explain the concept again in Java. Instead, what you need to learn is simply how to write the same concept in Java syntax — and that is exactly what the cheatsheets cover for those topics.

For any concepts that are unique to Java and not covered during Python, full video sessions are provided.

So the curriculum is not incomplete — it is structured this way to avoid repetition, save your time, and build on what you already know rather than starting from scratch.

If you feel you need more clarity on any specific Java concept, you can post your doubt in the Discussion tab of that session or join a Live Session (11 AM – 8 PM, Monday to Saturday) for guidance from domain experts.

**TAGS:** Java videos missing, Java cheatsheet, Python to Java, Java fundamentals, no video, syntax difference, programming concepts, loops, Java curriculum, incomplete curriculum, concept repetition, Python foundations, Java sessions, cheatsheet only topics

---

Students cannot reset their schedule and restart from Day 1, even after a long break. Once a level is unlocked, it remains available and there is no reset option

# Exams

**Context:****Online:**

- **Intensive 1.0 - Python IDP Level-1 and Level-2 Exams are conducted**
- **Intensive 2.0, 3.0 - Course Exams are being conducted**

**Offline:**

- **Weekly assessments are being conducted based on the content covered during the week in an offline environment**
- **Benchmarking Assessments are conducted every 14 days (Fortnight)**

**Course Exams**

The course exam aims to assess your understanding and knowledge of the course content and serves as a means to evaluate your readiness and proficiency in the subject. Ensure that you complete your course exams.

Course Exams are being conducted every week on the same day and same time.

You can find the scheduled course exams and the links in the Course Exams page

<https://learning.ccbp.in/course-exams>

**Reason for Specific Exam Timings:**

- Exams are conducted at the same time for all students to prevent copying or leaking of questions. This ensures fairness and integrity in the examination process. Please ensure you take your exams at the designated times and plan your schedule accordingly.
- If you pause the schedule, no new classes will be unlocked, and all previously unlocked classes will remain accessible. If the exams have already been unlocked, you will still be able to take the exams during the pause. There are no restrictions on writing the exams while your schedule is paused.

If, for any reason, a student is unable to attend the exam for a particular week or if the exam session gets terminated, the student can still attend the course exam scheduled for the following week.

There are 10 course exams in the MERN Fullstack course and 11 course exams in Java Full stack course

**Course Exams Schedule - MERN Full Stack**

| Day | 10:00 AM - 12:00 PM | 2:00 PM - 3:00 PM | 6:00 PM - 8:00 PM |

### Grading System:

After writing the course exam you will get a grade

You can attempt the course exams multiple times to improve your grade.

| Grade | Percentage obtained in the exam | Grade Points |
|-------|---------------------------------|--------------|
| A     | 80%-100%                        | 10           |
| B     | 60%-79%                         | 8            |
| C     | 40%-59%                         | 6            |
| D     | 20%-39%                         | 4            |
| E     | 0%-19%                          | 2            |

An overall cumulative grade will be assigned based on your performance across all courses within your chosen job track. The cumulative grade reflects your overall progress and success in the program.

**Note: Cumulative Grade = (Sum of all the course Grades present in the Job Track) / (Number of courses present in the job track)**

*e.g., "For example, if you have 4 courses with grades 10, 8, 6, and 8, your CGPA =  $32/4 = 8$ .*

Maintaining good grades throughout the program is crucial, as it can increase the number of job opportunities available to you.

Recruiters will have access to your grades and performance during the program, and this information may be considered when evaluating candidates for job openings.

### Course Exams Portal Feature

The Course Exams page shows all your course exams in one place.

Course Exams page link: <https://learning.ccbp.in/course-exams>.

**Upcoming Exams — Home Page**

Upcoming course exams are also displayed directly on the Home page under the "**Upcoming Exams**" section, so you can quickly see and access your next exams without navigating away.

- Up to **4 upcoming exams** are visible in this section at a time.
- Each exam card shows the **exam name, scheduled date, and time slot**.
- An **Add to Calendar** button is available to save the exam slot to your Google Calendar.
- A **live countdown timer** shows the time remaining until the exam window opens.
- If you have **not yet attempted** the exam, an **Attempt** button will be displayed.
- If you have **already attempted** the exam and wish to improve your grade, a **Re-attempt** button will be displayed.
- An exam card will remain visible in this section **until you receive A grade** for that exam. Once a grade is obtained, it will no longer appear here.

To view and manage **all your course exams**, navigate to the Course Exams page.

Exams are organized Growth Cycle-wise:

| Growth Cycle               | MERN Full Stack Course Exams                                                                                                                                                | Java Full Stack Course Exams                                                                                                                                              |

- Growth Cycles are locked until the previous one is completed, and unlock automatically once eligibility is met.

Each exam card on the portal shows:

- Exam name and scheduled date/time slot
- Add to Calendar button - lets you add the exam slot directly to your Google Calendar
- Attempt button (for exams not yet attempted) or Re-Attempt button (for exams already attempted) - clicking this takes you to the exam
- Countdown timer showing how many days are left until the exam window opens (e.g., "02 Day to go!") or a live timer if the exam is ongoing

### CGPA

- On the right side of the Course Exams page, you will find your Skill Profile panel.
- It displays: CGPA (Cumulative Grade Point Average) - shown as a circular gauge with your current score (e.g., 2.9 out of 10).
- Click "View Report" to see a detailed Performance Report.
  - For each course exam, you can review: Best Grade, Grade Points, Score
- Tier Badge - Your performance tier based on your CGPA. Tiers progress from Wooden -> Bronze -> Silver -> Gold -> Diamond.
- IRC Eligibility Note - A minimum CGPA of 7.5 is required to be eligible for the Industry Ready Certificate (IRC). The portal will display a reminder to retake exams if your CGPA is below 7.5.

## Test Guidelines

### Before The Exam

- Check Test Timings carefully, you can attempt the Test only during the mentioned time slots.
- Be ready with your Laptop/Computer at least 10 - 15 minutes before the test starting time.
- Ensure you have a Stable Internet Connection.
- Turn off notifications in your system/laptop and keep all your devices on Silent Mode.
- Please ensure that your device camera is working prior to the exam.
- Ensure that your laptop/computer is fully charged before attempting the Test.

## During The Exam

- Google Chrome is a recommended browser for attempting the Exams. You may face issues while using other browsers.
- As the exam is proctored you are not allowed to switch your screen, use a calculator, mobile phone, or any other electronic gadget.
- No other person should be present in the room throughout the duration of the test.
- It is recommended that you take the test in a well-lit area for effective proctoring.
- Please ensure that you are not looking away from the screen during the test.
- Do not seek any help from the internet or another person.
- Please ensure that you are not communicating with any other person during the test.
- If determined to be engaging in malpractice or not following instructions, you will be given two warnings before your test is terminated.

## To Avoid Technical Issues follow the below steps

- Before attempting the exam you must close all tabs and turn off all **notifications** ( Browser, App, and Device Notifications like Fully charged, plugged In, etc.)
- During the exam, do not press any special keys such as **Windows key, F12, escape**, etc.
- Before attempting the exam you should take **Mock Exams**
- **Positioning of the web camera:-**
  - Ensure that the web camera will capture your face from the neck upwards. Your entire face must be visible. Ensure that the position of it does not cut off part of your face.
  - If your webcam is built-in, adjust your monitor height if necessary and ensure that the webcam is pointing at your face.
  - If your webcam is mountable, position it on your monitor so that it is directly facing you.
  - If your picture is out-of-focus then you will get the below Error. **Ensure that your face is clearly visible on the web camera during the exam.**

⚠ Could not detect your face

You have moved out of the frame. You must stay in the center of the frame until the exam is completed.

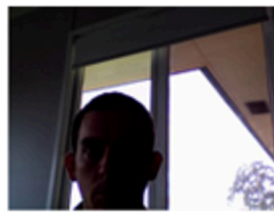

Timer

🕒 00 : 00 : 22

- To help you prepare, please refer to the below images which shows an INVALID and a VALID exam attempt.

INVALID TEST

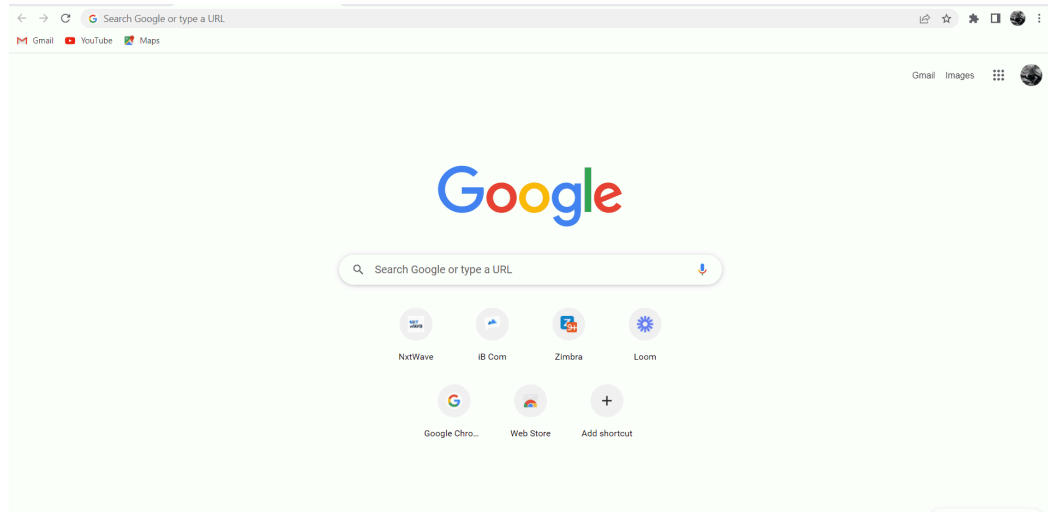

INVALID TEST

ACCEPTABLE

- Please check if your camera is working properly from any of these websites
  - <https://webcamtests.com/>
  - <https://www.onlinemictest.com/webcam-test/>
- Please check if your device is connected only to a single camera. Having multiple camera sources can cause an issue. You can disconnect any other camera devices before starting the exam (Having a built-in cam would be preferable).
- It is recommended that you take the test in a well-lit area.
- Check if any Antivirus Software / Extension is blocking the camera access. If yes, disable them.
- It is better to use a personal Laptop/PC instead of company/organization laptops
- **Step 1: How to allow the camera access and resolve the cam issue**
  - Open Chrome Browser and click on more option on the top right (⋮)
  - Click on **Privacy and Security** and then select **Site settings** later open Camera option.
  - Select the option that you want as your default setting.

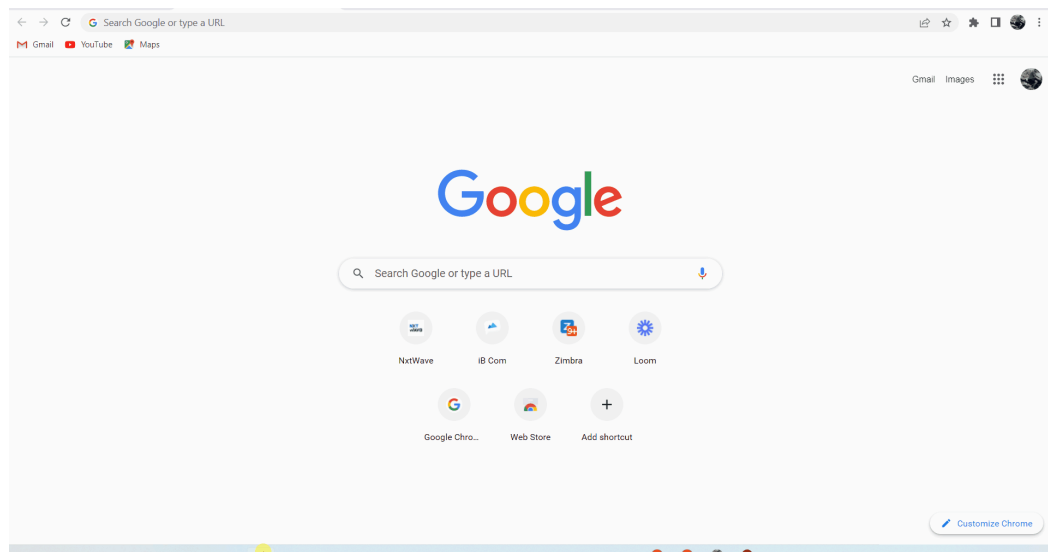

- Review your blocked and allowed sites.

- **Step 2: How to Disable antivirus on our system**

- Click on Start button and search "**Windows Security**"
- Select the Windows Security app from the search results
- Go to Virus & threat protection, and under Virus & threat protection settings
- Select Manage settings.
- Switch Real-time protection to Off.

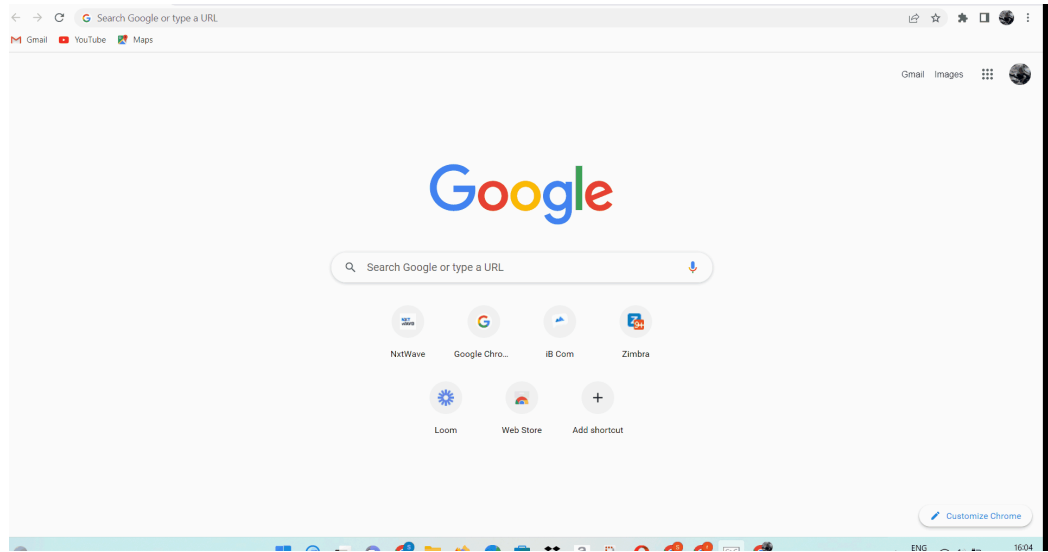

**Note:- Disable the remaining Antivirus & Securities as the same. Ex: McAfee... etc**

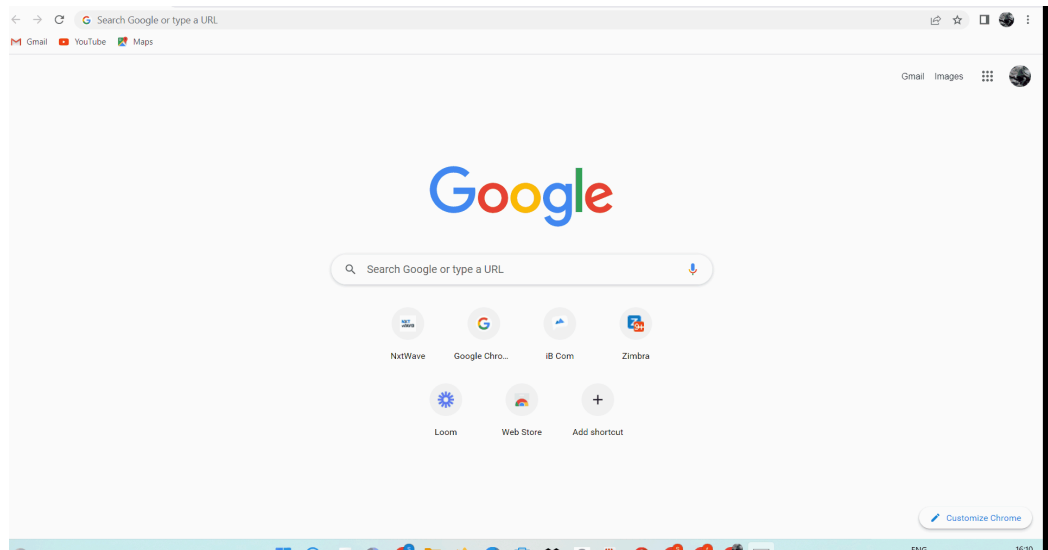

- **Step 3: How to Disable the extensions on our system**

- Open Chrome Browser and click on more option on the top right (⋮)
- Go to Settings and select *Extensions*
- Click on the Remove button on which extension that you want to remove.

- Confirm by clicking Remove.

- **Step 4: How to clear the cache & cookies And Clear browser history**
  - Open Chrome Browser and click on more option on the top right (⋮)
  - Select settings and click on **Privacy & Security** option.
  - Choose clear browsing data and select time range **All time** to clear everything.
  - Select all the below boxes then click on **Clear data**.
  - Next go to "**Cookies and other site data**" and then select **Allow all cookies** then reload the current page.

## Exam Prerequisites & Device Requirements

**QUESTION\_ID:** EPD-001

**CANONICAL\_QUESTION:** I don't have a laptop. Can I attempt the exam on mobile?

**QUESTION\_VARIATIONS:**

- Mobile lo exam attempt cheyyocha?
- Can I take the test on my phone?
- Is mobile allowed for the exam?
- Phone use cheyyadam possible aa for exam?
- Can I use a tablet instead of a laptop?
- I only have a smartphone, can I still take the test?

**ANSWER:** The exam can only be attempted on a laptop or desktop. Mobile phones and tablets are not supported.

**TAGS:** device, mobile, laptop, exam prerequisites, hardware

---

**QUESTION\_ID:** EPD-002

**CANONICAL\_QUESTION:** Can I use pen and paper or refer to cheat sheets during the exam?

**QUESTION\_VARIATIONS:**

- Exam lo pen paper use cheyyocha?
- Can I refer to notes during the test?
- Are cheat sheets allowed in the exam?
- Can I write rough work on paper during the exam?
- Notes chudocha exam lo?

**ANSWER:** You are allowed to use a pen and plain white paper for rough work during the exam. However, referring to cheat sheets, notes, or any other reference material is strictly not permitted.

**TAGS:** exam rules, pen paper, cheat sheets, notes, exam conduct

---

**QUESTION\_ID:** EPD-003

**CANONICAL\_QUESTION:** I am facing issues while attempting the Mock Practice Test even after following the guidelines. What should I do?

**QUESTION\_VARIATIONS:**

- Mock test lo issues vastunnai, emi cheyyali?
- Mock practice test work avvatledu
- I followed all guidelines but mock exam is still not working
- Mock exam technical issue
- Mock test problem fix avvatledu

**ANSWER:** I'm sorry to hear you're still facing issues. I will raise a support ticket on your behalf so our team can review the problem and help you take the test successfully. Could you briefly describe the issue you're facing so I can include it in the ticket?

**TAGS:** mock exam, technical issue, support, exam prerequisites, troubleshooting

---

**QUESTION\_ID:** EPD-004

**CANONICAL\_QUESTION:** I don't have webcam access on my laptop. How should I take the exam?

**QUESTION\_VARIATIONS:**

- Webcam ledu, exam ela attempt cheyyali?
- My camera is not working, can I still take the test?
- Is webcam mandatory for the exam?
- No webcam on my desktop, what should I do?
- Camera access lekapote exam rastara?
- Can I take the exam without a webcam?

**ANSWER:** A working webcam is mandatory to attempt the exam as it is proctored. If your laptop or desktop does not have a webcam, we strongly recommend either purchasing an external webcam and connecting it to your device, or borrowing a laptop from a friend or relative that has a built-in or working webcam for the duration of the exam.

**TAGS:** webcam, camera, exam prerequisites, proctoring, device, hardware

---

## Technical Issues

**QUESTION\_ID:** TEC-001

**CANONICAL\_QUESTION:** My exam was terminated or lost. What should I do?

**QUESTION\_VARIATIONS:**

- Exam sudden ga close aipoyindi, emi cheyyali?

- My exam got terminated, can I retake it?
- Exam session end aipoyindi unexpectedly
- I was taking the exam and it suddenly stopped
- Exam lost aipoyindi, help cheyandi
- My screen switched and exam got terminated
- Exam lo notification vasthe terminate avutunda?
- Special key press chesina exam poyinda?
- Antivirus notification valla exam terminate aipoyinda?
- I missed the exam, what do I do now?
- Window switch chesina exam terminate avutunda?

**ANSWER:** Sorry to hear that your exam was terminated. This can happen due to one or more of the following reasons:

- **Switching windows or tabs** — The exam gets terminated after 3 warnings if you move out of the exam window
- **Pressing special/function keys** — Keys like F1, F2, Escape, Windows key, etc. can trigger termination
- **Device notifications** — System notifications (including antivirus alerts, battery warnings, app notifications) can interrupt and terminate the exam session

Please check whether any of the following pre-exam guidelines were missed:

1. **Stable internet connection** — Was your connection stable throughout?
2. Does your laptop fully charged?
3. **Notifications turned off** — Were all browser, app, and device notifications disabled before starting?
4. **Mock Practice Test completed** — Did you take the mock test beforehand to verify your setup?
5. **Special keys avoided** — Did you accidentally press any function keys or system keys?
6. **Antivirus disabled** — Was your antivirus or any security software turned off before the exam?

**If you followed all the guidelines and the exam still got terminated**, I will raise a support ticket on your behalf. Our team will take 1–2 days to review your request and update you via your registered email ID or the Announcement section. Could you please confirm the exam name and describe what happened so I can include it in the ticket?

**If any of the above guidelines were missed**, please don't worry — Course Exams are conducted every week. Ensure you follow all the guidelines before your next attempt.

**TAGS:** exam termination, technical issue, notifications, special keys, antivirus, guidelines, support, course exams, window switch, proctoring

---

## Other

**QUESTION\_ID:** OTH-001

**CANONICAL\_QUESTION:** What should I do if I need solutions to the previous course exams?

**QUESTION\_VARIATIONS:**

- Can I get solutions for the course exam questions?
- Previous exam answers ela chudali?
- Where can I find the correct answers for the exam I failed?
- Can I review my exam mistakes?
- Failed test cases solutions ivvagalara?
- Exam lo wrong chesina questions answers chudocha?
- Can I see what I got wrong in the course exam?

**ANSWER:** In general, companies do not provide solutions or failed test cases — and we follow the same approach. You are expected to identify the failed test cases and think of possible edge cases yourself, as this reflects real-world problem-solving. We have intentionally not provided a "review mistakes" option in exams, as students should not rely on answer reviews. However, similar review and practice opportunities are already available in the Coding Practices section — we encourage you to make use of those.

**TAGS:** course exams, solutions, failed test cases, review, coding practice

---

## Grading System

**QUESTION\_ID:** GRD-001

**CANONICAL\_QUESTION:** How does the grading system work?

**QUESTION\_VARIATIONS:**

- What is the grading system?
- How are grades calculated for course exams?
- Grade system ela untundi?
- Exam lo marks ki grade ela ivvtaru?
- What grades will I get based on my score?

**ANSWER:** You will have course-wise exams at the end of each of the courses. Grades will be given based on the scores obtained.

For example, if you get 90 or above, you will get an A grade, and for scores between 70-80, you will get a B. These grades will be assigned for all scores between 0 to 100. An overall grade will be given as well for all the courses together.

Also, the grades that you get during the course are not a blocker to becoming eligible for placements. A student becomes eligible for placements once they get a grade in all the course exams. But, having good grades increases your chances of getting placed as companies also have access to your grades and performance during the program.

**TAGS:** grading, course exams, placements, scores, performance

---

**QUESTION\_ID:** GRD-002

**CANONICAL\_QUESTION:** Will the grading mechanism be introduced in Intensive 1.0?

**QUESTION\_VARIATIONS:**

- Is grading applicable for Intensive 1.0?
- Intensive 1.0 ki grading system untunda?
- Does Intensive 1.0 have grades?
- Grading system Intensive 1.0 lo vastunda?

**ANSWER:** No, the grading system is not applicable for Intensive 1.0. **TAGS:** grading, Intensive 1.0, batch-specific

---

**QUESTION\_ID:** GRD-003

**CANONICAL\_QUESTION:** Can I attempt course exams multiple times and improve my grade? Will it help in placements?

**QUESTION\_VARIATIONS:**

- Can I retake the course exam to get a better grade?
- Exam multiple times attempt cheyyocha?
- If I failed the exam can I try again?
- Re-attempt cheyyadam possible aa?
- My exam got terminated, can I retake it?
- I wasn't available during the exam, can I attempt it later?
- Will improving my grade help with placements?

**ANSWER:** Yes, you can attempt the course exams multiple times and improve your grade. A better grade increases your chances of getting shortlisted by companies during placements.

**TAGS:** course exams, re-attempt, grading, placements, exam termination

---

**QUESTION\_ID:** GRD-004

**CANONICAL\_QUESTION:** Is it possible to change the course exam day? **QUESTION\_VARIATIONS:**

- Can I write the exam on a different day?
- Exam day change cheyyadam possible aa?
- I'm not available on the scheduled exam day, what can I do?
- Working professional ni, exam time suit avvatledu. Emi cheyyali?
- Can college students take exams at a convenient time?
- Can the exam be rescheduled for me?

**ANSWER:** As of now, exam days are fixed. However, if working professionals or college students are unable to attend exams at the scheduled times, exams can be conducted manually at a convenient time.

I can raise a support ticket on your behalf so that the Support Team can schedule the exam at a convenient time for you. Could you please share the following details?

1. **Exam name** – Which course exam do you want to attempt?
2. **Preferred date** – What date works best for you?
3. **Preferred time** – What time slot would you prefer?

Once you share these details, I'll raise the support ticket right away.

**TAGS:** course exams, rescheduling, working professionals, college students, support

---

**QUESTION\_ID:** GRD-005

**CANONICAL\_QUESTION:** I didn't attempt the mock exam correctly. Can I attempt it again?

**QUESTION\_VARIATIONS:**

- Can I retake the mock exam?
- Mock exam again attempt cheyyocha?
- Mock test lo problem aindi, restart cheyyocha?
- Can I take the mock practice test more than once?

**ANSWER:** Yes, you can attempt the mock exam multiple times to test the exam environment.

**TAGS:** mock exam, re-attempt, exam environment, practice test

---

**QUESTION\_ID:** GRD-006

**CANONICAL\_QUESTION:** My score seems incorrect. What should I do?

**QUESTION\_VARIATIONS:**

- My score is wrong
- Score correct ga ledu ani feel avutunna
- Exam score incorrect ga undi
- Score issue undi

**ANSWER:** Could you clarify which score you're referring to — is it related to a course exam or gamification? Please provide more details so we can assist you accurately.

**TAGS:** score, exam, gamification, issue, clarification

---

**QUESTION\_ID:** GRD-007

**CANONICAL\_QUESTION:** Will scoring low marks in exams affect anything?

**QUESTION\_VARIATIONS:**

- Low score affect avutunda?
- Exam lo takkuva marks vaste emi avutundi?
- Does failing an exam impact my progress?
- What happens if I score poorly in a course exam?
- Low grade tho placement ki affect avutunda?

**ANSWER:** Scoring low marks does not block your progress in the Learning Track, as you can attempt every exam multiple times. However, having good grades improves your chances of getting shortlisted by companies, since recruiters have access to your grades. It is recommended to re-attempt exams to improve your grade.

**TAGS:** low score, grading, placements, progress, re-attempt

---

**QUESTION\_ID:** GRD-008

**CANONICAL\_QUESTION:** If I got an A grade in a course exam but scored lower (B/C) in a re-attempt, which grade is considered?

**QUESTION\_VARIATIONS:**

- Re-attempt lo takkuva grade vasthe which grade count avutundi?
- If I score less in a re-attempt, will my original higher grade be replaced?
- Best grade considered avutunda?
- Highest grade only consider chestara?
- My re-attempt score is lower than my first attempt, will it affect my grade?

**ANSWER:** We always consider the highest grade. So if you scored an A grade in your first attempt and a B or C in a re-attempt, the A grade will be retained.

**TAGS:** grading, re-attempt, highest grade, course exams

---

**QUESTION\_ID:** GRD-009

**CANONICAL\_QUESTION:** If a student gets zero marks in a test, will it affect their Learning Track progress?

**QUESTION\_VARIATIONS:**

- Zero marks waste progress affect avutunda?
- If I fail a test does it block my learning track?
- Zero score tho next course unlock avutunda?
- Does scoring zero impact my progress?

**ANSWER:** No. Students can attempt every test multiple times, so scoring zero in a test will not affect their Learning Track progress. **TAGS:** zero marks, learning track, progress, re-attempt, course exams

## 4. Python IDP Exam

[Python IDP Exam is applicable only for Intensive 1.0 students]

### Exam Details

**Q: What is the Python IDP Test?**

A: When hiring a candidate, companies expect them to have programming skills.

The Python IDP test plays an important role in testing the candidate's programming skills.

Here you will have Python IDP Level - 1 and Level - 2 tests.

To qualify for the Python IDP Level - 1 test, you must finish growth cycle 1 and foundation exam 4, while for the Level - 2 test, you must pass the Python IDP level - 1 test (score at least 75).

---

**Q: How many times can I attempt the test?**

A: You can attempt it any number of times and improve your score. The best score among all attempts is considered.

---

**Q: How to attempt the Python IDP tests?**

A: Here you will have Python IDP Level - 1 and Level - 2

The Python IDP Level - 1 test details will be displayed on the placement preparation page.

Whereas, Level - 2 test details will be shared with you on Announcements section or to your email id once you clear Python IDP Level - 1 (Score atleast 75).

Note:

1. The tests will be accessible only during the scheduled times.
2. Attempting this Mock Practice Test is mandatory for every IDP exam.

---

**Q: What is the minimum score to pass the Python IDP Level - 1/Level - 2 Test?**

A: Your score must be at least 75 to pass the Python IDP Tests.

---

**Q: Will the coming IDP tests have the same questions?**

A: No, the questions will be different.

---

**Q: What is the importance of Python IDP Mock Practice Test?**

A: The Mock Practice test helps you to check whether your laptop/system supports the test environment, and you can experience the test environment.

Notes:

1. Attempting this Mock Practice Test is mandatory for every IDP exam.
2. Be on the mock practice test at least a day before the actual test.
3. You need not worry about the completion status of the Mock Practice test as it is just for device checks.

During the test, if you encounter any issues, please contact Support Team.

We will review your response and help you take the test successfully without any issues.

---

**Q: How many questions will be there in Python IDP Level - 1?**

A: There will be four questions. Weightage is assigned to each question based on its difficulty level.

---

**Q: How many questions will be there in Python IDP Level - 2?**

A: There will be only one question. Weightage is assigned based on test cases for that question

---

**Q: How can I see my score?**

A: You will be able to see your Python IDP Level 1 test score on the placement preparation page. The Level -2 score can be viewed on the exam page once the test has been completed.

Note: In 5 to 7 days following the date of the exam, we will run a plagiarism check on your code submission. Your score will not be considered if plagiarism is detected.

---

**Q: What is the pattern of Python IDP Test?**

A: Here you will have Python IDP Level - 1 and Level - 2 tests.

The pattern of the Python IDP Level 1 test is as follows:

- Eligibility: Finish growth cycle 1 and foundation exam 4 and python IDP practice series
- No. Of questions: 4
- Duration: 75 min
- Total marks: 100
- Pass marks: 75

The pattern of the Python IDP Level 2 test is as follows:

- Eligibility: Clear the Python IDP Level - 1 test (score at least 75)
- No. Of questions: 1
- Duration: 60 min
- Total marks: 100
- Pass marks: 75

---

**Q: Is a laptop mandatory to take Course Exams or Python IDP Tests?**

A: It is mandatory to have a laptop with a steady internet connection to take Python IDP Tests.

---

**Q: Is it okay to use a pen and paper or rough sheets during the test?**

A: Yes, you may use empty paper while taking the test.

---

**Q: My Python IDP test is not opening. What should I do?**

A: Please reload the page once and try accessing it. If you still have any concerns, please post your request through Live Chat here: <https://bit.ly/3OoB7ui>

---

**Q: Is it possible to take Python IDP Tests during pause?**

A: Python IDP tests can be taken even during the pause.

---

**Q: How do I become eligible for the Python IDP Tests?**

A: Here, you will have the opportunity to take the Python IDP Level 1 and Level 2 tests.

To qualify for the Python IDP Level 1 test, you must complete the following:

- Growth Cycle 1
- Foundation Exam 4
- IDP Prep Series Level 1

To qualify for the Python IDP Level 2 test, you must pass the Python IDP Level 1 test with a score of at least 75.

---

**Q: How to clear/crack the Python IDP Test?**

A: To prepare for the Python IDP, we suggest the following steps:

Review all the concepts in the Python Programming Foundations course up to Foundation Exam 4. Solve the Python IDP Prep Series to improve your problem-solving skills even further.

Check out the "Cracking IDP" course in Tech Foundation and attend problem-solving sessions we conducted to get a better understanding of the types of problems you might encounter. You can also practice previous Python IDP questions available here: <https://bit.ly/40qMzvC>.

We hope these resources will help you succeed in the Python IDP. Good luck!

---

**Q: Why is my previous Python IDP score showing as Python IDP level 1?**

A: We have considered your previous Python IDP attempts as Python level 1 exam scores in our backend. Therefore, it appears that way. You don't have to worry about it.

Note: Taking Python levels 1 and 2 is optional if you score at least 75 on the old Python IDP.

---

**Q: Is it mandatory to clear the Python IDP level 1 and 2 exams?**

A: Python IDP tests are not mandatory to get placements. However, we recommend you focus on them as they will help you improve your problem-solving ability.

---

**Q: Do we have any specific classes or preparation guides to clear/crack the Python IDP Test?**

A: To prepare for the Python IDP, we suggest the following steps:

1. Review all the concepts in the Python Programming Foundations course up to Foundation Exam 4.
2. Solve the Python IDP Prep Series to improve your problem-solving skills even further.
3. Check out the 'Cracking IDP' course in Tech Foundation and attend problem-solving sessions we conducted to get a better understanding of the types of problems you might encounter. You can also practice previous Python IDP questions available here: <https://bit.ly/40qMzvC>.

We hope these resources will help you succeed in the Python IDP. Good luck!

---

**Q: When will you conduct the Python IDP exam again?**

A: We usually conduct the Python IDP Test twice a month.

The next Python IDP Level - 1 test date will be displayed on the placement preparation page.

Whereas, Level - 2 test details will be shared with you via email or Announcement section once you clear Python IDP Level - 1 (Score atleast 75).

---

## Other

**Q: What should I do if I need solutions to the previous Python IDP test?**

A: In general, companies do not provide any solutions or failed test cases. You need to identify the failed test cases and think of possible edge cases yourself. It's the same with our exams.

---

## Guidelines

**Q: What guidelines should I follow before the test?**

A: Here are the guidelines before taking Tests.

1. Check Test Timings carefully, you can attempt the Test only during the mentioned time slots.
  2. Be ready with your Laptop/Computer at least 5 - 10 minutes before the test starting time
  3. Ensure you have a Stable Internet Connection.
  4. Turn off notifications in your system/laptop and keep all your devices on Silent Mode.
  5. Ensure that you have access to stationery (a pen and paper) if necessary.
  6. Please ensure that your device's camera is working before the exam.
  7. Ensure that your laptop/computer is fully charged before attempting the Test.
- 

## Plagiarism/Copying

**Q: What should I do if I am getting a 'Plagiarism/Copying Detected' message?**

A: If you commit to any malpractice/copying during the test, you will get this message.

Note: If you haven't copied anything but still receive a 'Plagiarism/Copying Detected' message, please click on the "Contact us" option on the plagiarism card and let us know your concerns. The team will review your request and update you on iB Com within 5 - 7 days.

---

**Q: What is the status of the plagiarism request I submitted stating I haven't copied?**

A: Please be patient as it takes us 5-7 days to review your code submission and update you on it. If it has been more than 7 days since you are waiting for an update from us then let us know about your request in the Chat.

---

# Assessment and Exam Issues

Assessment Issues impact examinations and learner evaluations.

Common Issues:

- Exam Not Visible
- Unable to Start Exam
- Exam Locked
- Mock Exam Not Available
- Assessment Access Issues
- Exam Submission Failure
- Incorrect Assessment Scores
- Assessment Results Missing

Resolution:

- Verify exam schedule.
- Complete prerequisite activities.
- Check browser permissions.

Contact support for exam access issues.

## Other Courses

## Other Courses (Bonus Courses)

Other Courses is a section in the left navigation menu of the learning portal that provides access to supplementary learning content beyond a student's core curriculum (My Journey). The key distinction is: My Journey contains mandatory courses for the student's chosen job track, while Other Courses contains optional/bonus content.

Link: <https://learning.ccbp.in/other-courses>

Certificates are issued for all My Journey courses. In Other Courses, only the XPM (Exponential Performance Mindset) course has a certificate.

The following courses are available by default under Other Courses for all job tracks:

- Programming: Problem Solving Patterns, Practical Python, Instruction Flows, Java Fundamentals, React Hooks, MongoDB, Database Concepts, Java Fundamentals, Programming Fundamentals
- Interview Readiness Exponential Performance Mindset (XPM) — includes certification
- Effective Communication for Job Readiness
- Professional Readiness — Aptitude
- Interview Kits - Python Interview Kit, Frontend Interview Kit

Additional courses beyond the above defaults can be unlocked manually upon student request (for example, a MERN student needing Java content for an upcoming interview). These unlocked courses also appear under Other Courses.

Some content is entirely outside the Intensive curriculum and cannot be unlocked — including Cyber Security, AI/ML, Competitive Programming, and DSA.

For future My Journey courses requested in advance, refer to TU-001.

### **RAG RETRIEVAL GUIDANCE FOR THIS SECTION**

Cross-reference:

TU-001 (for unlocking a specific future My Journey course in advance).

NL-001 (for locked content within My Journey).

Disambiguation trigger: If a student asks for a course that may or may not be available, use the resolution flow below before escalating.

---

**QUESTION\_ID:** OC-001

**CANONICAL\_QUESTION:** What is the Other Courses section and what is available there?

**INTENT CATEGORIES:** Other courses, bonus courses, supplementary content, extra learning, default courses, optional courses, My Journey vs Other Courses

**QUESTION\_VARIATIONS:**

- Other courses section ante enti?
- What is available in Other Courses?
- Bonus courses ekkada untayi?
- My Journey tho paatu inka em courses untayi?
- Other courses lo em nerchukavachu?
- What extra content is available on the portal?
- Default ga which courses available untayi?
- Other courses vs My Journey difference emi?
- Supplementary courses ekkada untayi portal lo?
- Portal lo extra learning material undi aa?
- Mandatory kaani courses ekkada untayi?
- Aptitude and English ekkada untayi portal lo?
- XPM course ekkada untundi?
- Interview readiness courses ekkada untayi?
- Other courses section ekkada untundi portal lo?

**ANSWER:** The Other Courses section is available in the left navigation menu of your portal. It gives you access to bonus and supplementary content beyond your core curriculum — content that is not mandatory but can give you a significant advantage in interviews and placement.

**The difference between My Journey and Other Courses:**

My Journey contains the **mandatory courses** for your chosen job track. These must be completed to progress through Growth Cycles and become placement eligible. Certificates are issued for all My Journey courses.

**Other Courses** contains optional bonus content. You can explore these at your own pace alongside your main curriculum. Only the XPM (Exponential Performance Mindset) course has a certificate in this section.

The following courses are available by default for all students under Other Courses:

- Programming: Problem Solving Patterns, Practical Python, Instruction Flows, Java Fundamentals, React Hooks
- Interview Readiness: Strategies and guidance to help you prepare for technical interviews and recruitment processes
  - Interview Readiness, Interview Preparation Strategies, Technical Interview Guidance, Mock Interview Preparation, Placement Support Materials

- Exponential Performance Mindset (XPM): Personal and professional development — growth mindset, productivity, and career readiness. Completing all four XPM courses earns you the XPM 4.0 Certification.
- Effective Communication for Job Readiness: Professional communication skills for interviews and workplace environments
- Professional Readiness — Aptitude: Aptitude, logical reasoning, and quantitative practice for placement assessments

Note: **Aptitude and English** sessions are not mandatory for your core certificate, but they are very important for interviews. Make sure to complete them alongside your technical curriculum.

**TAGS:** Other courses, bonus courses, My Journey, supplementary content, default courses, XPM, aptitude, English, interview readiness, effective communication, Java Fundamentals, React Hooks, optional courses, certificate, left navigation

---

**QUESTION\_ID:** OC-002

**CANONICAL\_QUESTION:** Can I get access to a course that is not part of my current curriculum?

**INTENT CATEGORIES:** Unlock extra course, course not in My Journey, course request, Java for MERN student, additional course access, course not visible

**QUESTION\_VARIATIONS:**

- Can I access a Java course if I am on MERN track?
- My track lo leeni course access cheyyachu aa?
- I need to learn a specific technology for an interview, can I get access?
- Course portal lo kanapadatle, ela access cheyyali?
- Can I unlock a course that is not in my schedule?
- Extra course request ela cheyyali?
- I found a course on the portal but cannot access it, what do I do?
- MERN student Java course access cheyyachu aa?
- Course unlock cheyyatam ela?
- I need React Hooks but it is not in my schedule, can I get it?
- Additional course request support ki cheyyalaa?
- Course not visible in my portal, what should I do?
- Can I study courses outside my job track?
- Portal lo course lock avundi, ela open cheyyali?
- I have an interview next week and need a specific course, what do I do?

**ANSWER:** Yes, in many cases a course outside your current curriculum can be unlocked for you. Here is how to approach it:

Step 1 — **Check using the Search feature:** Use the Search bar at the top of the portal and search for the course or topic by name. If the course has already been unlocked for you, it will appear in the results and you can access it directly from there.

Step 2 — If it does not appear in Search: **Share the course link** or a **screenshot** of where you found it on the portal. This helps identify the exact course you are looking for so we can verify it internally.

Step 3 — If neither works: **Share the name of the course** and we will check internally and raise a support ticket to get it unlocked for you.

**Important:** Some content is not part of the NxtWave Intensive curriculum at all and cannot be unlocked — this includes Cyber Security, AI/ML, Competitive Programming, and DSA. These are available under CCBP 4.0 Academy at <https://www.ccbp.in/academy#Academy-structured-path>

Note: If you need a course from a future Growth Cycle of your own program (for example, accessing React JS while you are still in GC2), refer to the process for topic-specific early access.

**TAGS:** Unlock course, extra course, course not visible, course request, MERN Java access, search feature, support ticket, course outside curriculum, interview preparation, DSA, AI ML, Cyber Security, CCBP Academy, topic unlock, Other Courses

---

**QUESTION\_ID:** OC-003

**CANONICAL\_QUESTION:** Is the Aptitude and English course mandatory?

**INTENT CATEGORIES:** Aptitude mandatory, English sessions, optional courses, certificate impact, placement importance

**QUESTION\_VARIATIONS:**

- Aptitude mandatory aa complete cheyyatam?
- English sessions complete cheyyali aa?
- Aptitude skip cheyyachu aa?
- Will skipping Aptitude affect my certificate?
- Aptitude and English course important aa?
- Do I need to finish Aptitude for placement?
- English sessions placement ki help avutaya?
- Aptitude sessions mandatory ga complete cheyyalaa?
- Certificate ki Aptitude complete cheyyalaa?
- Aptitude important aa interviews ki?

**ANSWER:** Aptitude and English sessions are not mandatory for completing your core curriculum or receiving your course certificates. You will still receive your certificate even if these remain pending.

However, do not overlook them. Aptitude and English are tested in most company selection processes — written tests, reasoning rounds, and communication assessments are standard parts of hiring at many companies. Skipping them puts you at a disadvantage during placement.

The recommendation is to treat Aptitude and English with the same priority as your technical sessions. Completing your curriculum 100% — including these — gives you the best possible preparation for interviews and makes you eligible for the Overall Course Completion Certificate.

You can find Aptitude and English sessions under the Other Courses section in the left navigation menu of your portal.

**TAGS:** Aptitude mandatory, English sessions, optional, certificate, placement importance, interview preparation, hiring process, Overall Course Completion Certificate, Other Courses, reasoning, communication

---

**QUESTION\_ID:** OC-004

**CANONICAL\_QUESTION:** What is the XPM (Exponential Performance Mindset) course and how do I get the certificate?

**INTENT CATEGORIES:** XPM course, Exponential Performance Mindset, XPM certificate, personal development, growth mindset, Other Courses certificate

**QUESTION\_VARIATIONS:**

- XPM course ante enti?
- Exponential Performance Mindset course ekkada untundi?
- XPM certificate ela vasatundi?
- How do I complete XPM and get certified?
- XPM 4.0 certification ela earn cheyyali?
- What courses do I need to complete for XPM certificate?
- XPM course Other Courses lo undi aa?
- Growth mindset course portal lo undi aa?
- Personal development course undi aa?
- XPM certification ki enni courses complete cheyyali?

**ANSWER:** The Exponential Performance Mindset (XPM) course is available under the Other Courses section of your portal. It focuses on personal and professional development — helping you build a strong mindset, improve productivity, and develop habits that support long-term career success.

What you will learn

- Build a strong self-image and maintain good self-esteem
- Understand the important elements that shape your personality and their role in maintaining quality relationships
- Minimize disturbances within you and focus on productive activities

To earn the XPM 4.0 Fundamentals Certification, you must complete all four of the following courses: Introduction to XPM Identity, Values, and Strengths RCA — Repeated Conscious Attempts Setting Priorities

Once all four are completed, you will be eligible to receive the XPM 4.0 Certification.

Note: XPM is the only course in the Other Courses section that comes with a certificate. All other bonus courses are for learning and skill development only.

**TAGS:** XPM, Exponential Performance Mindset, XPM certificate, XPM 4.0, personal development, growth mindset, Other Courses, four courses, certification, Introduction to XPM, Identity Values Strengths, RCA, Setting Priorities

---

QUESTION\_ID: OC-005 CANONICAL\_QUESTION: Is DSA or Competitive Programming available in NxtWave Intensive? INTENT CATEGORIES: DSA, Data Structures Algorithms, Competitive Programming, course availability, CCBP Academy QUESTION\_VARIATIONS: DSA course undi aa portal lo? Data Structures and Algorithms ekkada nerchukovali? Competitive programming course available aa? Is there a DSA track in Intensive? NxtWave lo DSA training undi aa? Data structures course portal lo kanapadatle, enduku? Can I learn competitive programming here? DSA and algorithms course request cheyyachu aa? Will DSA be added to the program in the future? Competitive programming ekkada practice cheyyali?

ANSWER: NxtWave Intensive focuses exclusively on Full Stack Development. DSA (Data Structures and Algorithms) and Competitive Programming are not part of the Intensive curriculum and are not available on the Intensive portal.

If DSA or Competitive Programming courses are introduced in the future, updates will be shared accordingly.

For DSA, Competitive Programming, AI/ML, and Data Science specializations, you can explore CCBP 4.0 Academy here: <https://www.ccbp.in/academy#Academy-structured-path>

TAGS: DSA, Data Structures, Algorithms, Competitive Programming, not available, CCBP Academy, AI ML, Data Science, Full Stack only, future updates

---

**QUESTION\_ID:** OC-006

**CANONICAL\_QUESTION:** Are there any AI or Machine Learning courses available in NxtWave Intensive?

**INTENT CATEGORIES:** AI courses, Machine Learning, Data Science, course availability, future courses **QUESTION\_VARIATIONS:**

- AI courses portal lo unnaya?
- Machine learning course available aa?
- Data science training undi aa?
- AI/ML course request cheyyachu aa?
- NxtWave lo AI nerchukavachu aa?
- Is there an AI track in Intensive?
- Artificial Intelligence course undi aa portal lo?
- Will AI courses be added in the future?
- Gen AI course online program lo undi aa?
- AI related content ekkada untundi?

**ANSWER:** Currently, AI and Machine Learning courses are not available in the NxtWave Intensive Online Program. If AI-related courses are introduced in the future, updates and details will be shared accordingly.

**Note:** The Offline / Training Center program (Python Full Stack with Gen AI and Java Full Stack with Gen AI) does include Gen AI as part of its curriculum. CCBP 4.0 Academy has AI/ML and Data Science specializations. However, this is not available in the online program at this time.

**TAGS:** AI courses, Machine Learning, Gen AI, Data Science, not available online, Offline program, CCBP Academy, future courses, AI ML, Intensive online

**QUESTION\_ID:** OC-007

**CANONICAL\_QUESTION:** How do I access the Python Interview Kit?

**INTENT CATEGORIES:** Python Interview Kit, interview preparation, course access, Python practice, interview kit

**QUESTION\_VARIATIONS:**

- Python interview kit ekkada untundi?
- How do I find the Python Interview Kit on the portal?
- Python interview preparation course ela access cheyyali?
- Python interview kit link emi? Python interview sessions ekkada chudali?
- Interview ki Python practice ekkada cheyyali?

- Python interview kit unlock cheyyatam ela?
- Python interview preparation material ekkada untundi?
- Can I access the Python Interview Kit?
- Python interview sessions portal lo kanapadatle, emi cheyyali?

ANSWER: You can access the Python Interview Kit directly here:

[https://learning.ccbp.in/tech-foundations/course?c\\_id=b8cd14fe-f80f-46a3-95c1-98e4ce7e465f](https://learning.ccbp.in/tech-foundations/course?c_id=b8cd14fe-f80f-46a3-95c1-98e4ce7e465f)

If you are unable to access it using the link above, please let us know and I can raise a support ticket to get it unlocked for you.

TAGS: Python Interview Kit, interview preparation, Python practice, course access, interview kit link, unlock course, interview sessions

**QUESTION\_ID:** OC-008

**CANONICAL\_QUESTION:** How do I access the Frontend Interview Kit?

**INTENT CATEGORIES:** Frontend Interview Kit, HTML CSS access, JavaScript React interview kit, interview preparation, course access, Live Agent request

**QUESTION\_VARIATIONS:**

- Frontend interview kit ekkada untundi?
- How do I access the Frontend Interview Kit?
- HTML CSS interview kit ela access cheyyali?
- JavaScript interview kit ela unlock cheyyali?
- React interview preparation course ekkada untundi?
- Frontend interview preparation material ekkada untundi?
- Interview kit lo JavaScript topics kanapadatle, emi cheyyali?
- Frontend interview kit unlock cheyyatam ela?
- React interview kit access request ela cheyyali?
- Frontend interview sessions portal lo ekkada untayi?

**ANSWER:** The Frontend Interview Kit is available on the portal and its content unlocks in two ways depending on the technology:

HTML and CSS topics: These unlock automatically according to your daily schedule. As you progress through your curriculum, the relevant HTML and CSS interview kit content will become accessible.

JavaScript and React topics: If you require these concepts as well, I can raise a support ticket on your behalf, please confirm.

# Learning Portal Features

## 30 Days of Code Challenge

The #30daysofcode challenge is an initiative where students commit to learning consistently for 30 days and share their daily learning and progress on LinkedIn throughout the challenge period.

### Benefits of #30daysofcode challenge

- Students who participate in the #30daysofcode challenge are observed to be 5 times more consistent than those who don't.
- Regular LinkedIn posting also increases visibility among recruiters, leading to more job and interview opportunities.
- Multiple students from NxtWave have received interview opportunities directly from recruiters after sharing their daily progress on LinkedIn.

### What to do as part of the challenge:

1. Create and update your LinkedIn profile (refer to the LinkedIn Profile Guidelines cheatsheet:  
[https://learning.ccbp.in/course?c\\_id=55e2d89a-58de-4997-8a45-152bf8cce013&t\\_id=bfe39507-ce12-42b6-bf3a-d29838235c75&s\\_id=2f23683a-f62c-4e80-ab31-48a293b3c8d0](https://learning.ccbp.in/course?c_id=55e2d89a-58de-4997-8a45-152bf8cce013&t_id=bfe39507-ce12-42b6-bf3a-d29838235c75&s_id=2f23683a-f62c-4e80-ab31-48a293b3c8d0))
2. Post on LinkedIn announcing that you are starting the #30daysofcode challenge
3. Share your daily learning progress on LinkedIn for 30 days — this can include what you learned that day, projects or websites you built, screenshots, videos, or notes, etc
4. Always include the hashtags **#ccbp** and **#NxtWave** and tag **@nxtwave** in every post so your progress is visible to fellow CCBPians and recruiters
5. Spend at least 15–30 minutes daily on LinkedIn — engage genuinely with fellow CCBPians, appreciate their progress, and learn from each other
6. Follow **#ccbp** and **#NxtWave** hashtags on LinkedIn to see what other CCBPians are sharing

Other recommended hashtags to increase visibility: **#fullstack** **#reactjs** **#python** **#coding** **#programming**

**Certificate Eligibility:** To receive the #30daysofcode Challenge Certificate, you must have posted consistently on LinkedIn for **30 days**.

### Certificate Process:

- After posting about #30daysofcode on LinkedIn, submit your LinkedIn profile link: <https://forms.ccbp.in/30days-coding-challenge>
- After completing the challenge, submit the **30 Days Challenge Completion Form**: <https://forms.ccbp.in/completion-of-30dayscoding-challenge>
- The team will review your LinkedIn profile and posts
- Certificates are generated every **Saturday**, so allow at least one week after submission
- The certificate will be sent to your registered email ID within approximately 7 days of form submission

**Note:** The 30 Days Code Challenge will be available in your **12th-day schedule** on the portal.

Link:

[https://learning.ccbp.in/course?c\\_id=55e2d89a-58de-4997-8a45-152bf8cce013&t\\_id=bfe39507-ce12-42b6-bf3a-d29838235c75&s\\_id=3ed48ac7-c7e5-4593-b0c7-722dc1e7d8a9](https://learning.ccbp.in/course?c_id=55e2d89a-58de-4997-8a45-152bf8cce013&t_id=bfe39507-ce12-42b6-bf3a-d29838235c75&s_id=3ed48ac7-c7e5-4593-b0c7-722dc1e7d8a9)

Similarly, students continue till 50 days coding challenge, 100 days coding challenge and received the certificates.

50 days coding challenge completion form:

<https://forms.ccbp.in/linkedin-coding-challenge-completion>

**QUESTION\_ID:** 30DOC-001

**CANONICAL\_QUESTION:** What is the #30daysofcode challenge?

**QUESTION\_VARIATIONS:**

- 30 days of code challenge ante enti?
- What is 30daysofcode?
- 30 days challenge gurinchi cheppandi
- What do I have to do in the 30 days challenge?
- How does the 30 days of code challenge work?

**ANSWER:** The #30daysofcode challenge is a 30-day consistency challenge where you learn every day and share your daily learning and progress on LinkedIn for 30 consecutive days. It helps build consistency, improves your skills, and increases your visibility among recruiters. Students who have completed this challenge are observed to be 5 times more consistent than others, and many have received direct interview opportunities from recruiters through their LinkedIn posts.

**TAGS:** 30daysofcode, challenge, LinkedIn, consistency, visibility, recruiters

**QUESTION\_ID:** 30DOC-002

**CANONICAL\_QUESTION:** How do I participate in the #30daysofcode challenge?

**QUESTION\_VARIATIONS:**

- How can I start the #30daysofcode challenge?
- 30 days challenge ela start cheyyali?
- How to begin the 30daysofcode challenge?
- Steps to follow for 30 days of code
- 30 days challenge lo emi post cheyyali?
- 30 days challenge first step enti?
- What should I post on LinkedIn for the challenge?

**ANSWER:** Here are the steps to participate in the #30daysofcode challenge:

1. Update your LinkedIn profile (refer to the LinkedIn Profile Guidelines cheatsheet: [https://learning.ccbp.in/course?c\\_id=55e2d89a-58de-4997-8a45-152bf8cce013&t\\_id=bfe39507-ce12-42b6-bf3a-d29838235c75&s\\_id=2f23683a-f62c-4e80-ab31-48a293b3c8d0](https://learning.ccbp.in/course?c_id=55e2d89a-58de-4997-8a45-152bf8cce013&t_id=bfe39507-ce12-42b6-bf3a-d29838235c75&s_id=2f23683a-f62c-4e80-ab31-48a293b3c8d0))
2. Post on LinkedIn announcing you are starting the #30daysofcode challenge today
3. Share your daily learning progress for 30 days — this can include what you learned, projects you built, screenshots, videos, or notes
4. Always include **#ccbp**, **#NxtWave** and tag **@nxtwave** in every post
5. Spend 15–30 minutes daily on LinkedIn engaging with fellow CCBPians
6. Follow **#ccbp** and **#NxtWave** hashtags to see others' progress

After posting, submit your LinkedIn profile link here:

<https://forms.ccbp.in/completion-of-30dayscoding-challenge>

You can also refer to the #30daysofcode cheat sheet for more details:

---

## Timer / Pomodoro Technique

**QUESTION\_ID:** TM-001

**CANONICAL\_QUESTION:** What is the Timer feature in the learning portal and how do I use it?

**INTENT CATEGORIES:** Timer feature, Pomodoro technique, focused learning, productivity, study timer, portal features, distraction-free study

**QUESTION\_VARIATIONS:**

- Timer feature portal lo enti?
- What is the stopwatch icon on the portal?
- How do I use the timer while studying?
- Portal lo timer endi untundi?
- How does the Pomodoro timer work?
- Can I set a study timer on the portal?
- Timer use cheyyadam ela?
- Focus ga study cheyyatam ela?
- Pomodoro technique ante enti?
- Portal lo timer icon ki meaning emi?
- How do I stay focused while watching sessions?
- Study time track cheyyatam ela?
- Timer set cheyyatam ela portal lo?
- Productivity improve cheyyatam ela?
- 25 minutes timer ante emi?

**ANSWER:** The Timer is a built-in productivity feature on the learning portal designed to help you study with focused, distraction-free sessions. You can find it in the top navigation bar while watching a session — it appears as a stopwatch icon. Once started, the countdown is visible at the top of the screen throughout your session.

**How to use the Timer:**

- Step 1: Click the stopwatch icon in the top navigation bar while in a session.
- Step 2: A "Set Your Timer" dialog will appear. Set your desired duration (default is 25 minutes).
- Step 3: Click START. The timer will begin counting down and remain visible at the top of the screen.
- Step 4: Study with complete focus until the timer ends.
- Step 5: Take a short break, then start a new timer for the next session.

**Recommended approach** — The Pomodoro Technique:

The portal's timer is built around the research-backed Pomodoro Technique:

- Study for 25 minutes with total focus
- Take a 5-minute break after each session
- After every 4 sessions, take a longer break of 20 to 30 minutes

You can adjust the duration to what works best for you — start with 25 minutes, observe your ability to focus, and modify accordingly.

**Tips for a distraction-free session:**

- Keep your phone away before starting the timer
- Close all unnecessary browser tabs
- Let family members or friends know not to interrupt you during the session
- If an interruption is unavoidable and requires immediate action — stop the timer and restart when you return
- If the interruption can wait — postpone it until your timer ends

Using the timer consistently builds a habit of focused learning. Students who follow structured study sessions typically cover more content and retain it better.

Learn more about the Pomodoro Technique here:

<https://nxtwave-tech.notion.site/How-to-study-super-focused-using-the-Timer-and-the-powerful-Pomodoro-technique-c2ba74d474634f9194fb89ac0f3ef9e5>

---

## Live Sessions

Live Sessions are mentor-led interactive sessions available on the home page of the learning portal.

They run daily from 11:00 AM to 8 PM (Monday to Saturday) and cover curriculum courses such as HTML & CSS, Programming Foundations, React JS & React Hooks, Developer Foundations, Node.js, Introduction to Databases, and others.

You can access them by clicking on the Live Sessions section on the right side of the home screen. Click on View More to see all available sessions.

Each session displays the title, course name, date, time, session status (Live or Upcoming), and a Join Now button.

A session appears in the list only when the corresponding course has been unlocked in the student's schedule. Even when a session is visible, the student must complete at least the first

unit of that course before the Join Now button becomes active — until then, a prompt appears telling the student which unit they need to complete first. Upcoming sessions that have not started yet show an Add to Calendar option so students can plan ahead. The recommended session for the student's current progress is highlighted at the top of the list.

After attending a session, students can submit feedback with the link provided in the zoom live session chat.

| Course Name / Live Session Name                                                                    | Live Session Feedback Link                                                                                                                                                                |

**QUESTION\_ID:** LS-001

**CANONICAL\_QUESTION:** What are Live Sessions and how do I access them?

**INTENT CATEGORIES:** Live session definition, how to join, live session access, mentor session, portal navigation, live class

**QUESTION\_VARIATIONS:**

- What are live sessions in the portal?

- Live sessions ekkada untayi?
- How do I join a live session?
- Mentor session ela join cheyyali?
- Live class ekkada kanapadutundi?
- How to access live sessions on the learning portal?
- Live session join cheyyatam ela?
- Where do I find live classes on the portal?
- Live sessions home page lo untaya?
- How do I attend a mentor-led session?
- Live session ki ela vellaali?
- Can I interact with mentors in live sessions?
- Live session timing enti?
- What time do live sessions start?
- Mentor tho directly matladachu aa?

**ANSWER:** Live Sessions are mentor-led interactive classes available directly on the Home Page of your learning portal. You can access them by clicking on the Live Sessions section on the right side of the home screen. Click on View More to see all available sessions.

Live sessions run daily from 11:00 AM to 8 PM, Monday to Saturday.

Each session card shows you the session title, course name, date, time, and current status — either Live (currently ongoing) or Upcoming (scheduled but not yet started).

To join a session, click the Join Now button on the session card. Once inside, you can interact directly with mentors, ask questions, and get guidance on difficult concepts.

Live sessions help you:

- Clarify doubts on concepts you are finding difficult
- Learn from experienced developers in real time
- Practice interview-style questions with mentors
- Get additional guidance beyond your daily schedule

For upcoming sessions that have not started yet, you can click **Add to Calendar** to save the session time and get a reminder.

After attending a session, you can submit your feedback here:

TAGS: Live sessions, join session, mentor session, home page, session access, 11 AM, 7:50 PM, Join Now, Add to Calendar, doubt clarification, mentor interaction, portal navigation, live class, session timing

**CANONICAL\_QUESTION:** Why can't I see a live session or why is the Join Now button not working? **INTENT CATEGORIES:** Session not visible, Join Now disabled, session locked, eligibility, unit completion required, course unlock

**QUESTION\_VARIATIONS:**

- Why is the Join Now button greyed out?
- Live session kanapadatle, enduku?
- Join Now button work avvadam ledu, emi cheyyali?
- Session visible avvadam ledu, why?
- I can see the session but can't join, what do I do?
- Live session join cheyyataniki em complete cheyyali?
- Why am I not able to enter the live session?
- Session lock avundi, ela open cheyyali?
- I completed the course but still can't join the session Live session button disabled ga undi, enduku?
- Which unit do I need to complete to join the session?
- Session join cheyyatam ki eligibility emi?
- Why are some sessions not showing in my list?
- Live session list lo kanapadatle emi cheyyali?
- Session visible but join cheyyataniki message vasatundi, emi cheyyali?

**ANSWER:** There are two reasons why you may not be able to see or join a live session:

**Reason 1** — The course is not yet unlocked in your schedule. Live sessions are only visible in your list when the corresponding course has been unlocked for you. For example, on Day 1 of GC1, you will only see sessions related to Static Website. As you progress and more courses unlock — typically by around Day 10 of GC1 — sessions for those courses will also appear in your list.

**Reason 2** — You have not completed the required unit in that course Even when a session is visible, you must complete at least the first unit of the corresponding course before the Join Now button becomes active. Until you complete that unit, the button will be greyed out and a message will appear telling you exactly which unit you need to finish first.

For example: If the HTML & CSS live session is visible but the Join Now button is inactive, you will see a message like — "Complete till Introduction to HTML > Introduction to GenAI in Frontend Development | Reading Material session to join."

**What to do:** Go to your daily schedule, complete the required unit mentioned in the prompt, and then return to the Live Sessions section — the Join Now button will be active.

**TAGS:** Live session not visible, Join Now disabled, session locked, course unlock, unit completion, eligibility, greyed out button, session access, GC1, daily schedule, session requirement, HTML CSS session, Programming Foundations

---

## Gamification, Points, Goals & Leaderboard

The Gamification feature on the NxtWave Intensive learning portal makes learning engaging by rewarding students for completing video sessions, coding problems, assignments, and MCQ practices through a system of Points, Coins, Daily Goals, Weekly Goals, and Leaderboard Rankings.

### Where can I access the Gamification Feature?

You can find this feature when you access Learning Portal Home page side menu

### How Gamification works?

- You just have to **complete the sessions** that you are getting in your daily schedule.
- Points are calculated based on overall learning activity including coding practices, assignments, MCQs, and video completions. When you get Points, you will get **Coins**.
- You will have **Daily Goals & Weekly Goals** to achieve and drive your motivation to practice more.
- You can also check your **Daily Rank & Weekly Rank** when compared with your peers in the group to improve your competitive spirit.

### What is Daily Goal & Weekly Goal?

- On a particular day, if you have any pending units unlocked till now (either units given in the schedule or any previous pending ones), you will solve them.
- **Points**
  - For each coding question you will get a **Score**
  - **Points** will be awarded based on your **Score** in coding questions
  - **1 Score = 1 Point**
  - 1 Video unit = 100 Points
  - MCQ Practice, Exams = Based on total score, equivalent points will be awarded.

- **Daily Goal**

- If you score a minimum of **100** points, your **Daily Goal** for that day will be achieved.
- **1 Daily Goal = 50 Coins**
- If you are up-to-date with the schedule, then the Daily Goal is not applicable.

- **Weekly Goal**

- Achieve **Daily Goal at least 5 days in a week** to reach your **Weekly Goal**
- **1 Weekly Goal = 300 Coins**

- **Leader Board**

Based on the points, the daily & weekly leaderboards are displayed. You will get additional coins when you top the leaderboards.

When achieved the 1st/2nd/3rd rank in the Weekly Goal Leader Board or Daily Goal Leader Board, a congratulatory banner will be shown

- **Daily Leader Board**

| Rank in Daily Leaderboard | Coins |
|---------------------------|-------|
| 1st                       | 50    |
| 2nd                       | 40    |
| 3rd                       | 30    |

- **Weekly Leader Board**

| Rank in Weekly Leaderboard | Coins |
|----------------------------|-------|
| 1st                        | 100   |
| 2nd                        | 80    |
| 3rd                        | 60    |

**Is Gamification available in the mobile version too?**

Currently, Gamification is available in the desktop version. Going forward, it is in the plan to release a mobile version also.

**Note:** Even if you solve the coding problems on your mobile, the score will be considered in the Gamification. The only difference is the Daily Goal, Weekly Goal, etc won't be visible in mobile

Goals and coins are not applicable during paused schedules.

---

**QUESTION\_ID:** GM-001

**CANONICAL\_QUESTION:** What is the Gamification feature on the learning portal?

**INTENT CATEGORIES:** Gamification definition, feature overview, points coins goals, learning rewards, portal feature

**QUESTION\_VARIATIONS:**

Gamification feature ante enti?

What is the gamification system in the portal?

How does gamification work in NxtWave?

Portal lo gamification ela work avutundi?

Points and coins system ela work avutundi?

What are points and coins in the portal?

How do I earn rewards on the portal?

Gamification feature ekkada untundi?

Portal lo rewards system enti?

How is learning made fun in NxtWave?

**ANSWER:** The Gamification feature makes your learning journey more engaging and rewarding by turning your daily coding practice into a game with points, coins, goals, and rankings.

**Here is how the full system works:**

**Points:** Points are calculated based on overall learning activity including coding practices, assignments, MCQs, and video completions. The more sessions you complete and the better your scores, the more points you accumulate.

When you get Points, you will get Coins.

**Coins:** Coins are earned by achieving Daily and Weekly Goals — not directly from points alone.

**Daily Goal:** Earn a minimum of 100 Points in a day to achieve your Daily Goal. Each completed Daily Goal gives you 50 Coins.

**Weekly Goal:** Achieve the Daily Goal on at least 5 days in a week to complete your Weekly Goal. Each completed Weekly Goal gives you 300 Coins.

Leaderboard: Your daily and weekly points are compared with other learners. Topping the leaderboard earns you bonus coins — up to 50 extra coins for 1st place on the Daily Leaderboard and up to 100 extra coins for 1st place on the Weekly Leaderboard.

You can access the Gamification tab from the left side menu on the Home Page of your learning portal on desktop or laptop.

TAGS: Gamification, points, coins, daily goal, weekly goal, leaderboard, store, rewards, coding problems, learning portal, desktop, left menu

---

**QUESTION\_ID:** GM-002

**CANONICAL\_QUESTION:** How do I achieve my Daily Goal and Weekly Goal?

**INTENT CATEGORIES:** Daily goal, weekly goal, 100 points, coins, goal completion, goal tracking, consistency

**QUESTION\_VARIATIONS:**

- Daily goal complete cheyyatam ela?
- How many points do I need for the daily goal?
- Weekly goal ela achieve cheyyali?
- Daily goal ki minimum points emi?
- I completed coding problems but daily goal is not achieved, why?
- Daily goal accomplish avvadam ledu, emi cheyyali?
- How do I earn 50 coins in a day?
- Weekly goal ki enni days daily goal achieve cheyyali?
- Daily goal not showing as completed, why?
- How to track my daily and weekly goals?
- Goal progress ekkada chudali?
- Weekly goal complete cheyyataniki enni daily goals kavali?
- 50 coins ela earn cheyyali?
- 300 coins ela vasatai?
- Am I on track with my goals?

**ANSWER:** Here is exactly how Daily and Weekly Goals work:

Daily Goal: Earn a minimum of 100 Points in a single day by completing sessions. Once you cross 100 Points in a day, your Daily Goal is marked as achieved and you receive 50 Coins.

Weekly Goal: Achieve the Daily Goal on at least 5 days within a week. Once you do, your Weekly Goal is completed and you receive 300 Coins.

You can track your Daily Goal progress on the right side panel of the Home Page — it shows your current points for the day and how close you are to 100.

A few important things to know:

- If you are already up to date with your schedule and have no pending coding problems, the Daily Goal is not applicable for that day.
- If you solve coding problems that were scheduled for a previous day, the points count for the day you actually solve them — not the original scheduled day. So if you complete Day 5 problems on Day 6, the goal for Day 5 will show as Unaccomplished.
- During a paused schedule, Daily and Weekly Goals are not applicable and coins will not be earned for those days. Resume your schedule to continue tracking goals.

**TAGS:** Daily goal, weekly goal, 100 points, 50 coins, 300 coins, goal completion, pending problems, paused schedule, goal tracking, home page, consistency, unaccomplished goal

---

**QUESTION\_ID:** GM-003

**CANONICAL\_QUESTION:** How does the Leaderboard and Daily Rank work?

**INTENT CATEGORIES:** Leaderboard, daily rank, weekly rank, ranking, competitive learning, bonus coins, rank improvement

**QUESTION\_VARIATIONS:**

- Leaderboard lo rank ela calculate avutundi?
- How is my daily rank determined?
- Daily rank improve cheyyatam ela?
- Leaderboard lo top ki ela vellaali?
- How do I get bonus coins from the leaderboard?
- Weekly leaderboard ela work avutundi?
- Rank ekkada chudali?
- Daily rank ante enti?
- What activities improve my rank?
- Leaderboard lo undi bonus coins vasataaya?
- How many extra coins do I get for topping the leaderboard?
- Who can see my rank?
- Rank basis on what activities?
- Leaderboard top 3 lo unte extra coins vasataaya?
- Daily rank home page lo kanapadutundi, ela calculate avutundi?

**ANSWER:** Your Daily Rank is displayed on the Home Page next to your profile and is calculated based on your overall learning activity and performance on the platform for that day. Activities that contribute to your rank include coding practice completion, assignment completion, MCQ practice, star points earned, and general learning participation.

The Leaderboard compares your points with other learners in your group. There are two leaderboards:

Daily Leaderboard — based on points earned in a single day:

1st place — 50 bonus Coins

2nd place — 40 bonus Coins

3rd place — 30 bonus Coins

Weekly Leaderboard — based on points earned across the week:

1st place — 100 bonus Coins

2nd place — 80 bonus Coins

3rd place — 60 bonus Coins

To improve your rank, the most effective approach is to stay consistent with your daily schedule — solve all coding problems, complete assignments, and finish MCQ practices regularly. If you have pending schedules, completing a larger number of problems on a single day can also help boost your daily ranking significantly.

**TAGS:** Leaderboard, daily rank, weekly rank, bonus coins, rank calculation, coding practice, assignments, MCQ, competitive learning, points, top 3, rank improvement, home page

---

**QUESTION\_ID:** GM-004

**CANONICAL\_QUESTION:** Can I access the Gamification feature on mobile?

**INTENT CATEGORIES:** Mobile gamification, gamification tab mobile, desktop only, points on mobile, goal visibility mobile

**QUESTION\_VARIATIONS:**

- Gamification mobile lo work avutunda?
- Can I see my daily goal on mobile?
- Is the gamification tab available on phone?
- Mobile lo points earn cheyyachu aa?
- Phone lo gamification tab kanapadatle, enduku?
- I solved coding problems on mobile, will I get points?
- Mobile lo leaderboard chudachu aa?
- Gamification feature phone lo untunda?
- Mobile lo daily goal visible avutunda?
- Can I track my coins and goals on mobile?

**ANSWER:** The Gamification tab is only available on desktop or laptop. If you are accessing the portal on a mobile device, you will not be able to see the Gamification tab, Daily Goal, Weekly Goal, or Leaderboard.

However, if you solve coding problems on your mobile, those points are still counted in the Gamification system. The scores you earn on mobile will reflect in your points and rankings once you access the portal on a desktop or laptop.

For the full Gamification experience — tracking your daily goal progress, checking your rank, and viewing your coins — use the portal on a laptop or desktop.

**TAGS:** Mobile gamification, gamification tab, desktop only, points on mobile, daily goal mobile, leaderboard mobile, laptop required, coding problems mobile, goal visibility

---

**QUESTION\_ID:** GM-005

**CANONICAL\_QUESTION:** Can we chat with the people who are on the leaderboard?

**ANSWER:** Sorry, that is not possible.

---

## Product Tour

The Product Tour is a guided walkthrough available on the learning portal that introduces students to all key features of the platform so they can make the most of their learning experience. It is accessible from the Profile section. The tour covers major sections including Home, My Journey, Other Courses, and Gamification — each with a completion indicator. Students can track their Product Tour completion percentage and restart any section by clicking "Start Again." The tour is designed to help new and existing students discover and understand portal features they may not be aware of.

---

**QUESTION\_ID:** PT-001

**CANONICAL\_QUESTION:** What is the Product Tour and how do I access it?

**INTENT CATEGORIES:** Product tour, portal walkthrough, feature guide, portal navigation help, new student onboarding

**QUESTION\_VARIATIONS:**

- What is the product tour in the portal?
- Product tour ekkada untundi?
- How do I learn to use the portal?
- Portal features ela telusukovali?
- Is there a guide to help me navigate the portal?
- Portal walkthrough undi aa?
- How do I find out about all portal features?
- Portal use cheyyatam ela nerchukovali?
- Where can I find a tutorial for the learning portal?
- New ga join chesanu, portal ela use cheyyali?
- Portal lo anni features ela telusukuntam?
- Product tour ela access cheyyali?
- Can I redo the product tour?

- Portal features gurinchi complete ga ela telusukovali?
- Is there an introduction to the portal features?

**ANSWER:** The Product Tour is a guided walkthrough of the learning portal that introduces you to all key features — so you can make the most of your learning experience from day one.

**How to access it:**

- Click on your Profile icon on the bottom left of the navigation pane → select Product Tour from the menu.

**What it covers:**

The tour walks you through four major sections of the portal:

- Home — understanding your schedule, daily goals, live sessions, and achievements
- My Journey — navigating your Growth Cycles, courses that are mandatory
- Other Courses — discovering additional courses available to you
- Gamification — understanding points, coins, goals, and leaderboard

You can track your overall completion percentage at the top of the tour screen. Each section shows whether it has been completed with a green tick. If you want to revisit any section, click Start Again next to that section and the walkthrough will restart for it.

The Product Tour is especially useful if you are new to the portal or want to explore features you have not used yet.

**TAGS:** Product tour, portal walkthrough, feature guide, Home, My Journey, Gamification, Other Courses, profile menu, portal navigation, new student, feature discovery, completion percentage, Start Again

---

## Logout

The Logout option is also accessible from the Profile section — located at the bottom left corner of the profile menu — allowing students to securely sign out of their account.

**QUESTION\_ID:** LO-001

**CANONICAL\_QUESTION:** How do I log out of the learning portal?

**INTENT CATEGORIES:** Logout, sign out, portal account, profile menu, session end

**QUESTION\_VARIATIONS:**

- How do I sign out of the portal?
- Portal lo logout ela cheyyali?
- Where is the logout button?
- Logout option ekkada untundi?
- How do I exit my account on the learning portal?
- Portal nundi logout cheyyatam ela?
- Sign out option ekkada undi?
- Account logout cheyyataniki ela cheyyali?
- Profile lo logout option undi aa?
- I want to log out of my account, how?

**ANSWER:** To log out of the learning portal, click on your Profile icon at the bottom left corner of the navigation pane. At the bottom of the profile menu, you will find the Logout option. Click on it to securely sign out of your account.

**TAGS:** Logout, sign out, profile menu, portal account, session end, bottom left, navigation pane

---

## Chat Support

The Support Chat feature is accessible to all students on the learning portal regardless of their program version (Intensive 1.0, 2.0, or 3.0). It appears as a chat or help icon in the bottom right corner of every page on the portal. Students can use it to raise non-subject-related queries — such as platform issues, access problems, portal feature questions, or any support requests. It is not meant for subject or concept doubts — those should be posted in the Discussion tab of the respective session or raised in Live Sessions. The support chat connects students directly with the support team for quick assistance.

**QUESTION\_ID:** SC-001

**CANONICAL\_QUESTION:** How do I contact support or report an issue on the portal?

**INTENT CATEGORIES:** Support chat, help icon, contact support, report issue, portal problem, raise query, non-subject help

**QUESTION\_VARIATIONS:**

- How do I get help on the portal?
- Support team ki ela contact cheyyali?
- Portal issue undi, ela report cheyyali?
- Where is the help icon on the portal?
- Chat support ekkada untundi?
- I have a problem with the portal, who do I contact?
- Portal lo help icon ekkada undi?

- How do I raise a support request?
- Can I chat with the support team on the portal?
- Support chat ela use cheyyali?
- Portal features gurinchi doubt undi, ela ask cheyyali?
- I need help with my account, how do I reach support?
- Bug report cheyyatam ela?
- Portal lo issue face avutunna, emi cheyyali?
- How do I reach out to the NxtWave support team?

**ANSWER:** You can reach the support team directly from the learning portal using the Support Chat feature. Here is how:

Look for the chat or help icon in the bottom right corner of any page on the portal. Click on it to open the support chat and post your query. The support team will assist you from there.

You can use the support chat for: Platform-related questions and portal feature help Reporting issues or bugs on the portal Account or access-related problems Any non-subject-related queries or clarifications

Important: The support chat is for non-subject queries only. If you have doubts about a concept or coding problem, use the Discussion tab within the session or join a Live Session (available 11 AM – 8 PM, Monday to Saturday) to get help from domain experts.

You can also reach the support team through these channels:

Email: [support@nxtwave.tech](mailto:support@nxtwave.tech)(available 9 AM – 9 PM)

Intensive 3.0 students can also contact your success coach. You can find your success coach details at Profile → My Success Coach

**TAGS:** Support chat, help icon, contact support, report issue, portal problem, raise query, non-subject queries, bottom right corner, bug report, account issue, access problem, all versions, support team, WhatsApp, email support

## My Discussions

My Discussions is the central hub where all learning-related discussions and doubts raised by a student across the entire portal are available in one place. It can be accessed from the left navigation menu or directly at <https://learning.ccbp.in/my-discussions>

Discussions can be raised from within Video Lectures, Cheat Sheets, Coding Practices, Assignments, and other learning activities that support the discussion feature. Once raised, all

discussions — along with mentor responses — are accessible from the My Discussions page, so students don't need to navigate back to individual sessions to track replies.

**What you can do in My Discussions:**

- View all discussions raised by you across the portal
- Review your previous questions and doubts
- Check responses from domain experts and mentors
- Continue or follow up on existing discussion threads

Domain experts respond to discussions within **24 hours**.

---

**QUESTION\_ID:** DIS-001

**CANONICAL\_QUESTION:** Where can I view all my discussions and doubt responses in one place? **QUESTION\_VARIATIONS:**

- My discussions page endi untundi?
- Naa doubts ki responses ela chudali?
- Portal lo discussions central location endi?
- Mentor ki raise chesina doubts ela track cheyyali?
- Previous questions responses ela chudali?
- Discussion thread follow up ela cheyyali?
- All my doubts oka place lo chudocha?

**ANSWER:** All your discussions and doubt responses are available in the **My Discussions** section. You can access it from the left navigation menu or visit <https://learning.ccbp.in/my-discussions>

Here you can view all discussions you have raised across the portal, check mentor responses, review previous questions, and continue existing discussion threads — all without navigating back to individual sessions.

**TAGS:** my discussions, doubts, mentor response, central hub, track, discussion thread

## Nxtmock AI Interview

NxtMock is a custom-built AI-powered interview practice tool designed to help students prepare for job interviews by simulating real interview experiences. It addresses the common challenges students face — nervousness, lack of confidence, and uncertainty about how to answer interview questions — by giving them a safe, judgment-free environment to practice as many times as needed.

### Where is NxtMock available:

- **Build Your Own Static Website** course — at the end of the course
- **Programming Foundations with Python** course — at the end of the course
- **Placement Preparation Growth Cycle** — multiple NxtMock AI interviews for every major topic

Students can attempt each NxtMock interview up to **3 times** per course, allowing them to refine their skills and improve their scores across attempts.

### How NxtMock works:

1. Watch the NxtMock AI Interview introduction video
2. Read the interview guidelines and click "I have read all the instructions"
3. Allow camera and microphone permissions (required for the interview)
4. The AI interviewer starts with an introduction round, then moves to theory questions, and finally to coding questions
5. For coding questions, screen sharing permission is also required so the AI can evaluate the code written
6. The AI evaluates all responses in real time and provides feedback during the interview
7. At the end, click **"End Interview"** → **"Get Feedback"** to receive a detailed, personalized AI-generated feedback report covering all sections (introduction, theory topics, coding performance)

### Feedback Report includes:

- Score and performance assessment per section
- Positives and areas of improvement specific to the student's answers
- Personalized suggestions to improve for the next attempt

It is recommended to attempt NxtMock on a laptop or desktop for the best experience. A working microphone, camera, and stable internet connection are required.

---

**QUESTION\_ID:** NM-001

**CANONICAL\_QUESTION:** What is NxtMock AI Interviewer?

### QUESTION\_VARIATIONS:

- NxtMock ante enti?
- AI interview practice tool enti?
- NxtMock ela work avutundi?
- NxtMock AI interview gurinchi cheppandi
- What is the AI interviewer in NxtWave?

- Interview practice tool undi aa portal lo?

**ANSWER:** NxtMock is NxtWave's AI-powered interview practice tool that simulates a real job interview experience. It helps you practice answering both theory and coding questions in a judgment-free environment, receive personalized feedback, and build confidence before your actual interviews. The AI interviewer asks frequently asked interview questions across topics like HTML, CSS, JavaScript, Python, React, and more, evaluates your responses, and gives you a detailed feedback report at the end of each session.

**TAGS:** NxtMock, AI interviewer, interview practice, feedback, confidence

---

**QUESTION\_ID:** NM-002

**CANONICAL\_QUESTION:** Where can I find NxtMock AI interviews in the portal?

**QUESTION\_VARIATIONS:**

- NxtMock portal lo endi untundi?
- NxtMock interview ela access cheyyali?
- Which courses have NxtMock interviews?
- Static website lo NxtMock undi aa?
- Placement preparation lo NxtMock untunda?

**ANSWER:** NxtMock AI interviews are available at the following places in the portal:

- At the end of the **Build Your Own Static Website** course
- At the end of the **Programming Foundations with Python** course
- In the **Placement Preparation Growth Cycle** — multiple NxtMock interviews covering every major topic

You can attempt each NxtMock interview up to **3 times** per course.

**TAGS:** NxtMock, location, portal, static website, programming foundations, placement preparation

---

**QUESTION\_ID:** NM-003

**CANONICAL\_QUESTION:** How many times can I attempt a NxtMock AI interview?

**QUESTION\_VARIATIONS:**

- NxtMock interview multiple times attempt cheyyocha?
- NxtMock retry cheskovacha?
- How many attempts are allowed in NxtMock?
- NxtMock 3 times attempt cheyyocha?

- Can I retake the NxtMock interview?

**ANSWER:** Yes, you can attempt each NxtMock AI interview up to **3 times** per course. Each attempt gives you the opportunity to review your feedback, work on the areas of improvement, and aim for a better score in the next attempt.

**TAGS:** NxtMock, attempts, retake, 3 times, practice

---

**QUESTION\_ID:** NM-004

**CANONICAL\_QUESTION:** What do I need to set up before taking a NxtMock interview?

**QUESTION\_VARIATIONS:**

- NxtMock interview ki emi prepare cheyyali?
- NxtMock start cheyyatam mundu emi check cheyyali?
- Camera microphone NxtMock ki kavala?
- NxtMock technical requirements emi?
- NxtMock lo permission issue vasindi

**ANSWER:** Before starting a NxtMock interview, ensure the following:

- **Device:** Use a laptop or desktop for the best experience
- **Camera:** Must be working and permission must be allowed
- **Microphone:** Must be working and permission must be allowed
- **Internet:** Stable internet connection required
- **Screen sharing:** Required for coding interview rounds (the AI evaluates your code in real time)

When you start the interview for the first time, the portal will walk you through permission setup and test your audio and camera to confirm everything is working correctly.

**TAGS:** NxtMock, setup, camera, microphone, screen sharing, technical requirements

---

**QUESTION\_ID:** NM-005

**CANONICAL\_QUESTION:** How does the NxtMock AI feedback work?

**QUESTION\_VARIATIONS:**

- NxtMock feedback ela vasthundi?
- AI interview tarvata feedback ela chudali?
- NxtMock report lo emi untundi?
- NxtMock score ela calculate avutundi?

- Feedback report NxtMock lo ela use cheyyali?

**ANSWER:** After completing your NxtMock interview, click "**End Interview**" and then "**Get Feedback**". The AI generates a personalized feedback report that includes:

- A score for each section (introduction, theory topics, coding)
- Specific positives based on your answers
- Areas of improvement with actionable suggestions
- Overall performance assessment

The feedback is tailored entirely to your responses — it is private and meant only for you. Use this feedback to identify weak areas and improve your score in the next attempt.

**TAGS:** NxtMock, feedback, report, score, improvement, personalized

---

## AI Tutor (AI Mentor)

The AI Tutor is an intelligent learning assistant available within selected coding practices on the Learning Portal. It can be accessed via **Chat** or **Voice** directly within the coding practice interface. Currently, the AI Tutor is available for a limited set of concepts across the courses, with more being added over time.

The AI Tutor is designed to strengthen conceptual understanding and improve problem-solving skills through a **guided-learning approach** — it does not provide direct solutions or complete answers to coding problems. Instead, it helps students think through problems independently by providing hints, suggesting next steps, pointing out conceptual mistakes, and guiding them toward the correct solution.

### What the AI Tutor can help with:

- Explaining programming concepts clearly
- Clarifying coding logic and reasoning
- Helping understand errors in your code
- Explaining code you have already written — how it works, what concepts it uses, and the reasoning behind the solution
- Connecting coding practices back to concepts taught in the curriculum
- Guiding problem-solving approaches step by step

### What the AI Tutor will not do:

- Solve assignments or coding problems directly
- Reveal complete answers
- Bypass the learning process in any way

The philosophy behind the AI Tutor is that developing the skill to solve problems independently is what ultimately prepares students for real interviews and the workplace — not memorizing solutions.

---

**QUESTION\_ID:** AIT-001

**CANONICAL\_QUESTION:** What is the AI Tutor and what can it help me with?

**QUESTION\_VARIATIONS:**

- AI Tutor ante enti?
- AI Mentor emi chestundi?
- AI Tutor gurinchi cheppandi
- Coding practice lo AI assistant undi aa?
- AI Tutor ela use cheyyali?
- What is the AI mentor in NxtWave?

**ANSWER:** The AI Tutor is an intelligent learning assistant available inside selected coding practices. You can interact with it via **Chat** or **Voice**. It helps you by explaining concepts, clarifying coding logic, understanding errors, and guiding your problem-solving approach. If you have already written some code, the AI Tutor can also explain how your code works and what concepts it uses. Its goal is to help you understand and solve problems independently — not to give you the answers directly.

**TAGS:** AI Tutor, AI Mentor, coding practice, chat, voice, learning assistant

---

**QUESTION\_ID:** AIT-002

**CANONICAL\_QUESTION:** Will the AI Tutor give me the solution to the coding problem?

**QUESTION\_VARIATIONS:**

- AI Tutor solution ichestunda?
- AI Mentor answer chepthunda?
- Coding problem answer AI Tutor ichestunda?
- Can I use AI Tutor to get the answer?
- AI Tutor assignment solve chestunda?
- Why won't the AI Tutor give me the answer?

**ANSWER:** No, the AI Tutor does not provide direct solutions or complete answers to coding problems. It follows a guided-learning approach — instead of solving the problem for you, it gives hints, suggests next steps, points out conceptual mistakes, and guides you toward finding

the solution on your own. This approach ensures you build genuine problem-solving skills that will help you in interviews and on the job.

**TAGS:** AI Tutor, no solution, guided learning, hints, problem solving, independent learning

---

**QUESTION\_ID:** AIT-003

**CANONICAL\_QUESTION:** Where is the AI Tutor available in the portal?

**QUESTION\_VARIATIONS:**

- AI Tutor portal lo endi untundi?
- AI Mentor coding practice lo untunda?
- All coding practices lo AI Tutor untunda?
- AI Tutor which courses lo available?
- Coding practice lo AI Tutor kanipiyatledu

**ANSWER:** The AI Tutor is currently available within selected coding practices across the courses — it is not yet available in all coding practices. You can access it directly from within a coding practice via the **Chat** or **Voice** option. More concepts and practices are being added over time. ‘

**TAGS:** AI Tutor, availability, coding practice, portal, limited, selected concepts

---

**QUESTION\_ID:** AIT-004

**CANONICAL\_QUESTION:** I have already written code. Can the AI Tutor explain it to me?

**QUESTION\_VARIATIONS:**

- Nenu code raasanu, AI Tutor explain chestunda?
- AI Tutor naa code gurinchi chepthunda?
- Can AI Mentor review my code?
- AI Tutor code explain cheyyadam ela?
- I wrote a solution, can AI Tutor tell me if it's correct?

**ANSWER:** Yes! If you have already written code, the AI Tutor can explain how your code works, describe the concepts being used, and help you understand the reasoning behind your solution. This is a great way to deepen your understanding even after arriving at an answer. However, it will guide you conceptually rather than simply confirming if your code is right or wrong.

**TAGS:** AI Tutor, code explanation, existing code, concepts, reasoning, review

---

# Bookmarks

The Bookmarks feature allows you to save important learning content during your learning journey and access it all from a single location, without having to search through the curriculum again. Bookmarks can be accessed from the left navigation menu or directly at <https://learning.ccbp.in/bookmarks>

**What can be bookmarked:** You can bookmark Coding Practices by clicking the bookmark icon on the bottom left corner of the respective coding practices.

**Viewing bookmarked content:** All saved coding practices are displayed together in the Bookmarks section, making it easy to revisit important concepts, access revision material quickly, and organize your personal collection of learning resources.

---

**QUESTION\_ID:** BKM-001

**CANONICAL\_QUESTION:** What is the Bookmarks feature and how do I use it?

**QUESTION\_VARIATIONS:**

- Bookmarks feature enti?
- Important content ela save cheyyali?
- Bookmark ela add cheyyali?
- Portal lo bookmark option endi untundi?
- How do I save a coding question or video for later?
- Bookmark chesina content ela chudali?
- My bookmarks endi untundi?

**ANSWER:** The Bookmarks feature lets you save Coding Practices — so you can revisit them later from one place.

**To bookmark content:** Click the **bookmark icon** on the bottom left corner of the respective coding practices

**To view all your bookmarks:** Go to the **Bookmarks** section from the left navigation menu, or visit <https://learning.ccbp.in/bookmarks>

All your saved content will be listed there, so you don't need to search through the curriculum again.

**TAGS:** bookmarks, save content, video lectures, cheat sheets, coding practice, revision, learning resources

---

# Question Bank

The Question Bank is a centralized collection of coding problems available on the learning portal, accessible from the left navigation menu or directly at <https://learning.ccbp.in/problems-set>. It brings together coding questions from across all curriculum courses into one place — so students do not need to navigate through individual course modules to find practice problems. Questions are organized by course and topic, and can be filtered by difficulty level (Easy, Medium, Hard) and completion status (Not Attempted, In Progress, Solved). It is designed for regular practice, interview preparation, and skill reinforcement beyond the daily schedule.

---

**QUESTION\_ID:** QB-001

**CANONICAL\_QUESTION:** What is the Question Bank and how do I use it?

**QUESTION\_VARIATIONS:**

- Question bank ante enti?
- Where can I find extra coding problems to practice?
- Coding questions one place lo chudadam ela?
- How do I access the question bank on the portal?
- Interview preparation ki coding practice ekkada cheyyali?
- Portal lo anni coding questions okachota untaya?
- How do I filter questions by course or topic?
- Easy medium hard questions ekkada untayi?
- Solved questions track cheyyatam ela?
- Question bank lo topic wise filter ela cheyyali?
- Pending coding problems ekkada chudali?
- How do I find unsolved questions in the portal?
- Course wise coding questions ela chudali?
- Practice problems ekkada untayi portal lo?
- Question bank access cheyyatam ela?

**ANSWER:** The Question Bank is a centralized collection of coding problems from across all your curriculum courses — available in one place so you can practice without navigating through individual course modules.

**To access it:** Go to the left navigation menu on the portal and select Question Bank (<https://learning.ccbp.in/problems-set>).

**How to use it:**

**Filter by Course:** Use the checkboxes on the right side to select a course — such as Programming Foundations, JavaScript Essentials, Build Your Own Dynamic Web Application, Responsive Web Design using Flexbox, Node.js, React JS, React Hooks, and more. All questions from that course will be displayed.

**Filter by Topic:** After selecting a course, you can further narrow down questions by selecting a specific topic within that course. If no topic is selected, all questions from the chosen course are shown.

**Filter by Difficulty:** Questions are tagged as Easy, Medium, or Hard — allowing you to start with simpler problems and gradually move to harder ones.

**Filter by Status:** You can filter questions based on where you stand with them — Not Attempted, In Progress, or Solved. This helps you quickly pick up where you left off or focus on problems you have not started yet.

The Question Bank is especially useful for:

- Practicing coding regularly outside your daily schedule
- Strengthening problem-solving skills on specific topics
- Preparing for company hiring exams and technical interviews
- Revisiting questions you found difficult earlier

**TAGS:** Question bank, coding problems, coding practice, course filter, topic filter, difficulty levels, Easy Medium Hard, Not Attempted, In Progress, Solved, interview preparation, problem solving, left navigation, portal practice, all courses

---

## My Note Book

My Notebook is a built-in note-taking feature on the learning portal that allows students to create and manage personal study notes without needing any external application. Notes can be created directly while watching video sessions using the Notes panel on the right side of the session screen. All saved notes are stored centrally and accessible anytime from the left navigation menu or at <https://learning.ccbp.in/my-notebook>.

The feature supports formatted notes with titles, bullet points, bold/italic text, links, and images.

**Cheat Sheets** are pre-written by NxtWave's domain experts. They cover the key concepts from each session in a structured, standardised way. Every student sees the same cheat sheet.

**My Notebook** is personal. It captures your own understanding, your own way of explaining things to yourself, things you found confusing, shortcuts you discovered, or connections you made between concepts. No two students' notebooks look the same.

Research consistently shows that writing notes in your own words improves retention significantly more than reading someone else's notes — even good ones.

So the practical value of My Notebook over Cheat Sheets is:

You write it in your own words → you remember it better

You capture exactly what confused you → you can revisit precisely that

You build a personal reference → faster to scan before interviews than a full cheat sheet

You stay actively engaged during sessions → rather than passively watching

---

**QUESTION\_ID:** NB-001

**CANONICAL\_QUESTION:** What is My Notebook and how do I use it?

**QUESTION\_VARIATIONS:**

- My notebook feature enti?
- How do I take notes while watching a session?
- Session lo notes ela rayyali?
- Where are my saved notes on the portal?
- My notebook ekkada untundi?
- How do I access my notes?
- Can I take notes during video lectures?
- Notes save cheyyatam ela?
- Portal lo note taking option undi aa?
- How do I review my notes later?
- Notebook lo notes ela chudali?
- Can I write notes without leaving the session?
- Personal notes portal lo save cheyyachu aa?
- Session chustunnappudu important points ela save cheyyali?
- Notes ekkada store avutayi?

**ANSWER:** My Notebook is a built-in note-taking feature on the portal that lets you create and save personal study notes — without needing any external app or notebook.

Taking notes during a session: While watching a video session, you will find a Notes panel on the right side of the screen. Click New Note to create a note. You can add a title, write important concepts, save explanations, and record your own observations. Notes support formatting options including bold, italic, bullet points, numbered lists, links, and images.

**Viewing all your notes:** All notes you have created are stored in the My Notebook section. You can access it from the left navigation menu or visit <https://learning.ccbp.in/my-notebook> directly.

My Notebook helps you:

- Review concepts quickly without rewatching full sessions
- Revise before assessments and interviews
- Maintain organized, topic-wise study notes
- Build your own personalized knowledge repository throughout the program

**TAGS:** My Notebook, note taking, session notes, save notes, revision notes, video lecture notes, left navigation, portal notes, personal notes, <https://learning.ccbp.in/my-notebook>, new note, formatted notes

---

## Code Playground & Code Snippets

The Code Playground is a browser-based integrated development environment (IDE) built into the learning portal. It allows students to write, run, debug, save, and publish code without installing any software. It supports multiple languages and environments — Web (HTML, CSS, JavaScript), Python, JavaScript, Java, C, C++, and SQL.

The Python playground includes a powerful Debug Mode that executes code line by line and shows variable values, scope, and function calls in real time.

The SQL playground comes with preloaded databases and a Run Visualizer.

Students can save their work as Code Snippets and publish projects to a public URL (<yourproject>.ccbp.tech) to share with recruiters, mentors, and friends. All saved and published snippets are accessible from the Code Snippets section in the left navigation menu or directly at: <https://learning.ccbp.in/saved-snippets>.

The easiest way to access the Code Playground is by clicking the Code Playground option in the top navigation bar or the left navigation menu. Once inside, students can switch between languages — Web, Python 3.8, Python 3.8 (ML), Python 3.9, Python 3.10, C (gcc 8.3.0), C++, and Java — using the dropdown at the top left corner of the playground.

Direct Access URLs: <https://learning.ccbp.in/code-playground/new>

---

**QUESTION\_ID:** CP-002

**CANONICAL\_QUESTION:** What is the Code Playground and how do I use it?

**INTENT CATEGORIES:** Code playground, browser IDE, coding practice, supported languages, write and run code, no installation

**QUESTION\_VARIATIONS:**

- Code playground ante enti?
- Where can I practice coding on the portal?
- Portal lo code ela run cheyyali?
- Is there a coding environment on the learning portal?
- Code playground ekkada untundi?
- How do I write and run Python code on the portal?
- Can I code without installing anything?
- HTML CSS JavaScript practice ekkada cheyyali?
- Portal lo coding environment undi aa?
- Java code run cheyyatam ela portal lo?
- SQL queries practice ekkada cheyyali?
- Code playground lo which languages support avutayi?
- Browser lo code run cheyyachu aa?
- Where do I go to practice coding outside my schedule?
- Coding environment browser lo work avutunda?

**ANSWER:**

The Code Playground is a browser-based coding environment built directly into your learning portal. You can write, run, and debug code without installing any software on your device.

**How to access it:** Click on Code Playground from the top navigation bar or the left navigation menu. Once inside, use the dropdown at the top left corner to switch between languages and environments.

Available environments:

- Web (HTML, CSS, JavaScript) — Write HTML, CSS, and JavaScript in separate editors and see the output instantly in the preview panel.
- Python 3.8, 3.9, 3.10 — Write and execute Python programs directly in the browser.
- Python 3.8 for Machine Learning — Specialized Python environment for ML-related practice.
- JavaScript — Run JavaScript code and view console output.
- Java — Write and execute Java programs.
- C (gcc 8.3.0) and C++ — Compile and run programs with output displayed immediately.
- SQL — Available separately; practice SQL queries on preloaded databases with a Run Visualizer.

**TAGS:** Code playground, browser IDE, HTML CSS JavaScript, Python, SQL, Java, JavaScript, C, C++, coding practice, no installation, language dropdown, device preview, portal coding environment, run code

---

**QUESTION\_ID:** CP-003

**CANONICAL\_QUESTION:** What is Debug Mode in the Python Playground and how do I use it?

**INTENT CATEGORIES:** Debug mode, Python debugging, line by line execution, variable tracking, code errors, understand program flow

**QUESTION\_VARIATIONS:**

- Debug mode ante enti?
- How do I debug Python code on the portal?
- Python code lo errors ela find cheyyali?
- Debug mode ela use cheyyali?
- Line by line code execution ela cheyyali?
- Variable values code lo ela track cheyyali?
- How do I understand what my Python code is doing?
- Python program execution ela chudadam?
- Debug feature portal lo undi aa?
- Code lo bug ela find cheyyali?
- How do I see variable values while running code?
- Python code step by step execute cheyyatam ela?
- Program flow understand cheyyatam ela?
- Code errors trace cheyyatam ela?
- Debug mode enable cheyyatam ela?

**ANSWER:** Debug Mode is one of the most powerful features of the Python Playground. It helps you understand exactly what your code is doing — step by step — instead of just seeing the final output.

**How to use it:** Open the Python Playground at <https://learning.ccbp.in/code-playground/new>, write your Python code, and enable Debug Mode. Once enabled, your code executes line by line.

What you can observe while debugging:

- **Variable Values:** See the exact value of every variable at each line of execution — Line 1, Line 2, Line 3, and so on — so you know exactly how your data is changing.
- **Scope Information:** Understand which variables are local and which are global, and see which scopes are active at any point during execution.

- **Function Execution:** Track when functions are called, what they return, and follow the complete execution flow through your program.

Debug Mode is especially useful when:

Your code is not giving the expected output and you need to find where it goes wrong

You are learning a new concept like recursion or functions and want to see how the program flows

You want to build a deeper understanding of how Python executes your code

**TAGS:** Debug mode, Python playground, line by line execution, variable values, scope, function calls, program flow, debugging, logical errors, code understanding, Python code, step by step

---

**QUESTION\_ID:** CP-004

**CANONICAL\_QUESTION:** How do I save and publish my code projects?

**INTENT CATEGORIES:** Save code, publish project, code snippets, public URL, portfolio, share with recruiters, ccbp.tech

**QUESTION\_VARIATIONS:**

- Code save cheyyatam ela?
- How do I save my work in the playground?
- Project publish cheyyatam ela?
- Can I share my project with recruiters?
- How do I get a public link for my project?
- Published snippets ekkada untayi?
- Saved snippets ela access cheyyali?
- Portfolio ki project ela add cheyyali?
- How do I showcase my coding projects?
- ccbp.tech URL ela vasatundi?
- Code snippet save cheyyatam ela?
- Project link recruiters ki ela share cheyyali?
- Published project URL ela vasatundi?
- How do I build a coding portfolio?
- Saved code future lo access cheyyachu aa?

**ANSWER:** You can save and publish your code projects directly from the Code Playground to build a portfolio and share your work.

**Saving your code:**

Click Save in the playground, enter a snippet name, and save. Your project is stored as a Code Snippet and remains accessible any time from the Saved Snippets section at <https://learning.ccbp.in/saved-snippets>

### **Publishing your project:**

After saving, click Publish, choose a unique domain name, and publish. Your project will receive a public URL in the format: `your-project-name.ccbp.tech`

You can share this link with:

- Recruiters and hiring managers to demonstrate your skills
- Mentors for feedback and guidance
- Friends, family, and fellow learners to showcase your work
- On social media as part of your public coding portfolio

### **Viewing your snippets:**

**Saved Snippets:** All your saved code across Web Development, Python, Java, SQL, and JavaScript — organized in one place for quick reference and reuse. Access at <https://learning.ccbp.in/saved-snippets>

**Published Snippets:** All your publicly accessible projects with their unique shareable links. Access from the Code Snippets section in the left navigation menu.

**TAGS:** Save code, publish project, code snippets, saved snippets, published snippets, public URL, ccbp.tech, portfolio, recruiters, share project, left navigation, <https://learning.ccbp.in/saved-snippets>, coding portfolio, domain name

---

## Cloud IDE

The Cloud IDE is a full browser-based development environment used for advanced technologies — specifically React JS and Node.js — where the standard Code Playground is not sufficient. It provides a complete, industry-standard project environment directly in the browser without any local installation. Students access the Cloud IDE by clicking the Start IDE button within the relevant React JS or Node.js session or coding practice. Initialization takes approximately one minute. Once ready, students can run commands like **npm install** and **npm start** to set up and run their projects. Guidance on using the Cloud IDE is available through video lectures, FAQs, and learning resources within those sessions.

---

**QUESTION\_ID:** CI-001

**CANONICAL\_QUESTION:** What is the Cloud IDE and how do I use it?

**INTENT CATEGORIES:** Cloud IDE, React JS environment, Node.js environment, Start IDE, coding environment, advanced projects, npm install, npm start

**QUESTION\_VARIATIONS:**

- Cloud IDE ante enti?
- Why is the coding environment different in React JS?
- React JS lo different IDE vastundi, enduku?
- How do I start the Cloud IDE?
- Start IDE button ela use cheyyali?
- Node.js coding ekkada cheyyali?
- React JS coding practice lo IDE ela open cheyyali?
- Cloud IDE initialize avvadam time teesukuntundi, normal aa?
- npm install ela run cheyyali?
- npm start ela use cheyyali?
- React project ela run cheyyali Cloud IDE lo?
- Why does it take time to load the coding environment?
- Code playground React JS lo work avvatledu, enduku?
- Cloud IDE vs Code Playground difference emi?
- Node.js project Cloud IDE lo ela run cheyyali?

**ANSWER:** The Cloud IDE is a complete browser-based development environment used specifically for React JS and Node.js activities. Unlike the standard Code Playground — which is used for languages like Python, SQL, and basic JavaScript — React JS and Node.js require a full project environment with dependencies, file structures, and command execution. The Cloud IDE provides exactly that, without you needing to install anything on your device.

**Where you will find it:** The Cloud IDE is available within React JS and Node.js video lectures and coding practices. You will see a Start IDE button instead of the standard code editor.

**How to get started:**

- Step 1: Open the relevant React JS or Node.js session or coding practice.
- Step 2: Click the Start IDE button.
- Step 3: Wait for the environment to initialize — this takes approximately one minute. This is normal and expected.
- Step 4: Once ready, the full development environment will be available.

**Running a React JS project:**

- Once the IDE is initialized, open the terminal and run:
- npm install — installs all required project dependencies
- npm start — starts the development server and launches your application

**Learning resources:** Each React JS and Node.js session includes video lectures, FAQs, and learning resources that explain how to use the Cloud IDE, set up the environment, run common commands, and follow project execution workflows. Refer to these if you get stuck.

**TAGS:** Cloud IDE, React JS, Node.js, Start IDE, npm install, npm start, browser IDE, advanced environment, coding practice, initialization, development environment, no installation, project setup, Code Playground difference

---

## Job Portal

The Jobs section is available in the left navigation menu of the learning portal and becomes accessible once a student meets the required placement eligibility criteria. It serves as the central hub for discovering and managing job opportunities — all from within the portal.

Over 3000+ companies have hired NxtWave learners through this platform. Job listings display key details including role, location, CTC, number of openings, and application deadline.

The Jobs section has four tabs — Open to Apply, Applied, Hiring Done, and Previous Jobs — allowing students to track their entire placement journey in one place.

Different companies have different eligibility requirements, and students can only apply for roles they are eligible for.

---

**QUESTION\_ID:** JP-001

**CANONICAL\_QUESTION:** What is the Jobs section and how do I use it?

**INTENT CATEGORIES:** Jobs portal, job portal, job openings, apply for jobs, placement opportunities, job categories, application tracking, eligibility

**QUESTION\_VARIATIONS:**

- Jobs section portal lo ekkada untundi?
- How do I apply for jobs on the portal?
- Job openings ekkada chudali?
- Portal lo job opportunities ela find cheyyali?
- Jobs tab ela use cheyyali?
- How do I know if I am eligible for a job?
- Job ki apply cheyyatam ela?
- Placement opportunities portal lo untaya?
- Applied jobs ela track cheyyali?

- How do I check my application status?
- Jobs section unlock avvadam ledu, enduku?
- Open to apply jobs ekkada chudali?
- Previous jobs tab enti? Hiring done ante emi?
- Job listings portal lo ekkada untayi?

**ANSWER:** The Jobs section is available in the left navigation menu of your learning portal. It is your central hub for discovering job opportunities and managing your placement journey — all from one place. Over 3000+ companies have hired NxtWave learners through NxtWave.

**The Jobs section has four tabs:**

- **Open to Apply:** Browse all current job openings for which you are eligible and apply directly. Each listing shows the job role, location, CTC, number of openings, and application deadline. The Apply button will be activated if you are eligible.
- **Applied:** View all jobs you have already applied for and track their status.
- **Hiring Done:** Jobs where the hiring process has been completed.
- **Previous Jobs:** Past job listings for reference — useful to see the kind of opportunities that have come through the platform.

**Important:** Each company sets its own eligibility criteria. You will only be able to apply for roles that match your profile and eligibility.

To access the Jobs section, you must have completed the required placement eligibility steps — including submitting the Placement Opt-in Form after completing your curriculum. Once your placement eligibility is activated (within 24 to 48 hours of form submission), the Jobs section will be available to you.

**TAGS:** Jobs portal, job openings, Open to Apply, Applied, Hiring Done, Previous Jobs, Check Eligibility, CTC, placement opportunities, application tracking, eligibility criteria, Placement Opt-in, left navigation, 3000+ companies, job listings, placement journey

---

# Certificates

## Certificates

NxtWave awards two types of certificates: Course Completion Certificates and the IRC (Industry Ready Certificate).

**Course Completion Certificates** are awarded at the end of each course once a student completes all sessions, practice sets, assignments, and course items.

Note:

- For Intensive 2.0 and 3.0 students, the course exam must also be completed.
- For Intensive 1.0 students, there are no course exams, so the certificate is issued upon completing all sessions. The course content is the same across all batches.

Once a course is completed, the certificate is generated within 24 hours. A notification email with the certificate link is sent to the student's registered email ID. Students can also access their certificate directly from the portal via My Journey → select the course → Certification tab.

**Certification Tab Behaviour (My Journey):** The Certification tab shows different content based on how much of the course the student has completed:

- Below 80% completion: The tab prompts the student to complete all course items before the certificate can be issued
- Above 80% completion: Only the remaining pending items are shown, so the student knows exactly what to finish
- Immediately after completing the course: A congratulations message is shown and the certificate is generated within 24 hours
- After certificate generation: The certificate is displayed with options to View, Download, Add to LinkedIn, or Copy the certificate link

**IRC (Industry Ready Certificate)** is awarded upon completing the entire NxtWave Intensive program, after demonstrating skills through coding assignments, assessments, and real-world projects. [eligibility criteria for each program will be discussed in the next section]

Course certificates are issued at the course level, not for individual technologies. For example, the Static Website certificate covers HTML, CSS, and Bootstrap together. Each certificate reflects a comprehensive skill set rather than a single topic.

Note: Regardless of how many times you attempt the course exam, the course completion certificate is issued only once.

### Name on the Certificate

The name that appears on your Course Completion Certificate and Code Challenge Certificate is automatically picked from the name you have entered in your profile on the portal

(<https://learning.ccbp.in/edit-profile>). This is an automated process — whatever name is saved in the portal at the time of certificate generation will appear on the certificate exactly as entered.

For example, if your full name is "Durga Prasad" but you have entered only "Praad" in the portal, the certificate will display "Prasad" and not "Duraga Prasad".

It is important to ensure your full and correctly spelled name is updated in the portal before your certificate is generated. The portal has separate fields for First Name, Surname/Last Name, and a dedicated "Name on your IRC Certificate" field — please ensure all fields are accurately filled in as per your government-issued ID.

If there is a spelling mistake in your certificate, please do not worry — it can be corrected and a revised certificate will be issued to you upon your request.

---

**QUESTION\_ID:** CERT-001

**CANONICAL\_QUESTION:** What types of certificates can I get from NxtWave?

**QUESTION\_VARIATIONS:**

- NxtWave lo enni certificates untayi?
- What certificates will I receive after completing the program?
- How many types of certificates are there?
- Course certificate vs IRC certificate difference enti?
- What is IRC certificate? **ANSWER:** There are 2 types of certificates you can earn through NxtWave:

**1. Course Completion Certificates** — Awarded at the end of each course, once you complete all the sessions, practice sets, assignments, and other course items.

**2. IRC (Industry Ready Certificate)** — Awarded upon completing the full NxtWave Intensive program, after demonstrating skills through coding assignments, assessments, and real-world projects.

**TAGS:** certificates, IRC, course certificate, program completion

---

**QUESTION\_ID:** CERT-002

**CANONICAL\_QUESTION:** How can I get my course completion certificate?

**QUESTION\_VARIATIONS:**

- Certificate ela vasthundi?
- When will I receive my course certificate?

- Course complete chesina certificate vasthunda?
- Where can I find my certificate?
- Certificate not received yet
- Certificate email lo vasthunda?

**ANSWER:** Once you complete all the sessions, practice sets, and assignments in a course, your certificate will be generated within 24 hours. You will receive it via your registered email ID. You can also view, download, and share it directly from the portal.

To find your certificate in the portal:

1. Go to **My Journey** from the left navigation menu
2. Click on the course for which you want to view the certificate
3. In the course panel that opens, navigate to the **Certification** tab (last tab)
4. Your certificate will be available there with options to **View Certificate**, **Add to LinkedIn**, **Download**, or **Copy the certificate link**

To find it in your email, search your registered inbox using the keyword: **"Your course completion certificate"**

Note: Make sure you are searching in your registered email ID, and prefer using a laptop for best results. **TAGS:** course certificate, email, my journey, certification tab, download, LinkedIn

---

**QUESTION\_ID:** CERT-003

**CANONICAL\_QUESTION:** What does the Certification tab show before and after completing a course? **QUESTION\_VARIATIONS:**

- Certification tab lo emi untundi?
- Certificate tab lo pending topics chupistunda?
- I can see pending items in the certification tab
- My certificate is not generated yet, what does the portal show?
- Congratulations message vasindi but certificate ledu

**ANSWER:** The Certification tab in My Journey shows your certificate status based on your course completion progress:

- **Below 80% completion** — The tab shows a message asking you to complete all sessions, practice sets, and assignments in the course before a certificate can be issued.
- **Above 80% completion** — The tab shows only the specific pending items you still need to complete to earn the certificate, making it easier to track what's remaining.

- **Course just completed** — A congratulations message is displayed, and the certificate will be generated within 24 hours. Until then, the portal will show: *"Your certificate will be generated in 24 hours."*
- **Certificate generated** — The certificate is displayed and you can View, Download, Add to LinkedIn, or Copy the certificate link. A confirmation email is also sent to your registered email ID.

**TAGS:** certification tab, my journey, course completion, certificate status, pending topics

---

**QUESTION\_ID:** CERT-004

**CANONICAL\_QUESTION:** What are all the course certificates I can earn based on my job track? **QUESTION\_VARIATIONS:**

- MERN track lo enni certificates untayi?
- Java track certificates list?
- QA track lo which certificates vastai?
- DA track certificates emi untayi?
- Full list of certificates in NxtWave

**ANSWER:** Here is the list of course certificates available for each job track:

**MERN Full Stack:** Build Your Own Static Website, Build Your Own Responsive Website, Introduction to Databases, Programming Foundations with Python, Build Your Own Dynamic Web Application, Developer Foundations, JavaScript Essentials, Responsive Web Design using Flexbox, React JS, Node JS

**Java Full Stack:** Build Your Own Static Website, Build Your Own Responsive Website, Introduction to Databases, Programming Foundations with Python, Build Your Own Dynamic Web Application, Developer Foundations, JavaScript Essentials, Responsive Web Design using Flexbox, Java Fundamentals, React JS, Spring Boot

**QA / Automation Testing:** Build Your Own Static Website, Build Your Own Responsive Website, Introduction to Databases, Java Fundamentals, Automation Testing with Selenium

**Data Analytics:** Build Your Own Static Website, Build Your Own Responsive Website, Introduction to Databases, Data Analytics Foundations, Data Analytics using PowerBI, Data Analytics using Tableau, Data Analytics using Python

**Note for DA & QA students:** If you wish to receive the Programming Foundations with Python certificate, you will need to request to unlock the concepts from Recursions onwards, complete them, and attempt the course exam. The certificate will then be generated automatically.

**TAGS:** certificates, MERN, Java, QA, Data Analytics, job track, course list

---

**QUESTION\_ID:** CERT-005

**CANONICAL\_QUESTION:** Why haven't I received certificates for HTML, CSS, Bootstrap, SQL, or other individual technologies?

**QUESTION\_VARIATIONS:**

- HTML certificate vastunda?
- CSS ki separate certificate untunda?
- SQL certificate ivaru enduku?
- Bootstrap certificate ledu enduku?
- Why is there no certificate for individual topics?
- Technology-wise certificates ivaru aa?

**ANSWER:** NxtWave does not offer certificates for individual technologies or topics. Instead, certificates are awarded for complete courses that cover multiple related skills together. This approach reflects how the industry recognizes skills — through demonstrated proficiency across a full subject area, not isolated topics.

For example: the Static Website certificate covers HTML, CSS, and related technologies; the Responsive Web Design certificate covers Bootstrap, Flexbox, and more; the Introduction to Databases certificate covers SQL and related concepts. The same applies to all other courses.

**TAGS:** certificates, HTML, CSS, SQL, Bootstrap, individual topics, course-level

---

**QUESTION\_ID:** CERT-006

**CANONICAL\_QUESTION:** Is the certificate process different for Intensive 1.0 students compared to 2.0 and 3.0? **QUESTION\_VARIATIONS:**

- Intensive 1.0 students ki certificate ela vastundi?
- 1.0 lo course exam ledu, certificate vasthunda?
- Difference between certificate process for 1.0 and 2.0 students?
- Intensive 2.0 3.0 certificate process ela untundi?

**ANSWER:** Yes, there is a difference based on the batch:

- **Intensive 1.0 students** — There are no course exams. Certificates are issued after completing all the sessions in a course.

- **Intensive 2.0 and 3.0 students** — Course exams are included as part of the course. Certificates are issued after completing all sessions, practice sets, assignments, and the course exam.

Note: The course content is the same across all program versions. For 1.0 students, the course exam section will not be visible in the course. For 2.0 and 3.0 students, the course exam is part of the course and must be completed to receive the certificate.

**TAGS:** certificates, Intensive 1.0, Intensive 2.0, Intensive 3.0, batch-specific, course exam

---

**QUESTION\_ID:** CERT-007

**CANONICAL\_QUESTION:** Will I receive multiple certificates if I attempt the course exam more than once?

**QUESTION\_VARIATIONS:**

- Exam multiple times raasthe multiple certificates vasthayaa?
- Re-attempt chesthe new certificate vasthunda?
- Certificate once only vasthunda or every attempt ki vasthunda?
- I reattempted the exam, will I get another certificate?
- Does retaking the exam issue a new certificate?

**ANSWER:** No. The course completion certificate is issued only once, regardless of how many times you attempt the course exam. Re-attempting the exam helps improve your grade, but it does not generate a new certificate.

**TAGS:** certificates, course exam, re-attempt, one-time, grade improvement

---

**QUESTION\_ID:** CERT-008

**CANONICAL\_QUESTION:** There is a spelling mistake in my course completion certificate or code challenge certificate. What should I do?

**QUESTION\_VARIATIONS:**

- Certificate lo name wrong ga undi
- My name is misspelled on the certificate
- Certificate lo spelling mistake undi, correct cheyyagalara?
- Wrong name on my NxtWave certificate
- Certificate lo incorrect name undi
- Can I get my certificate reissued with the correct name?
- Name update chesthe new certificate vasthunda?

- Certificate need name change cheyyali

**ANSWER:** Please don't worry — we can correct this and reissue your certificate with the right name. Here's what you need to do:

**Step 1 — Update your name in the portal:** Go to <https://learning.ccbp.in/edit-profile> and update your full correct name in the profile in **Name on Your IRC Certificate** field. Make sure the name matches exactly as you want it to appear on the certificate (preferably as per your government-issued ID).

**Step 2 — Take a screenshot:** After updating, take a screenshot of the updated profile page showing the corrected name.

**Step 3 — Confirm the name with us:** Please confirm here — what is the exact name you have updated in the portal? We will verify this before raising the request.

**Step 4 — Share the following details here:**

- Screenshot of the updated profile
- Certificate issue date (the date on which the certificate was originally issued)
- The correct name as updated in the portal
- Course name that needs to be corrected

Once these details are received, our team will process the correction and send you the updated certificate. **TAGS:** certificate, name correction, spelling mistake, profile update, reissue, IRC certificate, course certificate

---

IRC

# Industry-Ready Certificate (IRC)

The Industry-Ready Certificate (IRC) is awarded upon successfully completing the entire NxtWave Intensive program, after demonstrating skills through coding assignments, assessments, and real-world projects. Unlike a regular course completion certificate, the IRC reflects practical industry-readiness — not just program attendance.

NxtWave is an official partner of the **National Skill Development Corporation (NSDC)** under the Ministry of Skill Development & Entrepreneurship, Government of India. The IRC is a **joint certification from NxtWave and NSDC**, making it a recognized credential that signals practical skills to employers.

## IRC Eligibility Criteria by Batch:

### Intensive 1.0:

- Complete all individual courses
- Score at least 75 marks in the Python Course Exam
- Score at least 80% in each unit of the JavaScript Course Exam
- Complete the React Mini Project
- Complete the React Course Exam
- Clear the Mock Interview on Python and React

### Intensive 2.0 & 3.0 — MERN Full Stack:

- Complete all individual courses and receive all course certificates (a course is complete only when all sessions, practices, assignments, and mock tests are done)
- Attempt all course exams and achieve a cumulative grade of at least **7.5/10**
- Complete the React Mini Project with a minimum score of **90%** and pass all plagiarism checks
- Complete Project Verification & Viva

### Intensive 2.0 & 3.0 — Java Full Stack, Data Analytics (DA), Quality Analyst (QA):

- Complete all individual courses and receive all course certificates
- Attempt all course exams and achieve a cumulative grade of at least **7.5/10**
- Complete the Mini Project with a minimum score of **90%** and pass all plagiarism checks
- Complete Project Verification & Viva conducted by mentors

**Note:** Grades are an important factor in IRC eligibility but not the sole criterion. Project performance, project verification, and viva performance are also evaluated.

**How to check IRC eligibility:** Log in to the Learning Portal → My Journey → Industry-Ready Certificate (IRC) → view eligibility criteria and current progress.

**How to request the IRC:** Send an email to support@nxtwave.tech with your UID and registered email ID. Alternatively, I can raise a support ticket on your behalf, please confirm. Once eligibility is verified, the certificate will be issued within **48 working hours** via email from support@nxtwave.tech.

Currently, the IRC certificate is not available to view on the Learning Portal — it is sent only via email.

---

**QUESTION\_ID:** IRC-001

**CANONICAL\_QUESTION:** What is the Industry-Ready Certificate (IRC)?

**QUESTION\_VARIATIONS:**

- IRC ante enti?
- What is IRC in NxtWave?
- Industry Ready Certificate gurinchi cheppandi
- IRC certificate ela vasthundi?
- What does IRC stand for?
- IRC and course certificate difference enti?
- Why is IRC different from a regular certificate?

**ANSWER:** IRC stands for Industry Ready Certificate. It is awarded after you successfully complete the entire NxtWave Intensive program and demonstrate practical skills through coding assignments, assessments, and real-world projects.

Unlike a regular course certificate that confirms program completion, the IRC specifically indicates that you have built practical development skills and are industry-ready.

NxtWave is an official partner of the **NSDC (National Skill Development Corporation)** under the Government of India. The IRC is a **joint certification from NxtWave and NSDC**, which makes it a credible and recognized credential for employers. **TAGS:** IRC, industry ready certificate, NSDC, NxtWave, certification, course certificate difference

---

**QUESTION\_ID:** IRC-002

**CANONICAL\_QUESTION:** What are the eligibility criteria for the IRC?

**QUESTION\_VARIATIONS:**

- IRC ki eligible avvadam ela?

- IRC certificate requirements emi untayi?
- IRC eligibility criteria cheppandi
- MERN IRC criteria enti?
- Java track IRC eligibility enti?
- DA QA IRC criteria emi?
- Intensive 1.0 IRC requirements emi?
- CGPA 7.5 IRC ki mandatory aa?
- Mini project IRC ki compulsory aa?

**ANSWER:** IRC eligibility criteria vary by batch and job track:

**Intensive 1.0:** Complete all courses + score at least 75 in the Python Course Exam + score at least 80% in each unit of the JavaScript Course Exam + complete the React Mini Project + complete the React Course Exam + clear the Mock Interview on Python and React

**Intensive 2.0 & 3.0 — MERN Full Stack:** Complete all courses and receive all certificates + attempt all course exams with a cumulative grade of at least 7.5/10 + complete the React Mini Project with minimum 90% score + pass plagiarism checks + complete Project Verification & Viva

**Intensive 2.0 & 3.0 — Java Full Stack / DA / QA:** Complete all courses and receive all certificates + attempt all course exams with a cumulative grade of at least 7.5/10 + complete the Mini Project with minimum 90% score + pass plagiarism checks + complete Project Verification & Viva conducted by mentors

Note: Grades are important but not the only factor. Project performance, verification, and viva are also evaluated.

**TAGS:** IRC, eligibility, criteria, MERN, Java, DA, QA, Intensive 1.0 2.0 3.0, CGPA, mini project, viva

---

**QUESTION\_ID:** IRC-003

**CANONICAL\_QUESTION:** How can I check my IRC eligibility and progress?

**QUESTION\_VARIATIONS:**

- IRC eligibility ela check cheyyali?
- Where can I see my IRC progress?
- My Journey lo IRC undi aa?
- IRC criteria portal lo chudocha?
- How do I know if I'm eligible for IRC?

**ANSWER:** You can check your IRC eligibility and current progress directly from the Learning Portal:

1. Log in to the Learning Portal
2. Go to **My Journey** from the left navigation menu
3. Locate **Industry-Ready Certificate (IRC)**
4. Click on it to view your eligibility criteria and progress status

**TAGS:** IRC, eligibility check, my journey, learning portal, progress

---

**QUESTION\_ID:** IRC-004

**CANONICAL\_QUESTION:** I think I have completed all IRC requirements. How do I request my IRC certificate? **QUESTION\_VARIATIONS:**

- IRC certificate ela request cheyyali?
- I completed all criteria, when will I get IRC?
- IRC certificate request process enti?
- IRC ke email cheyyali aa?
- IRC certificate vastunadaa check cheyyatam ela?
- All requirements complete chesina, next step enti?

**ANSWER:** If you believe you have completed all the IRC eligibility criteria, here's what to do:

Send an email to **support@nxtwave.tech** requesting for IRC verification and certificate issuance from your **registered email ID**

Alternatively, I can raise a support ticket on your behalf, please confirm.

For **Intensive 3.0 students**, your Success Coach can also help clarify eligibility-related questions and guide you through the process.

**TAGS:** IRC, certificate request, support email, UID, Intensive 3.0, success coach, support ticket

---

**QUESTION\_ID:** IRC-005

**CANONICAL\_QUESTION:** How long will it take to receive my IRC certificate after requesting it?

**QUESTION\_VARIATIONS:**

- IRC certificate enni days lo vasthundi?
- IRC request chestha, entha time lo vasthundi?
- IRC processing time enti?

- 48 hours lo IRC vasthunda?
- IRC email entha time lo vasthundi?

**ANSWER:** Once you submit your request, the support team will verify your eligibility. If all IRC requirements are satisfied, the certificate will be processed and sent to your registered email ID within **48 working hours** of successful verification.

**TAGS:** IRC, processing time, 48 hours, email, verification

---

**QUESTION\_ID:** IRC-006

**CANONICAL\_QUESTION:** Can I view my IRC certificate on the Learning Portal?

**QUESTION\_VARIATIONS:**

- IRC certificate portal lo untunda?
- My Journey lo IRC certificate chudocha?
- IRC certificate portal lo download cheyyocha?
- IRC certificate where to find?

**ANSWER:** Currently, the IRC certificate is **not available to view or download from the Learning Portal**. Once your eligibility is verified, the certificate will be sent directly to your **registered email ID** from support@nxtwave.tech within 48 working hours.

**TAGS:** IRC, portal, download, email, certificate access

---

# Technical Issues

# Technical Issues

The following are common technical errors students encounter on the Learning Portal, along with the standard resolution approach for each.

## **Sorry, You Don't Have Access to Any Program**

This error appears when a student tries to log into the learning portal (learning.ccbp.in) with a mobile number that is not associated with any registered program. When a student logs in with their correct registered mobile number — the one used at the time of payment and enrollment — the system identifies the account and displays the associated program automatically. If the mobile number is not recognised, the portal redirects to accounts.ccbp.in and displays the "Sorry, you don't have access to any program" error. The two most common causes are: the student is entering a different mobile number than the one used for registration, or a previously logged-in account on the same browser is being picked up instead of theirs. Resolution follows a two-step flow — verify mobile number first, then try Incognito mode — before escalating to a support ticket.

Common cross-query pattern: Students reporting this error are almost always logging in with the wrong number or have a cached session from another account. Always check mobile number first before suggesting any technical fix.

## **Blank/White Screen — Portal Not Loading**

When a student reports that the Learning Portal is showing a blank or white screen, the resolution follows two stages.

- First, ask the student to open an Incognito tab (Ctrl+Shift+N), turn off "Block third-party cookies" if shown, and attempt to log in again.
- If this does not resolve the issue, ask the student to clear browsing data in Chrome (Settings → Privacy and Security → Clear Browsing Data → set time range to All Time → enable all options → Clear Data), then go to Cookies and other site data, enable "Allow all cookies", disable remaining options, and reload the page.

The student must also ensure they are using the latest version of Chrome. If unresolved after both stages, collect a screenshot or recording and raise a support ticket.

## **"Temporarily Down" or "Getting Error" Message**

When a student sees a temporarily down message or a general error while accessing the portal or sessions (error: "The webpage at [URL] might be temporarily down or it may have moved permanently to a new address"), ask them to try accessing the portal on a different device (laptop or mobile), and if the problem persists, disconnect from the current network and

reconnect using a different WiFi or mobile hotspot. Ensure Chrome is up to date. If unresolved, collect a screenshot or recording and raise a support ticket.

### **"Register for the Program to Access the Course Content" Error**

When a student encounters a "Please register for the program to access the course content" error while accessing a specific course link, ask the student to share the name of the course they are trying to access and the access link if available. The bot should then check with the team and raise a support ticket to resolve access.

### **Browser Not Supporting — Video Session Error**

When a student encounters a "Your browser doesn't support playing this video. Open in the latest Chrome browser" error while accessing video sessions, ask them to ensure they are using the latest version of Google Chrome and retry. If the issue persists after updating Chrome, collect a screenshot or recording and raise a support ticket.

### **Video Session Buffering or Not Playing**

When a student reports that a video session is buffering or not playing, ask them to clear browsing data in Chrome (Settings → Privacy and Security → Clear Browsing Data → set time range to All Time → enable all options → Clear Data) and reload the page. Ensure they are using the latest version of Chrome. If unresolved, collect a screenshot or recording and raise a support ticket.

### **Page Unresponsive While Writing Code**

When a student reports that the page becomes unresponsive while writing code, inform them that this typically happens due to errors in their code (such as infinite loops). Ask them to review their code line by line to identify the issue. If they are still unable to find it, direct them to post the issue in the **Discussion tab** of the respective session or coding practice — domain experts will respond within 24 hours.

### **Heavy Traffic Error While Publishing Code**

When a student gets a "We are facing heavy traffic on our server" error while trying to submit or publish code, ask them to wait approximately 1 hour and try again. If the problem persists after waiting, collect a screenshot or recording and raise a support ticket.

### **Biometric Face Verification**

The Learning Portal includes a Biometric Face Verification feature to ensure secure and authenticated access. Students are required to enroll their face once and authenticate using face recognition when logging in or accessing the portal.

### **Setup Steps:**

1. Click the lock icon in the browser address bar → go to Permissions → enable Camera
2. Follow on-screen instructions to enroll your face — ensure only your face is visible, no other faces, and lighting is adequate
3. On subsequent logins, click "Authenticate" when prompted, position your face clearly in the frame, and hold the device steady

### Common Errors and Fixes:

- **Multiple faces detected** — Ensure only your face is visible to the camera
- **No face detected** — Move closer and ensure your face is clearly in the frame
- **Face not matched / Access denied** — Contact support; another face may have been accidentally enrolled
- **Reposition your face** — Center your face fully within the frame in a well-lit environment
- **Device in landscape view** — Rotate device to portrait mode (mobile only)
- **Camera permission denied** — Click lock icon in browser → Permissions → enable Camera. For iOS: Settings → find the app → toggle Camera on
- **Incorrect device time** — Go to device Settings → Date & Time → sync to IST. Check current IST at <https://time.is/IST>
- **Connection timeout** — Move closer to the screen when "Move closer" appears, complete the process within the time limit, ensure stable internet and good lighting
- **Something went wrong** — Check internet connection and retry after 1–2 minutes; contact support if issue persists
- **Camera Not Detected:** For camera verification, test your camera at: <https://webcamtests.com/> or <https://www.onlinemictest.com/webcam-test/>

### General Rule for All Technical Issues:

This applies to every technical issue query received. It must be followed strictly before any resolution steps are provided.

Always follow this escalation flow — guide through self-resolution steps first → if unresolved, collect screenshot or recording → raise a support ticket on the student's behalf.

**STEP 1 — CLARIFY BEFORE RESOLVING** Do not jump to a solution immediately. Students often use words that may mean something different from what is understood internally. For example, a student saying "portal not opening" could mean a white screen, a login error, an access error, or a network issue — these all have different resolutions.

If the query is vague or unclear, ask a clarifying question first to identify the exact issue. Examples of clarifying questions: "Can you describe what you are seeing on the screen?" "Are you seeing any specific error message?" "At which step does the issue occur — while logging in, while opening a session, or while submitting code?"

**STEP 2 — REQUEST A SCREENSHOT OR RECORDING** Always ask the student to share a screenshot or screen recording of the issue — even before suggesting a resolution. This helps

confirm the exact error being faced and avoids resolving the wrong problem. Do not skip this step.

**STEP 3 — SUGGEST THE CLOSEST MATCHING RESOLUTION** Once the issue is clearly understood from the student's description and screenshot or recording, match it to the closest known issue and guide through the self-resolution steps.

**STEP 4 — ESCALATE IF UNRESOLVED** If the issue is not resolved after following the self-resolution steps, raise a support ticket on the student's behalf with the screenshot or recording attached.

**ESCALATION FLOW SUMMARY:** Clarify the issue → Request screenshot or recording → Guide through self-resolution steps → If unresolved, raise support ticket

---

**QUESTION\_ID:** TECH-001

**CANONICAL\_QUESTION:** The learning portal is showing a blank or white screen and not opening. What should I do?

**QUESTION\_VARIATIONS:**

- Portal open avvatledu, white screen vasthundi
- Learning portal blank screen chupistundi
- Portal loading avvatledu
- learning.ccbp.in open avvatledu
- Portal white page chupistundi, emi cheyyali?
- Website open kavatledu

**ANSWER:** Please follow these steps in order:

**Step 1 — Try Incognito Mode:**

1. Open an Incognito tab (Ctrl+Shift+N)
2. Turn off "Block third-party cookies" if shown
3. Try logging into the portal again

**If still not resolved — Clear Browser Cache:**

1. Open Chrome → Settings → Privacy and Security → Clear Browsing Data
2. Set time range to **All Time**, enable all options, click **Clear Data**
3. Go to **Cookies and other site data** → select **Allow all cookies** → disable remaining options
4. Reload the page and try again

Make sure you are using the **latest version of Google Chrome**. If the issue persists after both steps, please share a screenshot or recording and I will raise a support ticket on your behalf.

**TAGS:** portal, white screen, blank screen, not loading, incognito, cache, cookies, Chrome

---

**QUESTION\_ID:** TECH-002

**CANONICAL\_QUESTION:** I am seeing a "Temporarily Down" or "Getting Error" message on the portal. What should I do?

**QUESTION\_VARIATIONS:**

- Temporarily down error vasthundi
- Portal error chupistundi
- Website temporarily down message vasthundi
- Portal access avvatledu error vasthundi
- Webpage temporarily down undi

**ANSWER:** Please follow these steps:

1. Try accessing the portal on a **different device** (laptop or mobile)
2. If the problem persists, **disconnect from your current network** and connect to a different WiFi or mobile hotspot
3. Make sure you are using the **latest version of Google Chrome**

If the issue still continues, please share a screenshot or recording and I will raise a support ticket on your behalf.

**TAGS:** temporarily down, error, portal access, network, device, Chrome

---

**QUESTION\_ID:** TECH-003

**CANONICAL\_QUESTION:** I am getting a "heavy traffic" error when trying to submit or publish my code. What should I do?

**QUESTION\_VARIATIONS:**

- Code submit chesthe heavy traffic error vasthundi
- Server error code publish cheyyadam lo vasthundi
- Code run chesthe traffic error vasthundi
- Coding practice submit avvatledu, server error vasthundi

**ANSWER:** This error occurs when our servers are experiencing high load. Please **wait for approximately 1 hour** and try submitting your code again. If the problem still persists after waiting, please share a screenshot or recording and I will raise a support ticket on your behalf.

**TAGS:** heavy traffic, server error, code submit, coding practice, publish

---

**QUESTION\_ID:** TECH-004

**CANONICAL\_QUESTION:** I am getting a "Browser not supporting" error while trying to watch video sessions. What should I do?

**QUESTION\_VARIATIONS:**

- Browser not supporting error vasthundi
- Video play avvatledu, browser error vasthundi
- Session video open avvatledu
- Your browser doesn't support playing this video error
- Chrome update chesthe video play avutunda?

**ANSWER:** This error typically appears when your Chrome browser is outdated. Please ensure you are using the **latest version of Google Chrome** and try playing the session again. If the issue persists after updating Chrome, please share a screenshot or recording and I will raise a support ticket on your behalf.

**TAGS:** browser not supporting, video session, Chrome, update, play error

---

**QUESTION\_ID:** TECH-005

**CANONICAL\_QUESTION:** I am seeing a "Register for the program to access the course content" error. What should I do?

**QUESTION\_VARIATIONS:**

- Register for program error vasthundi
- Course access chesthe registration error vasthundi
- Please register for the program error undi
- Course link open avvatledu, registration error vasthundi

**ANSWER:** Please share the name of the course you are trying to access, and if possible, the access link you are using. I will check with our team to identify why access is restricted and help resolve it — or raise a support ticket on your behalf.

**TAGS:** register for program, course access, error, restricted, support

---

**QUESTION\_ID:** TECH-006

**CANONICAL\_QUESTION:** The page becomes unresponsive when I am writing code. What should I do? **QUESTION\_VARIATIONS:**

- Code likhataniki page unresponsive avutundi
- Coding practice lo page hang avutundi
- Code editor page crash avutundi
- Page not responding while coding

**ANSWER:** Page unresponsive errors often occur due to mistakes in your code causing the browser to overload (e.g., infinite loops). Please review your code **line by line** to identify any errors. If you are unable to find the issue, post your question in the **Discussion tab** of the respective session or coding practice — domain experts will respond within 24 hours.

**TAGS:** page unresponsive, code editor, coding practice, discussion tab, code error, hang

---

**QUESTION\_ID:** TECH-007

**CANONICAL\_QUESTION:** My video session is buffering or not playing. What should I do? **QUESTION\_VARIATIONS:**

- Video session buffer avutundi
- Session play avvatledu
- Video load avvatledu
- Session stuck avutundi
- Video slow ga play avutundi

**ANSWER:** Please follow these steps:

1. Open Chrome → Settings → Privacy and Security → Clear Browsing Data
2. Set time range to **All Time**, enable all options, click **Clear Data**
3. Reload the page and try playing the session again

Make sure you are using the **latest version of Google Chrome**. If the issue persists, please share a screenshot or recording and I will raise a support ticket on your behalf.

**TAGS:** video buffering, session not playing, Chrome, cache, clear data, loading

---

**QUESTION\_ID:** TECH-008

**CANONICAL\_QUESTION:** I am facing face recognition or biometric verification issues on the portal. What should I do?

**QUESTION\_VARIATIONS:**

- Face recognition work avvattedu
- Biometric verification issue vasthundi
- Camera face detect avvattedu
- Face ID issue portal lo vasthundi
- Face not matched error vasthundi
- Face enroll cheyyaledhu
- Face authentication failed

**ANSWER:** Please follow these steps to resolve face recognition issues:

**Step 1:** Test your camera at <https://webcamtests.com/> or <https://www.onlinemictest.com/webcam-test/> to confirm it is working

**Step 2:** Ensure your device is connected to **only one camera** — disconnect any external cameras (built-in camera is preferred)

**Step 3:** Check if any **antivirus software or browser extension** is blocking camera access — disable them if so

**Step 4:** Enable camera permissions in Chrome — click the lock icon in the address bar → Permissions → enable Camera

**For specific errors:**

- **Multiple faces detected** — Ensure only your face is in the camera view
- **No face detected** — Move closer and ensure your face fills the frame clearly
- **Face not matched / Access denied** — Contact support as another face may have been accidentally enrolled
- **Device in landscape** — Rotate your device to portrait mode
- **Incorrect device time** — Update your device time to IST: <https://time.is/IST>
- **Connection timeout** — Move closer to the screen when prompted, complete within the time limit, ensure good lighting and stable internet

Use a **personal laptop/PC** rather than a company device for best results. If the issue persists after all steps, please share a screenshot and I will raise a support ticket.

**TAGS:** face recognition, biometric, camera, face ID, authentication, enroll, error, portrait mode, IST, antivirus

---

**QUESTION\_ID:** TECH-009

**CANONICAL\_QUESTION:** I am facing a system time error during face verification. What should I do? **QUESTION\_VARIATIONS:**

- System time error face recognition lo vasthundi
- Device time wrong ga undi
- System time IST set cheyyatam ela?
- Time zone error biometric lo vasthundi
- Incorrect device time error vasthundi

**ANSWER:** This error means your device's time does not match the network time. To fix it: go to your device **Settings** → **Date & Time** and set it to match **Indian Standard Time (IST)**. It is recommended to set both the time and time zone to **automatic**. You can verify the current IST here: <https://time.is/IST>

**TAGS:** system time, IST, device time, face verification, time zone, biometric

---

**QUESTION\_ID:** TECH-010

**CANONICAL\_QUESTION:** I am facing loading issues during face verification or exam authentication. What should I do?

**QUESTION\_VARIATIONS:**

- Face verification loading issue vasthundi
- Authentication loading avvattedu
- Biometric loading stuck avutundi
- Face ID page load avvattedu

**ANSWER:** Please follow these steps:

1. Test your camera at <https://webcamtests.com/> or <https://www.onlinemictest.com/webcam-test/>
2. Ensure your device is connected to **only one camera** — disconnect external cameras
3. Disable any **antivirus software or browser extensions** that may be blocking camera access
4. Use a **personal laptop/PC** rather than a company device

If the issue persists after following these steps, please share a screenshot or recording and I will raise a support ticket on your behalf.

**TAGS:** loading issue, face verification, biometric, camera, antivirus, authentication

---

**QUESTION\_ID:** TECH-011

**CANONICAL\_QUESTION:** I am seeing a "Sorry, you don't have access to any program" error when trying to log in. What should I do?

**QUESTION\_VARIATIONS:**

- You don't have access to any program error vasthundi
- Portal login chesthe access ledu error vasthundi
- Learning portal lo program kanapadatledu
- Sorry no access error vasthundi portal lo
- Login chesthe program visible avvatledu
- Portal lo program show avvatledu
- Registered number tho login chesthe error vasthundi
- Access to program ledu error enti
- Portal open chesthe program kanapadatledu emi cheyyali
- Login error sorry you don't have access vasthundi

**ANSWER:** This error occurs when you try to log in with a mobile number that is not registered with NxtWave Intensive. The portal only recognises the mobile number you used at the time of registration and payment — any other number will show this error.

1. Verify your mobile number: Make sure you are logging in with the exact mobile number you used at the time of registration and payment. Even a small difference (wrong number, extra digit) will result in this error.
2. Try in Incognito Mode: Open an Incognito tab (Ctrl+Shift+N) and try logging in again with your registered mobile number.

If the issue still persists, please share a screenshot or recording and I will raise a support ticket on your behalf.

**TAGS:** sorry no access, you don't have access to any program, login error, registered mobile number, incognito, accounts.ccbp.in, program not visible, portal access error, wrong mobile number, support ticket

---

## Overview

The Technical Issues section covers common platform-related issues that learners may encounter while using the Learning Portal.

These issues may affect:

- Learning Portal Access
- Curriculum Access
- Daily Schedules
- Learning Sessions
- Assignments
- Coding Practices
- Assessments and Exams
- Progress Tracking
- IRC Eligibility
- Placement Activities
- AI Tutor
- Discussions
- Code Playground
- Face Recognition
- User Profile
- Gamification Features

Purpose:

Provide learners with troubleshooting guidance and help support teams identify, track, and resolve technical issues efficiently.

---

# 1. Learning Portal Access Issues

Learning Portal Access Issues occur when learners are unable to access the platform or use portal features.

- Unable to Login
- OTP Not Received
- OTP Verification Failure
- Portal Not Loading
- Blank Screen After Login
- Loading Screen Stuck
- Website Not Reachable
- Session Timeout Issues
- Account Access Removed
- Access Denied Messages
- Website URL Showing "Not Secure"

- Internal Server Error
- Unauthorized Access Error
- Login Redirect Loop
- Mobile Login Issues

#### **Possible Causes**

- Browser cache issues
- Network connectivity problems
- Incorrect login credentials
- User access restrictions
- Platform outages
- Session expiration
- Browser compatibility issues
- Security certificate warnings
- Multiple login attempts

#### **Resolution**

- Refresh the page.
  - Clear browser cache and cookies.
  - Use Incognito Mode.
  - Try a different browser.
  - Verify registered mobile number.
  - Contact support@nxtwave.tech if access remains unavailable.
- 

## **2. Curriculum Issues**

Curriculum Issues occur when learners are unable to access or view curriculum-related content.

Common Issues:

- Curriculum Not Visible
- Incorrect Curriculum Assigned
- Growth Cycle Not Available
- Day-wise Learning Plan Missing
- Week-wise Learning Plan Missing
- Job Track Not Visible
- Learning Path Not Updated

Possible Causes:

- Curriculum mapping issue
- Enrollment mismatch

- Program assignment issue
- Synchronization delays

Resolution:

- Verify enrolled program.
  - Refresh the portal.
  - Contact support for curriculum validation.
- 

## 3. Schedule Issues

Schedule Issues affect learner access to daily learning activities.

Common Issues:

- Daily Schedule Not Visible
- Blank Schedule Page
- Incorrect Schedule
- Duplicate Sessions
- Missing Sessions
- Schedule Not Updated
- Future Activities Missing
- Learning Tasks Not Appearing

Purpose:

Schedules help learners follow a structured learning plan.

Resolution:

- Refresh the page.
  - Verify assigned curriculum.
  - Contact support if schedule discrepancies continue.
- 

## 4. Session Issues

Session Issues impact access to learning content.

Common Issues:

- Session Not Opening
- Session Loading Slowly

- Video Not Playing
- Session Buffering
- Session Locked
- Duplicate Sessions
- Learning Unit Missing
- Session Progress Not Updating

Resolution:

- Refresh the page.
  - Check internet connectivity.
  - Verify browser compatibility.
  - Reattempt after some time.
  - Contact support if issue persists.
- 

## 5. Completion Tracking Issues

Completion Tracking Issues occur when completed activities are not reflected correctly.

Common Issues:

- Session Not Marked Complete
- Video Completed but Progress Not Updated
- MCQ Completed but Not Reflected
- Coding Practice Completed but Not Reflected
- Assignment Completed but Not Updated
- Growth Cycle Completion Not Reflected
- Completion Percentage Incorrect

Resolution:

- Verify all required activities are completed.
  - Refresh the portal.
  - Allow synchronization time.
  - Contact support if updates do not reflect.
- 

## 6. Assignment Issues

Assignments are used to evaluate learner understanding.

Common Issues:

- Assignment Not Visible
- Assignment Locked
- Assignment Submission Failure
- Assignment Completion Not Reflected
- Assignment Score Not Updated

Resolution:

- Verify assignment submission.
  - Reopen and review assignment status.
  - Contact support for unresolved submission issues.
- 

## 7. Coding Practice Issues

Coding Practice Issues affect learner programming activities.

Common Issues:

- Coding Practice Not Opening
- Coding Practice Locked
- Code Submission Failure
- Incorrect Evaluation Results
- Coding Score Not Updated
- Coding Practice Completion Not Reflected

Resolution:

- Verify successful submission.
  - Refresh the page.
  - Retry coding activity.
  - Contact support for evaluation discrepancies.
- 
- 

## 9. CGPA and Report Issues

CGPA and Report Issues affect academic performance tracking.

Common Issues:

- CGPA Not Updated
- Assessment Reports Missing

- Incorrect Scores Displayed
- Performance Reports Not Loading

Resolution:

- Allow synchronization time.
  - Verify assessment completion.
  - Contact support if discrepancies remain.
- 

## 10. IRC Issues

Industry Ready Certificate (IRC) issues affect certification eligibility.

Common Issues:

- IRC Not Generated
- IRC Not Visible
- IRC Eligibility Issues
- IRC Status Incorrect
- IRC Completion Criteria Not Updated

Resolution:

- Verify curriculum completion requirements.
  - Verify project completion.
  - Contact support for certification review.
- 

## 11. Placement Issues

Placement Issues affect career opportunity access.

Common Issues:

- Jobs Not Visible
- Placement Eligibility Not Updated
- Unable to Apply for Jobs
- Placement Profile Issues
- Missing Placement Opportunities

Resolution:

- Verify placement eligibility.

- Complete required curriculum activities.
  - Contact placement support team.
- 

## 12. Discussion Issues

Discussion functionality allows learners to raise doubts and interact with mentors.

Common Issues:

- Unable to Create Discussion
- Discussion Page Not Loading
- Unable to Reply
- Discussion Submission Failure
- Missing Discussion History

Resolution:

- Refresh the page.
  - Verify internet connection.
  - Contact support if discussions remain inaccessible.
- 

## 13. My Notebook Issues

Notebook functionality helps learners save personal notes.

Common Issues:

- Notes Not Saving
- Notes Missing
- Unable to Create Notes
- Notebook Not Loading

Resolution:

- Refresh the page.
  - Retry saving notes.
  - Contact support if issue persists.
-

## 14. AI Tutor Issues

AI Tutor assists learners during coding practices and learning activities.

Common Issues:

- AI Tutor Not Loading
- Chat Not Responding
- Voice Mode Not Working
- AI Tutor Unavailable
- Slow AI Responses

Resolution:

- Refresh the page.
  - Verify internet connection.
  - Retry after some time.
  - Contact support if issue continues.
- 

## 15. Code Playground Issues

Code Playground provides a browser-based coding environment.

Common Issues:

- Playground Not Loading
- Unable to Run Code
- Unable to Save Snippets
- Unable to Publish Snippets
- Download Function Not Working

Resolution:

- Refresh the page.
  - Verify browser compatibility.
  - Contact support if functionality remains unavailable.
- 

## 16. Face Recognition Issues

Face Recognition is used for identity verification during learning and assessments.

Common Issues:

- Face ID Not Working
- Face Verification Failure
- Camera Permission Denied
- Face Not Detected
- Face Recognition Reset Requests

Resolution:

- Enable camera permissions.
  - Verify adequate lighting.
  - Refresh the browser.
  - Contact support for Face ID reset requests.
- 

## 17. Gamification Issues

Gamification features encourage learner engagement.

Common Issues:

- Daily Goal Not Updating
- Star Points Not Updating
- Rank Not Updating
- Leaderboard Issues
- Streak Issues

Resolution:

- Verify completed activities.
  - Allow synchronization time.
  - Contact support if metrics remain incorrect.
-

# Refund Policy

# Refund Policy

NxtWave offers a refund policy for the CCBP Intensive Program under specific conditions. The refund eligibility and process differ based on the payment model (Prepaid or Postpaid), the time elapsed since payment, and the student's placement outcome.

**Initial Refund Window — Within 7 Days from the Date of Payment:** Both Prepaid and Postpaid students can claim a full refund of the Program Fee / Upfront Fee (including Seat Booking Amount, if applicable) within 7 days from the date of payment. The enrollment date is counted as Day 1. For example, if a student enrolls on June 1st, June 1st is Day 1 and the refund window closes at the end of Day 7. Refund requests on Day 8 or later will not be eligible under this window.

To request a refund within 7 days, the student must send an email from their registered email ID to [payments-support@nxtwave.tech](mailto:payments-support@nxtwave.tech) with payment proof (payment receipt, payment ID, or transaction screenshot).

**After 7 Days — Prepaid Model Only:** Refund may be claimed after 7 days if the student does not receive a job or receives a job with CTC less than ₹4.5 LPA within 8 months of completing the specialization, and has satisfied all Placement Support Terms and Conditions. The refund amount depends on the job offer received: if the CTC is between ₹3 LPA and ₹4.5 LPA, a deduction of ₹50,000 applies; if no job or CTC below ₹3 LPA, a deduction of ₹25,000 applies.

**After 7 Days — Postpaid Model:** No refund is available under the Postpaid Model after the initial 7-day window.

**Intensive Offline Students:** Offline students can claim a full refund within 3 days from the Batch Commencement Date by emailing [payments-support@nxtwave.tech](mailto:payments-support@nxtwave.tech) with payment proof. Post this 3-day period, all payments are strictly non-refundable.

**Refund Processing:** Once a refund request is received with all required information, it is processed within 2–15 working days. A payout link is sent via Razorpay to the student's registered mobile number. The student must log in with their registered mobile number and OTP and provide correct bank account details or UPI ID. The payout link expires in 72 hours. Once the amount is credited (whether to correct or incorrect account), the refund request is considered closed. NxtWave is not liable for amounts credited to incorrect bank/UPI details entered by the student.

**Cancelling a Refund Request:** If a student wishes to cancel their refund request, they must send a written confirmation email to [support@nxtwave.tech](mailto:support@nxtwave.tech) stating: *"I want to cancel my refund because I would like to continue my learning. I also understand that once I cancel my refund, I will not be able to apply for it again."* Once cancelled, the student cannot apply for a refund again.

Complete Terms & Conditions: <https://www.ccbp.in/terms-and-conditions#Intensive-Terms>

**QUESTION\_ID:** REF-001

**CANONICAL\_QUESTION:** What is the refund policy for the NxtWave Intensive Program?

**QUESTION\_VARIATIONS:**

- Refund policy enti?
- Can I get a refund after joining?
- NxtWave refund rules emi?
- Fee refund avutunda?
- Refund eligibility criteria emi?
- Refund policy gurinchi cheppandi
- Can I get my money back?

**ANSWER:** The refund policy for the CCBP Intensive Program is as follows:

**Within 7 days from the date of payment:** Both Prepaid and Postpaid students are eligible for a full refund. Send a request from your registered email ID to [payments-support@nxtwave.tech](mailto:payments-support@nxtwave.tech) with payment proof (receipt/payment ID/transaction screenshot). The date of payment is counted as Day 1.

**After 7 days — Prepaid Model:** You may be eligible for a partial refund if you do not get a job or get a job with CTC less than ₹4.5 LPA within 8 months of completing the specialization, and you have met all Placement Support terms.

**After 7 days — Postpaid Model:** No refund is available.

For complete details: <https://www.ccbp.in/terms-and-conditions#Intensive-Terms>

**TAGS:** refund, policy, prepaid, postpaid, 7 days, fee, money back

---

**QUESTION\_ID:** REF-002

**CANONICAL\_QUESTION:** I want to request a refund. What should I do?

**QUESTION\_VARIATIONS:**

- Refund ela request cheyyali?
- Refund kosam emi cheyyali?
- Refund request process enti?
- Where do I send my refund request?
- Refund mail ela send cheyyali?

- I want my money back, how do I apply?
- Refund ki emi documents kavali?

**ANSWER:** To understand your eligibility, could you let me know when you made the payment or enrolled in the program?

- **If within 7 days of payment:** You are eligible for a full refund. Send an email from your registered email ID to **payments-support@nxtwave.tech** with any one of the following as payment proof: payment receipt, payment ID, or transaction screenshot. Could you share a screenshot confirming when you applied or when the payment was made?
- **If after 7 days:** Refund eligibility depends on your payment model and placement outcome. Please refer to the refund policy for details.

Could you please share the date of your payment or enrollment so I can guide you better?

**TAGS:** refund request, process, payment proof, email, 7 days, enrollment date

---

**QUESTION\_ID:** REF-003

**CANONICAL\_QUESTION:** I applied for a refund. How long will it take to process?

**QUESTION\_VARIATIONS:**

- Refund request chestha, entha time lo vasthundi?
- Refund processing time enti?
- Refund ki enni days pattutundi?
- I haven't received my refund yet
- Refund still not received, what to do?
- Refund request submitted, when will I get the money?

**ANSWER:** Once your refund request is received with all required information, it will be processed within **2–15 working days**.

After processing, a **payout link will be sent via Razorpay** to your registered mobile number. You need to:

1. Log in using your registered mobile number and OTP
2. Enter your correct bank account details or UPI ID
3. Complete the claim before the link expires

**Important:** The payout link expires within **72 hours** of being sent. If you do not claim it within this period, the refund request will be closed and NxtWave will not be liable to reprocess it.

If you have already submitted your request and it has been more than 15 working days with no update, please send a follow-up email to **payments-support@nxtwave.tech**.

**TAGS:** refund processing, timeline, Razorpay, payout link, 72 hours, 2-15 days, bank details

---

**QUESTION\_ID:** REF-004

**CANONICAL\_QUESTION:** I am a Prepaid student and it has been more than 7 days. Am I eligible for a refund?

**QUESTION\_VARIATIONS:**

- 7 days ayipoyindi, refund vasthunda?
- Prepaid model lo 7 days tarvata refund possible aa?
- I missed the 7-day refund window, what can I do?
- Placement ayinaaka refund vasthunda?
- Job raakapothe refund vasthunda?
- CTC 4.5 LPA kante takkuva vasthe refund vasthunda?

**ANSWER:** Under the Prepaid Model, you may still be eligible for a refund after 7 days if the following conditions are met:

- You have completed your specialization within 8 months and didn't receive a job
- You did not receive a job, or received a job with a CTC less than ₹4.5 LPA
- You have satisfied all Placement Support Terms and Conditions

**Refund amount:**

- Job offer with CTC between ₹3 LPA and ₹4.5 LPA → Full refund minus ₹50,000 deduction
- No job or job with CTC below ₹3 LPA → Full refund minus ₹25,000 deduction

To initiate this, send an email from your registered email ID to **payments-support@nxtwave.tech** with your payment proof and relevant details.

**TAGS:** refund, prepaid, after 7 days, placement, CTC, deduction, 8 months

---

**QUESTION\_ID:** REF-005

**CANONICAL\_QUESTION:** I am a Postpaid student. Can I get a refund after 7 days?

**QUESTION\_VARIATIONS:**

- Postpaid model lo refund vasthunda?
- I'm on postpaid, 7 days ayipoyindi, refund possible aa?
- Postpaid refund policy enti?

**ANSWER:** No. Under the Postpaid Model, **no refund is available after the initial 7-day window** from the date of payment. This is as per the CCBP Intensive Program Terms and Conditions. For complete details, refer to:

<https://www.ccbp.in/terms-and-conditions#Intensive-Terms>

**TAGS:** refund, postpaid, after 7 days, no refund

**QUESTION\_ID:** REF-006

**CANONICAL\_QUESTION:** I am an offline student. What is the refund policy for me?

**QUESTION\_VARIATIONS:**

- Offline student refund policy enti?
- Offline batch lo refund vasthunda?
- Offline program refund rules emi?

**ANSWER:** Offline students can claim a full refund of the Program Fee (including Seat Booking Amount) within **3 days from the Batch Commencement Date** (the date on which the first session, including any induction session, is delivered). Send the request from your registered email ID to **payments-support@nxtwave.tech** with payment proof. After the 3-day period, all payments are strictly non-refundable, regardless of reason.

**TAGS:** refund, offline, 3 days, batch commencement, non-refundable

---

**QUESTION\_ID:** REF-007

**CANONICAL\_QUESTION:** I want to cancel my refund request. What should I do?

**QUESTION\_VARIATIONS:**

- Refund cancel cheyyali, ela?
- I changed my mind, I don't want a refund anymore
- Refund request withdraw cheyyocha?
- Refund cancel chesthe again apply cheyyocha?
- I want to continue the program, can I cancel the refund?

**ANSWER:** Yes, you can cancel your refund request. However, please note that **once cancelled, you will not be able to apply for a refund again.**

To cancel, send a written confirmation email from your registered email ID to **support@nxtwave.tech** with the following message:

*"I want to cancel my refund because I would like to continue my learning. I also understand that once I cancel my refund, I will not be able to apply for it again."*

Please make sure you are certain about this decision before sending the email, as it is irreversible.

**TAGS:** refund cancellation, withdraw refund, support email, irreversible, continue learning

---

**QUESTION\_ID:** REF-008

**CANONICAL\_QUESTION:** I entered wrong bank details for my refund. What happens now?

**QUESTION\_VARIATIONS:**

- Wrong bank details enter chesina, refund vasthunda?
- Refund wrong account lo poyindi
- Incorrect UPI ID enter chesina emi avutundi?
- Razorpay lo wrong details ichina?

**ANSWER:** Please be very careful while entering your bank account details or UPI ID in the Razorpay payout link. If incorrect details are submitted, the refund amount will be credited to the wrong account. Once the amount is credited — whether to the correct or incorrect account — NxtWave considers the refund request as closed and is not liable for any loss resulting from incorrect details entered by the student. Always double-check your bank account number, IFSC code, or UPI ID before submitting.

**TAGS:** refund, wrong bank details, UPI, Razorpay, incorrect account, liability

---

**QUESTION\_ID:** REF-009

**CANONICAL\_QUESTION:** The Razorpay payout link I received for my refund has expired. What should I do?

**QUESTION\_VARIATIONS:**

- Refund link expire aipoyindi
- Payout link work avvatledu
- 72 hours lo refund claim cheyyadam forget aipoya, emi cheyyali?
- Refund link expired, new link vasthunda?

**ANSWER:** The Razorpay payout link sent for your refund is valid for **72 hours only**. If the link has expired without being claimed, NxtWave considers the refund request as closed and is not obligated to reprocess it as per the refund terms. For further assistance, please reach out to **payments-support@nxtwave.tech** or [support@nxtwave.tech](mailto:support@nxtwave.tech) or call **+91 7670906042** and explain the situation. I can also raise a support ticket on your behalf if needed.

**TAGS:** refund, payout link, expired, 72 hours, Razorpay, support

---

Student want to transfer the account is it possible ?

Account transfer is permitted only within 7 days of enrollment. If a student wishes to transfer their account due to personal commitments, difficulty continuing the course, a change in plans, or any other valid reason, they must request the transfer within the first 7 days from the enrollment date.

After the 7-day period, account transfers are not permitted. Additionally, since the platform includes face authentication and other account verification measures, transferring an account after this period is not allowed.

Therefore, if a student wants to transfer their account, the request must be made within 7 days of enrollment

# Placements

## SECTION 7: PLACEMENT SUPPORT

### 7.1 Is this a Job Guarantee Program?

**NO. NxtWave Intensive is NOT a job guarantee program.** The program focuses on building skills and providing placement preparation support. Final job offers depend on the student's skills, preparation, and performance in interviews.

### 7.2 What Placement Support is Provided?

- Aptitude and communication training
- Resume preparation
- Mock technical interviews
- Mock HR interviews
- Interview drives with 3000+ hiring partners
- Access to job opportunities matching student profiles
- Continued guidance to improve performance after rejections

### 7.4 Placement Eligibility

- Placement eligibility at NxtWave is not a single fixed milestone — it varies from company to company.
- After completing the **Fundamentals Growth Cycle**, if you have completed the relevant technologies preferred by a particular company, you become eligible to apply for that company's openings. The placement support team will notify you when you are eligible, and the **Apply button** in the Job Portal will be enabled for those roles automatically.
- As you complete more of the program and build a fuller skill set, the number of companies and roles you are eligible for increases. Companies generally prefer candidates with full-stack skills, so completing the entire course maximizes your placement opportunities.
- While early eligibility is possible, many students find it more effective to begin applying after completing most of their training, because by that stage they typically have stronger coding practice, multiple projects to showcase, a finalized resume, and mock interview experience — all of which help them approach interviews with greater confidence.
- In summary: eligibility is dynamic and grows with your progress. The Apply button in the Job Portal will reflect your current eligibility in real time — if it is enabled for a company, you meet their requirements and can apply.

## When a Student Feels They Are Not Getting Enough Opportunities:

- [Note: If a student has completed only Growth Cycle 1 (GC-1/GC-2/GC-3) and feels they are not receiving enough placement opportunities, the system should first cross-verify the student's current progress and then provide context-appropriate guidance.]
- For example, GC-1 covers: Build Your Own Static Website, Build Your Own Responsive Website, Introduction to Databases, and Programming Foundations with Python. At this stage, a student is only eligible for companies that specifically require HTML, CSS, and Python skills — which is a smaller subset of the overall hiring pool.
- Similarly, students who have completed GC-2 or GC-3 are eligible for a progressively larger set of companies, as their demonstrated skill set expands with each growth cycle completed.
- The bot should acknowledge this clearly and empathetically: confirm what has been completed, explain why the opportunities are limited at this stage, and strongly encourage the student to continue and complete the full course.
- Every month, hundreds of companies come to hire NxtWave learners. Students who complete the entire course and demonstrate their skills through offline assessments and mock interviews become eligible for all these companies, maximizing their chances of getting shortlisted. Companies prefer full-stack skilled candidates — completing the full program is what unlocks the majority of placement opportunities and significantly improves the chances of getting placed.
- Students who complete their full course early are in the strongest position to take advantage of placement opportunities.
- [Note: The system's recommendation in this scenario should always be: **focus on completing the course first — your opportunities and chances will improve significantly once you do.**]

### 7.5 Job Acceptance Policy

- When a student clears a selection process for a role through NxtWave's placement system, they are generally expected to accept the offer
- This ensures fair distribution of opportunities across all learners
- Roles are matched to the student's profile before recommending them for interviews

### 7.6 Applying for Jobs Outside NxtWave

- Students CAN apply for jobs on their own during the program at any time
- However, many students prefer to apply after completing most of the training (stronger projects, mock interview experience, resume ready)

---

QUESTION\_ID: PLACE-001

CANONICAL\_QUESTION: Is this a job guarantee program?

QUESTION\_VARIATIONS:

- NxtWave job guarantee ista aa?
- Job guarantee program aa idi?
- Placement guarantee untunda?
- Job guarantee undo ledu?
- Is placement guaranteed after completing the course?
- Course complete chesthe job confirm aa?
- Guaranteed job vasthunda NxtWave lo?

**ANSWER:** No. NxtWave Intensive is not a job guarantee program. Instead, the program focuses on helping you build the skills required for software development roles and supporting you through the placement preparation process. Once you complete the training and become eligible, you will receive placement preparation support such as:

- Resume guidance
- Mock interviews
- Interview preparation sessions
- Opportunities to participate in interview drives with hiring partners

Your success in interviews ultimately depends on your skills, preparation, and performance during the selection process.

**TAGS:** job guarantee, placement guarantee, placement support, interview, program overview

**QUESTION\_ID:** PLACE-002

**CANONICAL\_QUESTION:** How long will I receive placement support?

**QUESTION\_VARIATIONS:**

- Placement support enni months untundi?
- Placement support duration enti?
- How long does NxtWave support me for jobs?
- Placement support period endi varaku untundi?
- Job support enni months istaru?
- Placement help entha time varaku untundi?

**ANSWER:**

[Replace the duration X in the following answer as per student's enrolled program if Online: 16, Offline: 12]

A: Once you complete your chosen job track and become eligible for placements, you will receive structured placement preparation and job support.

This includes:

- Aptitude and communication training
- Resume preparation
- Mock technical and HR interviews
- Opportunities to participate in interview drives with hiring partners

Placement support is generally available for up to X months from the start of the joining date.

During this period, you will continue receiving guidance to help you improve your interview performance and prepare for opportunities. Support may also extend beyond this period depending on your progress and engagement with the program.

Over the years, learners from diverse backgrounds have secured tech roles in 3000+ companies with the support available at NxtWave. You can read learner experiences here: <https://www.ccbp.in/reviews>

**TAGS:** placement support, duration, 16 months, 12 months, online, offline, mock interview, resume

---

**QUESTION\_ID:** PLACE-003

**CANONICAL\_QUESTION:** When will I get placed?

**QUESTION\_VARIATIONS:**

- Placements ennapudu vasthay?
- Job ennapudu vasthundi?
- Placement ki entha time pattutundi?
- Course complete chestha immediately job vasthunda?
- Placed avvadam ki enni months pattutundi?
- When can I expect my first job opportunity?
- Job offer ennapudu vasthundi?
- Nenu eppudu apply chesukovachu?

**ANSWER:** Your placement timeline is directly in your hands. The faster you complete the course, build your skills, and perform well in mock interviews and assessments, the sooner you become eligible and competitive for opportunities. Companies evaluate candidates based on their demonstrated skills, project experience, and interview readiness, so completing the full course maximizes your placement opportunities.

After completing the Fundamentals Growth Cycle, you may start becoming eligible for companies that require those specific skills. As you complete more of the program, the number of companies you are eligible for increases significantly.

Every month, hundreds of companies come to hire NxtWave learners — the more prepared you are, the better your chances of getting shortlisted quickly.

**TAGS:** placement timeline, when placed, job offer, course completion, eligibility, opportunities

---

**QUESTION\_ID:** PLACE-004

**CANONICAL\_QUESTION:** Can I apply for jobs outside NxtWave while doing the course?

**QUESTION\_VARIATIONS:**

- Course chestunappudu outside jobs ki apply cheyyocha?
- NxtWave tho paatu outside apply cheyyocha?
- Can I job hunt on my own during the program?
- Program lo unnapudu self apply cheyyocha?
- Course period lo external jobs ki apply cheyyocha?

**ANSWER:** Yes, you can apply for jobs outside during the program if you wish. However, many learners prefer to start applying after completing most of the training because by that stage they usually have:

- Stronger coding practice
- Multiple projects to showcase
- Resume preparation completed
- Mock interview experience

This often helps them approach interviews with more confidence.

---

**QUESTION\_ID:** PLACE-005

**CANONICAL\_QUESTION:** Is there a limit on the number of jobs I can apply for?

**QUESTION\_VARIATIONS:**

- Enni companies ki apply cheyyochu?
- Job applications ki limit undi aa?
- Multiple companies ki apply cheyyocha?
- Oka company ki select ayina tarvata kuda apply cheyyocha?
- How many job applications can I submit through NxtWave?

**ANSWER:** You can apply to multiple companies through the portal if you are eligible and interested in those opportunities. However, once you have been successfully placed in a company through the program, further placement opportunities will not be provided. This ensures that placement resources are distributed fairly among all learners.

**TAGS:** job applications, limit, multiple companies, placed, fair distribution, placement portal

---

**QUESTION\_ID:** PLACE-006

**CANONICAL\_QUESTION:** Do I have to accept the first job offer I receive?

**QUESTION\_VARIATIONS:**

- First job offer accept cheyyaali aa?
- Job offer decline cheyyocha?
- Offer vasthe reject cheyyocha?
- Am I forced to take the first offer?
- Can I wait for a better offer?
- First offer accept cheyyadam mandatory aa?

**ANSWER:** When you clear the selection process for a role through the placement support system, you are generally expected to accept the offer. This helps ensure that opportunities are distributed fairly among learners and that the placement process continues smoothly for everyone. Before recommending you for interviews, the team works with you to prepare your resume and identify roles that match your skills and readiness — so the opportunities you receive are aligned with your profile.

**TAGS:** job offer, accept offer, decline, first offer, placement process, fairness

---

**QUESTION\_ID:** PLACE-007

**CANONICAL\_QUESTION:** What companies have NxtWave students been placed in?

**QUESTION\_VARIATIONS:**

- NxtWave students ekkada placed ayyaru?
- Which companies hire from NxtWave?
- NxtWave lo place ayyina companies list emi?
- Placement companies examples emi?
- NxtWave through jobs ekkada vastay?
- 3000+ companies list undi aa?
- Past placements companies emi unnai?

**ANSWER:** NxtWave students have secured roles in 3000+ companies including ADP, Capgemini, LTIMindtree, FedEx, IndiaMart, Shopflo, QAD, Fission Labs, Vyapar, and many more. You can read learner experiences and success stories here:

<https://www.ccbp.in/reviews>

**QUESTION\_ID: PLACEMENT-ELIG-001**

**INTENT\_CATEGORY:** General placement eligibility

**CANONICAL\_QUESTION:** What is the eligibility criteria to apply for placements?

**QUESTION\_VARIATIONS:**

- What is the eligibility criteria?
- Eligibility criteria enti?
- Placements ki eligibility emi untundi?
- Placement ki apply cheyyataniki eligibility emi?
- Who can apply for placement opportunities?
- Am I eligible for placements?
- Placements ki qualify avutanaa?
- How do I know if I'm eligible for a company?
- Eligibility ela check cheyali?
- What are the requirements to apply for a job through NxtWave?
- Naku apply button kanapadatledu, ela?
- Why is the apply button not visible for me?
- Apply button enable avvatledu enduku?

**ANSWER:** Eligibility criteria vary from company to company. When you start applying, the **Apply button will be enabled only if you meet that specific company's criteria** — which may include your year of graduation, educational qualifications (percentage/CGPA), and eligible branches. If you don't see the Apply button for a particular company, it means you don't currently meet that company's specific requirements. Keep checking the portal as new companies with different criteria are added regularly.

**TAGS:** placement-eligibility, apply-button, graduation-year, qualifications, company-criteria

**QUESTION\_ID: PLACEMENT-ELIG-002**

**INTENT\_CATEGORY:** Backlog / arrear impact

**CANONICAL\_QUESTION:** Will having backlogs affect my placement opportunities?

**QUESTION\_VARIATIONS:**

- Backlogs unna placements ki problem avuthunda?
- I have backlogs, can I still get placed?
- Active backlogs unna jobs vastaya?
- Backlogs unna apply cheyyocha?
- Do companies allow students with backlogs?

- Naku backlogs unnai, nenu eligible aa placements ki?
- Backlogs affect chestha placement ki?
- Will arrears stop me from getting a job?
- Arrears problem avuthaaya placements ki?
- Can I get a job if I have pending backlogs?
- Backlogs unna NxtWave through placement vastunda?

**ANSWER:** Eligibility criteria vary from company to company. **Some companies may have restrictions on backlogs, while others may not.** Your eligibility to apply depends completely on the specific company's criteria — if you meet them, the Apply button will be enabled for that opportunity. To maximize your access to opportunities, it is always better to clear active backlogs wherever possible. The more criteria you meet, the wider your pool of available companies.

**TAGS:** placement-eligibility, backlogs, arrears, company-criteria

---

#### **QUESTION\_ID: PLACEMENT-ELIG-003**

**INTENT\_CATEGORY:** Study / education gap impact

**CANONICAL\_QUESTION:** Will a gap in my studies affect my placement opportunities?

#### **QUESTION\_VARIATIONS:**

- Gap in studies unna placements ki issue untunda?
- I have a gap year, will that affect placements?
- Gap year unna NxtWave placements istunda?
- Study gap unna jobs vastaya?
- Career gap unna eligible aa?
- Naku gap undi studies lo, issue avuthunda?
- Gap unna company reject chesthunda?
- Does education gap affect job applications through NxtWave?
- Gap in education affect aavuthunda placements ki?
- Graduation lo gap unna placement issue untunda?
- Gap years problem aa companies ki?

**ANSWER:** Eligibility criteria vary from company to company. **Some companies may consider gaps in studies as part of their eligibility criteria, while others may not have this requirement.** Your eligibility for a specific company depends entirely on that company's criteria. If you meet the conditions, the Apply button will be available. To access more opportunities, it is recommended to maintain good academic records where possible.

**TAGS:** placement-eligibility, gap-year, study-gap, company-criteria

---

#### QUESTION\_ID: PLACEMENT-ELIG-004

INTENT\_CATEGORY: Low marks / percentage impact

**CANONICAL\_QUESTION:** Will low academic scores (10th, Intermediate, or Graduation percentage) affect my placements?

#### QUESTION\_VARIATIONS:

- Low scores/inter or graduation marks problem avuthaaya?
- Low marks unna placements vasthaya?
- Naku low percentage undi, eligible aa?
- Marks takkuva unna issue avuthunda?
- Low CGPA unna jobs vastaya?
- Less percentage unna apply cheyyocha?
- Inter marks low unna placements ki problem aa?
- Graduation percentage 60 below unte issue untunda?
- Low academic scores affect placements aa?
- 10th marks low unte company reject chesthunda?
- Percentage problem aavuthunda companies ki?
- Low marks unna NxtWave place chesthunda?
- Academic scores affect chestha placement ki?
- Marks takkuva unte opportunities thaggupotha aa?

**ANSWER:** Eligibility criteria vary from company to company. **Some companies set minimum percentage requirements for 10th, Intermediate, or Graduation, while others do not have such restrictions.** Your eligibility depends entirely on the specific company's criteria. If you meet the conditions, the Apply button in Job Portal will be enabled. To maximize access to opportunities, it is advisable to maintain good academic records and aim for the best possible scores.

**TAGS:** placement-eligibility, low-marks, percentage, CGPA, academic-scores, company-criteria

#### QUESTION\_ID: PLACEMENT-ELIG-005

INTENT\_CATEGORY: Work experience / direct interviews

**CANONICAL\_QUESTION:** Do experienced candidates get direct interview opportunities without going through the regular hiring process?

#### QUESTION\_VARIATIONS:

- Experience unna vallaki direct interviews untaya?
- I have prior work experience, will I get direct interviews?
- Experience unna vallaki special preference untunda?
- Working professional ki different placement process untunda?
- Experienced candidates ki separate track untunda?
- Naku experience undi, nenu direct interview ki veltana?

- Prior experience unna NxtWave different ga treat chesthunda?
- Job experience unte fast placement vastunda?
- Experience unna early placement opportunities vastaya?
- Can experienced candidates skip assessment rounds?
- Work experience unte placement process different aa?

**ANSWER:** For experienced candidates, **direct interview opportunities that bypass the regular hiring process are generally not available.** All candidates go through the standard placement process. However, depending on the company, candidates with prior work experience may receive **some preference during the resume screening stage.** Your experience will be reflected in your resume, which can strengthen your profile during shortlisting.

**TAGS:** placement-eligibility, experienced-candidates, work-experience, direct-interview, resume-screening

---

#### QUESTION\_ID: PLACEMENT-ELIG-006

**INTENT\_CATEGORY:** Assessments mandatory or not

**CANONICAL\_QUESTION:** Are assessments mandatory as part of the placement process?

**QUESTION\_VARIATIONS:**

- Assessments compulsory aa?
- Is it mandatory to give assessments?
- Placement ki assessments attend cheyyaali aa?
- Can I skip the assessment rounds?
- Tests compulsory aa placements lo?
- Assessment rounds avoid cheyyocha?
- Nenu assessment ivvakapothe placement vasthunda?
- Coding tests mandatory aa?
- Hiring tests lekunda placement vasthunda?
- Assessments anni companies ki untaya?
- Company tests complete cheyyaali aa?
- Online tests compulsory aa placements ki?
- Can I get placed without giving coding tests?
- Assessment rounds anni companies ki untaya?
- Aptitude tests mandatory aa?

**ANSWER:** Assessment requirements vary from **company to company.** Some companies include **aptitude tests, coding assessments, or other online tests** as part of their **hiring process**, while others may not. The specific rounds you will need to clear **depend** entirely on that **company's selection process.** Details of any required assessments will be communicated when you are shortlisted for an opportunity.

**TAGS:** placement-assessments, compulsory, coding-test, aptitude-test, hiring-process, selection-rounds

#### QUESTION\_ID: PLACEMENT-ELIG-007

**INTENT\_CATEGORY:** Placement without Degree

**CANONICAL\_QUESTION:** Is a degree mandatory for the placements?

#### QUESTION\_VARIATIONS

- Will I be eligible for all placement opportunities without a degree?
- Are there any companies that specifically require a degree?
- Can I get placed based on my skills even if I don't have a degree?
- Will my package be affected if I do not have a degree?
- Will placement opportunities be limited if I do not have a degree?

**ANSWER:** **Eligibility criteria vary from company to company.** Some companies may require a formal degree as part of their eligibility criteria, while others may evaluate candidates based on demonstrated skills and project experience. Your eligibility for a specific company depends entirely on that company's criteria. If you meet the conditions, the Apply button in the Job Portal will be enabled.

**TAGS:** placement-assessments, compulsory, coding-test, aptitude-test, hiring-process, selection-rounds

---

### Company Updates

**QUESTION\_ID:** PLACE-008

**CANONICAL\_QUESTION:** When will I receive an update on further rounds or interview results?

#### QUESTION\_VARIATIONS:

- Interview result ennapudu vasthundi?
- Company update ennapudu vasthundi?
- Further rounds ki call ennapudu vasthundi?
- Interview ki select ayyano leedo ennapudu telusthundi?
- Company result enni days lo vasthundi?
- Shortlisted ayyano leedo ela telusthundi?

**ANSWER:** Companies typically take up to **14 days** to declare results. In some cases, it may take longer. You will be notified by the company or the placement team if you are

shortlisted for further rounds. While waiting for a result, we recommend you continue applying for other opportunities — keep progressing until your placement is confirmed.

**TAGS:** interview result, company update, shortlist, 14 days, further rounds, placement

---

**QUESTION\_ID:** PLACE-009

**CANONICAL\_QUESTION:** Can I attend an interview just for experience without intending to accept the offer?

**QUESTION\_VARIATIONS:**

- Experience kosam interview attend cheyyocha?
- Interview ki velli offer reject cheyyocha?
- Practice kosam interview attend cheyyocha?
- Offer accept cheyyakunda interview attend cheyyocha?
- Interview experience kosam apply cheyyocha?

**ANSWER:** Please apply to companies only if you are genuinely interested in the role and ready to accept an offer. Once you are selected for a company through NxtWave's placement support, you are expected to accept the offer — and no further placement assistance will be provided after that. If you want to experience how interviews work, you have two options: complete the **Interview Essentials** track and attend **Mock Interviews** available in Placement Preparation Growth Cycle.

**TAGS:** interview experience, mock interview, offer acceptance, placement policy, interview essentials

---

**QUESTION\_ID:** PLACE-010

**CANONICAL\_QUESTION:** I was told I would receive an assessment or interview mail from a company but haven't received anything. What should I do?

**QUESTION\_VARIATIONS:**

- Company mail raaledhu, emi cheyyali?
- Assessment mail raaledhu enduku?
- Interview invite mail raaledhu
- Company email chekka pothunna, emi cheyyali?
- Spam lo mail undi aa?

**ANSWER:** Please check your **Inbox, Spam, and Trash** folders in your registered email ID. If you still cannot find the mail after checking all three folders, please wait for the next update from the placement team. If the issue persists, I can raise a support ticket on your behalf.

**TAGS:** company mail, assessment invite, interview email, spam, inbox, placement team

---

## Placements Initiation

**QUESTION\_ID:** PLACE-011

**CANONICAL\_QUESTION:** What is a Skill Profile and why is it important for placements?

**QUESTION\_VARIATIONS:**

- Skill profile enti?
- Skill profile lo emi untundi?
- Companies skill profile ela use chestay?
- Skill profile placements ki ela help avutundi?
- Skill profile improve cheyyatam ela?
- Companies naa skill profile chustayaa?

**ANSWER:** Your Skill Profile is a comprehensive snapshot of your technical skills, learning progress, and performance — visible to all of NxtWave's hiring partners. Companies use it to filter and shortlist candidates for specific roles. It covers:

- Course Completion %,
- React Projects Completed,
- Performance in Exams,
- Consistency in Learning (number of days learned),
- Performance in Mock Interviews,
- Communication Skills
- Professionalism (sincerity in exams, punctuality in interviews, etc.).

When companies have a requirement, they filter the Skill Profile database and shortlist candidates — so keeping your profile strong across all these areas directly impacts your placement chances.

**TAGS:** skill profile, placements, companies, shortlist, performance, consistency, mock interview

---

**QUESTION\_ID:** PLACE-012

**CANONICAL\_QUESTION:** How can I get jobs with higher packages?

**QUESTION\_VARIATIONS:**

- High salary jobs ela vastay?
- Higher package jobs ki ela eligible avvadam?
- High CTC jobs ki emi cheyyali?

- Product based companies ki ela apply cheyyali?
- Better salary jobs ki skills emi kavali?

**ANSWER:** Product-based companies and startups generally offer higher salary packages for full-stack development roles. To be competitive for these roles, focus on: building a strong foundation in programming fundamentals, mastering frameworks like React, completing your React Mini Project to a high standard, and practicing problem-solving regularly.

You can also complete other courses like Competitive Programming to enhance your problem solving skills.

A strong Skill Profile with good exam performance, project completion, and mock interview scores will increase your chances of being shortlisted for higher-paying roles.

**TAGS:** high package, salary, product based company, startup, React, programming fundamentals, CTC

---

**QUESTION\_ID:** PLACE-013

**CANONICAL\_QUESTION:** I have a notice period at my current job. Will companies consider me after my notice period?

**QUESTION\_VARIATIONS:**

- Notice period unna company consider chestunda?
- Notice period tarvata join cheyyocha?
- Immediate joiner kaakunda placement vasthunda?
- Notice period inform cheyyali aa company ki?
- Current job lo unna placements ki apply cheyyocha?

**ANSWER:** Most companies expect candidates to join immediately or within a short period. Before attending any interview or assessment, inform the placement team and the company about your notice period. This allows the company to plan your joining date accordingly if you are selected. Being upfront about this avoids complications later.

**TAGS:** notice period, immediate joining, relocation, placement, company, joining date

---

**QUESTION\_ID:** PLACE-014

**CANONICAL\_QUESTION:** Is it mandatory to clear the Python IDP exam to get placed?

**QUESTION\_VARIATIONS:**

- Python IDP exam mandatory aa placements ki?
- IDP exam clear cheyyakapotha placement vasthunda?

- Python IDP compulsory aa?
- IDP exam skip cheyyocha?

**ANSWER:** Python IDP is **not mandatory** to get placements. However, it is strongly recommended as it helps improve your problem-solving ability, which is an important factor during technical interviews.

Note: Python IDP exam is applicable only for **Intensive 1.0** students.

**TAGS:** Python IDP, mandatory, placement, Intensive 1.0, problem solving

---

## Placements Preferences

**QUESTION\_ID:** PLACE-015

**CANONICAL\_QUESTION:** How can I become eligible for front-end development jobs?

**QUESTION\_VARIATIONS:**

- Frontend jobs ki eligible avvadam ela?
- Frontend developer job vasthunda?
- Frontend roles ki emi complete cheyyali?
- React complete chesthe frontend job vasthunda?
- HTML CSS React complete chesthe frontend job vasthunda?

**ANSWER:** Complete the front-end development courses, build relevant projects, and ensure your Skill Profile reflects your front-end skills. The opportunities you receive are based on your Skill Profile and company requirements — which include your curriculum coverage, exam performance, mock interview scores, and project completion. To maximize your chances for frontend roles, develop a strong command of React concepts and complete the **React Mini Project** — this significantly strengthens your Skill Profile for frontend opportunities.

**TAGS:** frontend jobs, React, HTML, CSS, Skill Profile, Mini Project, eligibility

---

**QUESTION\_ID:** PLACE-017

**CANONICAL\_QUESTION:** How can I become eligible for Python-related jobs?

**QUESTION\_VARIATIONS:**

- Python jobs ki eligible avvadam ela?
- Python related opportunities vasthayaa?
- Python developer job vasthunda?
- Python skills unna job vasthunda?

**ANSWER:** The opportunities you receive are based on your Skill Profile and company requirements, including the curriculum you have covered, your assessment performance, and mock interview scores. Python has a wide range of applications, so completing Python-related courses opens up various opportunities. Additionally, completing the **React Mini Project** broadens your profile further and improves your overall chances of selection.

**TAGS:** Python jobs, skill profile, opportunities, React project, assessment performance

---

**QUESTION\_ID:** PLACE-018

**CANONICAL\_QUESTION:** Can I get remote jobs through NxtWave placements?

**QUESTION\_VARIATIONS:**

- Remote job vasthunda NxtWave through?
- Work from home opportunity untunda?
- Remote work opportunity NxtWave lo undi aa?
- WFH jobs untaya?
- Relocation mandatory aa?

**ANSWER:** Most companies hiring through NxtWave expect candidates to work from the office. Remote job opportunities exist but are limited — it depends entirely on the company that recruits you. You should be flexible and open to relocating if the company requires it.

**TAGS:** remote job, work from home, WFH, relocation, office, company preference

---

## Terms & Policies

**QUESTION\_ID:** PLACE-019

**CANONICAL\_QUESTION:** If I get a job, can I continue learning on the portal?

**QUESTION\_VARIATIONS:**

- Job vasthe portal access untunda?
- Placed ayina tarvata course continue cheyyocha?
- Job tarvata learning portal use cheyyocha?
- Job vasthe portal expire avutunda?

**ANSWER:** Yes. Even after getting placed, you can continue learning and upgrading your skills on the portal for up to **16 months from the date you registered** for the program.

**TAGS:** portal access, placed, continue learning, 16 months, job

---

**QUESTION\_ID:** PLACE-020

**CANONICAL\_QUESTION:** I registered for the Postpaid model. How much will I have to pay once I get a job?

**QUESTION\_VARIATIONS:**

- Postpaid model lo job vasthe entha pay cheyyali?
- Postpaid payment details emi?
- Job vastha, postpaid amount entha?
- ISA payment ela cheyyali?
- Postpaid model payment process enti?

**ANSWER:** The payment amount depends on your batch and CTC. Our relevant team will contact you in future after you receive a job offer and provide complete details on how much you need to pay and how to make the payment.

**TAGS:** postpaid, payment, CTC, job offer, ISA, batch

---

**QUESTION\_ID:** PLACE-021

**CANONICAL\_QUESTION:** If I get placed through NxtWave, can I still attend future placement drives?

**QUESTION\_VARIATIONS:**

- Placed ayina tarvata future placements ki apply cheyyocha?
- Job vasthe further opportunities untaya?
- Oka company select chesthe another company ki apply cheyyocha?
- Placed ayina tarvata NxtWave placement support untunda?
- First job tarvata more opportunities untaya?

**ANSWER:** No. Once you are placed through NxtWave's placement support, you cannot apply for further placement opportunities through the program. However, you can continue learning and upgrading your skills on the portal for up to **16 months from the date you registered**.

**TAGS:** placed, further placements, placement support, portal access, 16 months, policy

---

## Resume

**QUESTION\_ID:** PLACE-023

**CANONICAL\_QUESTION:** How do I build my resume through NxtWave?

**QUESTION\_VARIATIONS:**

- Resume ela build cheyyali?
- NxtWave resume preparation process enti?
- Resume form ela fill cheyyali?
- Resume NxtWave prepare chestunda aa?
- Resume building sessions endi unnai?
- Resume form submit chestha, emi avutundi?
- Resume registered email lo vasthunda?

**ANSWER:** Follow these steps to build your resume through NxtWave:

1. Watch the **Resume Building sessions** to understand how to create a strong resume: [https://learning.ccbp.in/course?c\\_id=67ea81ab-112c-4ad5-b1de-217460c33766&enroll=true&s\\_id=99397cdd-dda4-4afe-8031-40741045fa25&t\\_id=36b5a8b4-3ff7-4ffb-8c2e-57bfa99d1bdf](https://learning.ccbp.in/course?c_id=67ea81ab-112c-4ad5-b1de-217460c33766&enroll=true&s_id=99397cdd-dda4-4afe-8031-40741045fa25&t_id=36b5a8b4-3ff7-4ffb-8c2e-57bfa99d1bdf)
2. Fill out the resume submission form: <https://forms.ccbp.in/resume-submissions> — NxtWave will prepare your resume and send it to your registered email ID

**Note:**

- If your resume has no remarks, it will be sent directly to your registered email
- If there are remarks, you will receive an email asking you to review and edit
- You can update your resume multiple times by resubmitting the form

**TAGS:** resume, resume building, resume form, placement preparation, registered email, remarks

---

## Mock Interview

**QUESTION\_ID:** PLACE-024

**CANONICAL\_QUESTION:** How can I schedule a mock interview? **QUESTION\_VARIATIONS:**

- Mock interview ela schedule cheyyali?
- Mock interview book cheyyatam ela?
- Mock interview ki access ela vasthundi?
- Mock interview schedule cheyyatam ki eligibility emi?
- When can I book a mock interview?

**ANSWER:** To schedule a mock interview, you first need to attempt all course exams and get access to the placement preparation growth cycle. Once you have access, you can schedule your mock interview based on your availability and the team's availability.

**TAGS:** mock interview, schedule, Python IDP, placement preparation, eligibility, access

---

**QUESTION\_ID:** PLACE-025

**CANONICAL\_QUESTION:** When will I be eligible for a mock interview?

**QUESTION\_VARIATIONS:**

- Mock interview ki eligible ennapudu avutanu?
- Mock interview ki minimum score emi kavali?
- IDP clear chesthe mock interview vasthunda?
- Mock interview access conditions emi?

**ANSWER:** You will be eligible for the mock interview after attempting all the course exams and Placement Preparation Growth Cycle steps. Once eligible, you can schedule your session through the placement preparation module.

**TAGS:** mock interview, eligibility, placement preparation

---

**QUESTION\_ID:** PLACE-026

**CANONICAL\_QUESTION:** How can I check my performance in a mock interview?

**QUESTION\_VARIATIONS:**

- Mock interview performance ela chudali?
- Mock interview feedback endi untundi?
- Mock interview tarvata feedback vasthunda?
- Mock interview score ela check cheyyali?

**ANSWER:** Feedback is provided at the end of every mock interview. You can use this feedback to identify your strengths and areas for improvement, and work on them before your actual interviews.

**TAGS:** mock interview, feedback, performance, improvement, score

---

**QUESTION\_ID:** PLACE-027

**CANONICAL\_QUESTION:** Can I postpone or reschedule my mock interview?

**QUESTION\_VARIATIONS:**

- Mock interview reschedule cheyyocha?
- Mock interview postpone cheyyocha?
- Mock interview date change cheyyatam ela?

- Mock interview cancel cheyyocha?

**ANSWER:** Yes, you can reschedule your mock interview. I can raise a support ticket on your behalf to get this arranged — please let me know your preferred date and time. **TAGS:** mock interview, reschedule, postpone, cancel, support

---

**QUESTION\_ID:** PLACE-028

**CANONICAL\_QUESTION:** Where and when will the mock interview be conducted?

**QUESTION\_VARIATIONS:**

- Mock interview eppudu untundi?
- Mock interview platform edi?
- Mock interview Google Meet lo aa?
- Mock interview online aa offline aa?
- Mock interview ki laptop mandatory aa?

**ANSWER:** Mock interviews are conducted on **Google Meet** on the scheduled date and time. **A laptop or desktop is mandatory** — while attending.

**TAGS:** mock interview, Google Meet, laptop, online, scheduled, platform

---

**QUESTION\_ID:** PLACE-029

**CANONICAL\_QUESTION:** Why are mock interviews important?

**QUESTION\_VARIATIONS:**

- Mock interview importance enti?
- Mock interview ela help avutundi?
- Mock interview attend cheyyaali aa?
- Mock interview skip cheyyocha?
- Real interview ki mock interview ela prepare chestundi?

**ANSWER:** Mock interviews provide real-time interview experience in a structured environment. They help you understand how actual interviews work, identify gaps in your preparation, and improve your communication and technical responses before facing real company interviews. The feedback you receive after each mock interview is personalized and helps you perform better in your next attempt.

**TAGS:** mock interview, importance, real interview, practice, feedback, preparation

---

**QUESTION\_ID:** PLACE-030

**CANONICAL\_QUESTION:** What happens to the IDP exam for students in Intensive 1.0 or those switching to Intensive 2.0?

**QUESTION\_VARIATIONS:**

- IDP exam 2.0 ki switch chesthe emi avutundi?
- Intensive 1.0 lo IDP exam mandatory aa?
- IDP exam switch tarvata valid aa?
- 2.0 ki move chesthe IDP results valid untaya?
- IDP exam importance Intensive 2.0 lo emi?

**ANSWER:** Clearing the Python IDP is not a barrier to entering the interview process for companies coming to NxtWave. However, taking the IDP tests is highly recommended as they are extremely beneficial for self-practice and help you understand your current skill level and areas for improvement. IDP Test problem-solving sessions are also conducted regularly, where the step-by-step process of solving IDP questions is explained — these are valuable for improving problem-solving skills and should not be missed.

**TAGS:** IDP exam, Intensive 1.0, Intensive 2.0, Python IDP, mandatory, problem solving, switch

---

**QUESTION\_ID:** PLACE-031

**CANONICAL\_QUESTION:** If I switch from MERN to DA or QA track, will I still be eligible for MERN-related job opportunities?

**QUESTION\_VARIATIONS:**

- MERN to DA switch chesthe MERN jobs vasthaya?
- Job track switch chesthe previous track opportunities pothaya?
- DA/QA ki move chesthe MERN opportunities untaya?
- Track change chesthe old track jobs vasthaya?
- Switching to QA, MERN jobs ki eligible aa?

**ANSWER:** Yes. If you switch to DA or QA as part of Intensive 2.0, you remain eligible for job opportunities related to the courses you completed in the MERN track, as well as opportunities related to your newly chosen job track. Your eligibility covers both.

**TAGS:** job track switch, MERN, DA, QA, placement eligibility, Intensive 2.0, opportunities

---

Payment/Invite & Earn

## SECTION 9: FEES & PAYMENT

### 9.1 Online Program Fee

- **Fee:** ₹33,000 after scholarship
- **Scholarship:** Up to ₹16,000 savings based on eligibility

### 9.2 Offline / Training Center Fee

- **Fee:** ₹45,000
- **Scholarship:** Up to 80% scholarship available based on performance in the NxtWave Intensive Scholarship Test (NIST)

### 9.3 EMI Options

- EMI available via credit cards
- EMI plans shown during payment process based on bank
- Splits the program fee into smaller monthly instalments
- For EMI help, contact the admissions team

### 9.4 Refund Policy

- Governed by NxtWave Terms & Conditions
- Full details: <https://www.ccbp.in/terms-and-conditions#payments>
- Recommend reviewing before payment

---

#### **Q: What is the fee for the program?**

A: Online — ₹33,000 after scholarship (up to ₹16,000 savings based on eligibility).

Offline — ₹45,000 (up to 80% scholarship available through NIST — NxtWave Intensive Scholarship Test).

---

#### **Q: Is there an EMI option to pay the fee for NxtWave Intensive?**

A: Yes, EMI options are available for payments made using credit cards. You can select the EMI option during the payment process, where available banks and EMI plans will be shown. This allows you to split the program fee into smaller monthly payments instead of paying the full amount upfront. If you need help during the payment process, the admissions team can guide you through the available payment options.

---

## Invite & Earn

NxtWave's **Invite & Earn** program allows enrolled students to refer friends and family to the Intensive Program and earn rewards for every successful enrollment.

The referral portal is accessible directly from the **left navigation menu** in the Learning Portal under **"Invite & Earn"**.

Referral Portal Link: <https://nxtrewards.ccbp.in/invite-and-earn>

Every enrolled NxtWave student is immediately eligible to refer others and start earning rewards. For every successful Intensive referral, the referring student earns **₹3,000** in rewards. Referral rewards are processed after the referred friend enrolls and completes the refund period. A **2% TDS deduction** applies on the reward amount.

#### **How the referral works:**

1. Copy your unique referral link from the Invite & Earn portal
2. Share it with anyone you want to refer
3. Guide them to fill out the demo registration form using your link
4. Once they enroll, claim your rewards

It is mandatory for the referred person to register using your unique invite link/code for the referral to be counted. If they register without your link, the referral cannot be claimed.

**Benefits for the referred friend:** Instant scholarship worth ₹16,000, 1:1 mentorship with success coaches, access to 3000+ companies via the placement portal, and direct access to offline placement drives.

The Invite & Earn program also covers other NxtWave programs (Academy, NIAT) — the program can be changed at the top of the referral portal page to view those details.

For complete terms and conditions including deduction details:

<https://www.ccbp.in/intensive-invite-earn-tc>

---

**QUESTION\_ID:** REF-EARN-001

**CANONICAL\_QUESTION:** How can I refer my friends or family to NxtWave and earn rewards?

**QUESTION\_VARIATIONS:**

- Friends ni NxtWave lo join cheyyinchatam ela?
- Referral program ela work avutundi?
- Invite and earn ela use cheyyali?
- Friend refer chesthe reward vasthunda?
- NxtWave referral link ela share cheyyali?
- How to invite someone to NxtWave Intensive?
- Referral reward ela earn cheyyali?

**ANSWER:** You can refer your friends and family through the **Invite & Earn** portal. Here's how:

1. Visit <https://nxtrewards.ccbp.in/invite-and-earn> or click **Invite & Earn** from the left navigation menu in the Learning Portal
2. Copy your unique referral link
3. Share it with anyone you want to refer
4. Guide them to fill out the demo registration form using your link
5. Once they enroll and complete the refund period, your reward of **₹3,000** will be processed

**Important:** Your friend must register using your unique link/invite code. If they register without it, the referral will not be counted and you won't be able to claim the reward.

**TAGS:** referral, invite and earn, reward, unique link, friend, family, enrollment

---

**QUESTION\_ID:** REF-EARN-002

**CANONICAL\_QUESTION:** Am I eligible to refer someone to NxtWave?

**QUESTION\_VARIATIONS:**

- Referral cheyyatam ki eligible aa?
- When can I start referring?
- Nenu refer cheyyocha?
- All students refer cheyyocha aa?

**ANSWER:** Yes! As an enrolled NxtWave student, you are immediately eligible to refer others and start earning rewards. There is no waiting period — you can begin referring from Day 1 of your enrollment. **TAGS:** referral eligibility, invite and earn, enrolled student

---

**QUESTION\_ID:** REF-EARN-003

**CANONICAL\_QUESTION:** Who should I refer to the NxtWave Intensive Program?

**QUESTION\_VARIATIONS:**

- Yevvarni refer cheyyali?
- Who is the right person to refer to NxtWave?
- What kind of people can I refer?
- Friends ki NxtWave suggest cheyyatam ela?

**ANSWER:** You can refer anyone who is:

- Looking to start a career in the tech industry
- Seeking a high-paying software job
- Aiming to upskill in their current role

- Considering a career switch to tech

Your referred friend also benefits — they receive an instant scholarship worth ₹16,000, 1:1 mentorship with top success coaches, access to 3000+ companies from the placement portal, and direct access to offline placement drives.

**TAGS:** referral, who to refer, target audience, scholarship, benefits

---

**QUESTION\_ID:** REF-EARN-004

**CANONICAL\_QUESTION:** When will I receive my referral reward?

**QUESTION\_VARIATIONS:**

- Referral reward entha time lo vasthundi?
- Reward credit avvadam ki enni days pattutundi?
- Friend enroll ayyadu, reward eppudu vasthundi?
- Referral amount credit avutunadaa?
- Reward processing time enti?

**ANSWER:** Referral rewards are processed after your referred friend **enrolls** and **completes the refund period**. Once both conditions are met, your reward will be credited. Please note that a **2% TDS deduction** will apply on the reward amount. For detailed information on timelines and deductions, refer to the terms and conditions: <https://www.ccbp.in/intensive-invite-earn-tc>

**TAGS:** referral reward, processing time, refund period, TDS, terms and conditions

---

**QUESTION\_ID:** REF-EARN-005

**CANONICAL\_QUESTION:** My referral registered without using my unique link. Can I still claim the reward?

**QUESTION\_VARIATIONS:**

- Friend mere link use cheyyadam forget aipoyadu, reward vasthunda?
- Referral link use cheyyadam ledu, claim cheyyocha?
- Friend registered without invite code, emi cheyyali?
- Unique code use cheyyadam ledu, reward ela claim cheyyali?

**ANSWER:** Unfortunately, it is **mandatory** for your friend to register using your unique invite link or code for the referral to be counted. If they registered without your link, the referral cannot be claimed. Please make sure to share your unique link before your friend registers, so the referral is properly tracked.

**TAGS:** referral, unique link, invite code, mandatory, claim

---

**QUESTION\_ID:** REF-EARN-006

**CANONICAL\_QUESTION:** I made a referral but the reward hasn't been credited. Why?

**QUESTION\_VARIATIONS:**

- Referral chesina, reward raaledhu enduku?
- Reward credit avvaledhu, emi cheyyali?
- Referral reward pending ga undi
- I haven't received my referral amount
- Friend enroll ayyadu but reward raaledhu
- Referral amount issue undi

**ANSWER:** There are a few common reasons why a referral reward may not have been credited:

1. **Your friend has not yet enrolled** — the reward is only processed after enrollment
2. **Your friend requested a refund** within their refund period — rewards are processed only after the refund window closes
3. **Your bank details are not verified** in the portal — please check and update them
4. **You haven't redeemed the reward amount** — please check the Invite & Earn portal for any pending redemption steps

Please check each of these on the portal: <https://nxtrewards.ccbp.in/invite-and-earn>

If none of these apply to your situation, I will raise a support ticket on your behalf. Could you please confirm which of the above has been checked?

**TAGS:** referral reward, not credited, pending, bank details, redemption, support ticket

---

**QUESTION\_ID:** REF-EARN-007

**CANONICAL\_QUESTION:** How do I claim my referral reward amount?

**QUESTION\_VARIATIONS:**

- Referral reward ela claim cheyyali?
- Reward redeem cheyyatam ela?
- Referral amount withdraw cheyyatam ela?
- Invite and earn portal lo reward claim cheyyadam ela?
- Reward amount bank lo ela vesukovali?

**ANSWER:** To claim your referral reward, visit the Invite & Earn portal:

<https://nxtrewards.ccbp.in/invite-and-earn>

From the portal, you can check your reward status and follow the redemption steps. Please ensure your bank details are verified in the portal before attempting to claim. If you face any issues during the claim process, I can raise a support ticket on your behalf.

**TAGS:** referral, claim reward, redeem, bank details, invite and earn portal

---

**QUESTION\_ID:** REF-EARN-008

**CANONICAL\_QUESTION:** Will there be any deductions in my referral reward amount?

**QUESTION\_VARIATIONS:**

- Reward amount lo deductions untaya?
- TDS deduction referral reward ki applicable aa?
- Full 3000 vasthunda or deductions untaya?
- Referral reward tax deduction enti?

**ANSWER:** Yes, a **2% TDS deduction** will be applied on your referral reward amount. To understand how to minimize deductions and for complete terms, please refer to:

<https://www.ccbp.in/intensive-invite-earn-tc>

**TAGS:** referral, TDS, deduction, reward amount, terms and conditions

---

**QUESTION\_ID:** REF-EARN-009

**CANONICAL\_QUESTION:** Can I refer someone to NxtWave Academy or NIAT programs as well? **QUESTION\_VARIATIONS:**

- Academy program referral cheyyocha?
- NIAT referral program undi aa?
- Other NxtWave programs ki kuda referral vasthunda?
- Intensive kaadu, other programs ki refer cheyyocha?

**ANSWER:** Yes! The Invite & Earn program covers other NxtWave programs including Academy and NIAT. Visit the referral portal at <https://nxtrewards.ccbp.in/invite-and-earn> and use the **program selector at the top of the page** to switch between Intensive, Academy, and NIAT to view the referral details for each program.

# General

## 8. General

### Success Coach

Every NxtWave Intensive 3.0 student is assigned a dedicated Success Coach to guide them throughout the program. The Success Coach is your go-to point of contact for non-subject-related queries, general guidance, platform-related questions, schedule doubts, certificate queries, and placement-related concerns.

**How to find your Success Coach:** Go to the Learning Portal → click on your **Profile** (bottom-right corner) → select **My Success Coach** to view your coach's contact details.

**Available hours:** 10:00 AM – 8:00 PM (Monday to Saturday)

#### Support based on batch:

- **Intensive 3.0 students** can directly call their assigned Success Coach for any queries
- **Intensive 1.0 & 2.0 students** can reach out via chat support and a ticket will be raised on their behalf

#### When to contact your Success Coach:

- General guidance about the program
- Learning platform usage and navigation
- Non-subject-related doubts
- Schedule-related queries
- Certificate-related queries
- Placement-related doubts and guidance

---

**QUESTION\_ID:** SC-001

**CANONICAL\_QUESTION:** How can I talk to or get support from a Success Coach?

#### **QUESTION\_VARIATIONS:**

- Success coach tho ela matladadam?
- I want to speak to an agent
- Can I get a callback from NxtWave?
- How do I contact my success coach?
- Support agent tho matladadam ela?
- I need human support, not a bot
- Can I talk to someone from NxtWave?
- Success coach number enti?
- I want to speak to a real person

- NxtWave support contact ela cheyyali?

**ANSWER:** Here's how you can reach your Success Coach based on your batch:

**Intensive 3.0:** You can directly call your assigned Success Coach. To find their contact details, go to the Learning Portal → click on your **Profile icon** (bottom-right corner) → select **My Success Coach**.

**Intensive 1.0 & 2.0:** I will raise a support ticket on your behalf and the team will get back to you.

**Available hours:** 10:00 AM – 8:00 PM (Monday to Saturday)

Could you let me know which program version (Intensive 1.0/2.0/3.0) you are in so I can assist you better?

**TAGS:** success coach, callback, support, contact, Intensive 1.0 2.0 3.0, agent, human support

---

**QUESTION\_ID:** SC-002

**CANONICAL\_QUESTION:** Where can I find my Success Coach's contact details?

**QUESTION\_VARIATIONS:**

- Success coach details portal lo ela chudali?
- My success coach contact number endi?
- Success coach information ela find cheyyali?
- Portal lo success coach endi untundi?
- How to find my coach's number in the portal?

**ANSWER:** You can find your Success Coach's details directly in the Learning Portal:

1. Go to the Learning Portal (<https://learning.ccbp.in/>)
2. Click on your **Profile icon** at the bottom-right corner of the page
3. Select **My Success Coach**

Your coach's contact details will be displayed there.

**Available hours:** 10:00 AM – 8:00 PM (Monday to Saturday)

**TAGS:** success coach, contact details, portal, profile, find coach

---

**QUESTION\_ID:** SC-003

**CANONICAL\_QUESTION:** What kind of queries can I contact my Success Coach for?

**QUESTION\_VARIATIONS:**

- Success coach ki emi doubts ask cheyyochu?
- Success coach ki ela queries cheyyochu?
- What topics can I discuss with my success coach?
- When should I contact my success coach?
- Success coach ki subject doubts cheyyocha?

**ANSWER:** Your Success Coach is available to help with the following:

- **General guidance** about the program
- **Learning platform usage** and navigation
- **Non-subject-related doubts** (for subject/coding doubts, use the Discussion tab in the portal)
- **Schedule-related queries**
- **Certificate-related queries**
- **Placement-related doubts** and guidance

Please note that subject-specific or coding-related doubts should be posted in the **Discussion tab** of the respective session, where domain experts will respond within 24 hours. Or you can join Live Sessions to get them clarified.

**Available hours:** 10:00 AM – 8:00 PM (Monday to Saturday)

**TAGS:** success coach, queries, guidance, platform, schedule, certificate, placement, subject doubts

---

## Teaching assistant

The Teaching Assistant (TA) Program is a community initiative by NxtWave that allows current and past students to become mentors for fellow CCBPians by resolving their doubts on the discussion forum. It is designed to improve problem-solving, debugging, and communication skills while also enhancing a student's professional profile.

TAs are required to resolve approximately 3 doubts per day on the discussion forum, which takes around 20–30 minutes daily. The program is flexible — TAs can take breaks when needed and make up for it later.

**How to join:** Visit <https://portal.ccbp.in/teaching-assistant> and click "**Become a TA**" to access the assessment. The assessment is MCQ-based, testing how well you can respond to a student's doubt — no audio/video interviews are conducted. The assessment covers debugging, problem-solving, and doubt clarification skills.

**Benefits of being a TA:**

- Personalised interview support during placement
  - Improved problem-solving and debugging skills
  - Teaching Assistant Fellowship credential for your resume
  - Increased visibility to recruiters and HRs
  - Access to a library of training resources and the mentor dashboard
- 

**QUESTION\_ID:** TA-001**CANONICAL\_QUESTION:** What is the Teaching Assistant Program and how can I get details about it?**QUESTION\_VARIATIONS:**

- Teaching Assistant program enti?
- TA program gurinchi cheppandi
- NxtWave TA community ela join cheyyali?
- Teaching assistant ki apply cheyyocha?
- TA program details endi chudali?

**ANSWER:** The Teaching Assistant (TA) Program allows current and past NxtWave students to become mentors for their fellow CCBPians by resolving doubts on the discussion forum. It helps improve your problem-solving, debugging, and communication skills while also strengthening your resume and placement profile. You can find all the details and apply at:

<https://portal.ccbp.in/teaching-assistant>

**TAGS:** Teaching Assistant, TA program, community, mentor, doubt resolution, CCBPian

---

**QUESTION\_ID:** TA-002**CANONICAL\_QUESTION:** How can I apply to become a Teaching Assistant?**QUESTION\_VARIATIONS:**

- TA ki apply cheyyatam ela?
- Teaching assistant application process enti?
- Become a TA button endi untundi?
- TA assessment ela attempt cheyyali?
- Teaching assistant ki eligible avvadam ela?

**ANSWER:** To apply, visit <https://portal.ccbp.in/teaching-assistant> and click "**Become a TA**". You will be redirected to the assessment links. Complete the assessments in order to become eligible. You must be a current or past NxtWave student to apply.

**TAGS:** Teaching Assistant, apply, Become a TA, assessment, eligibility

---

**QUESTION\_ID:** TA-003

**CANONICAL\_QUESTION:** What is the TA assessment like? Will there be any interviews?

**QUESTION\_VARIATIONS:**

- TA assessment ela untundi?
- Teaching assistant test emi chestundi?
- TA ki interview untunda?
- Assessment MCQ aa?
- TA selection process enti?

**ANSWER:** The TA assessment is **MCQ-based** and tests how well you can respond to a student's doubt. It evaluates your debugging, problem-solving, and doubt clarification skills. There are **no audio or video interviews** — the selection is entirely based on the assessment performance.

**TAGS:** TA assessment, MCQ, no interview, selection process, debugging, problem solving

---

**QUESTION\_ID:** TA-004

**CANONICAL\_QUESTION:** How much time do I need to spend daily as a Teaching Assistant?

**QUESTION\_VARIATIONS:**

- TA ki daily entha time ivvali?
- Teaching assistant time commitment enti?
- TA ga enni doubts solve cheyyali?
- Daily 30 minutes enough aa TA ki?
- TA responsibilities emi untayi?

**ANSWER:** As a Teaching Assistant, you are expected to resolve approximately **3 doubts per day** on the discussion forum, which takes around **20–30 minutes daily**. The program is flexible — if you cannot mentor on some days, you can take a break and cover it when you return.

**TAGS:** Teaching Assistant, time commitment, 30 minutes, 3 doubts, daily, flexible

---

**QUESTION\_ID:** TA-005

**CANONICAL\_QUESTION:** What are the benefits of becoming a Teaching Assistant?

**QUESTION\_VARIATIONS:**

- TA avvadam valla em fayida?
- Teaching assistant benefits emi unnai?
- TA ga join ayithe resume ki help avutunda?
- TA program career ki ela help avutundi?
- Recruiters ki TA fellowship important aa?

**ANSWER:** Being a Teaching Assistant offers several valuable benefits:

- **Personalised interview support** during your placement phase
- **Improved problem-solving, debugging, and attention-to-detail skills** through daily doubt resolution
- **Teaching Assistant Fellowship** credential to strengthen your resume
- **Increased visibility** to recruiters and HRs — helping you stand out from other candidates
- Access to a **training resource library** and the mentor dashboard
- Engaging learning activities as part of the TA community

**TAGS:** Teaching Assistant, benefits, resume, fellowship, placement, recruiters, problem solving

# Profile Details

## 6. Profile Details

Students can manage their profile information at <https://learning.ccbp.in/edit-profile>. The profile includes personal details, contact information, education details, skills, and work experience. Keeping this information accurate and up to date is important as recruiters have access to student profiles during placement evaluations. The name entered in the profile also appears on course completion certificates.

### Other

**QUESTION\_ID:** PRF-001

**CANONICAL\_QUESTION:** I am unable to upload a profile picture. What should I do?

**QUESTION\_VARIATIONS:**

- Profile photo upload avvattledu
- Image upload cheyyatam ela profile lo?
- Profile picture update cheyyaledhu
- Photo format issue undi profile lo

**ANSWER:** Please check the format and size of the image you are trying to upload. The supported formats are **PNG or JPG**, and the file size should be **up to 10 MB**. If your image meets these requirements and you are still facing issues, I can raise a support ticket on your behalf.

**TAGS:** profile, image upload, photo, PNG, JPG, file size, format

**QUESTION\_ID:** PRF-002

**CANONICAL\_QUESTION:** I entered incorrect details in my profile. How do I update them?

**QUESTION\_VARIATIONS:**

- Profile lo wrong details ichanu, ela correct cheyyali?
- Profile update cheyyatam ela?
- Profile details change cheyyocha?
- Incorrect information profile lo undi

**ANSWER:** You can update your profile details at any time by visiting: <https://learning.ccbp.in/edit-profile>. Make the necessary corrections and save the changes. Please ensure all details are accurate as recruiters review your profile during placement evaluations.

**TAGS:** profile, update, incorrect details, edit profile

---

## Contact Details

**QUESTION\_ID:** PRF-003

**CANONICAL\_QUESTION:** How can I change my registered mobile number?

**QUESTION\_VARIATIONS:**

- Registered phone number change cheyyatam ela?
- Mobile number update cheyyocha?
- Phone number portal lo ela update cheyyali?
- Registered number change cheskovacha?

**ANSWER:** You can update your registered phone number by visiting: <https://accounts.ccbp.in/profile/phonenumber/update>. You can also navigate to your profile in the portal and click the update option beside the phone number field.

**Important:** After updating your phone number, you will not be able to change it again for the next **6 months**.

**TAGS:** phone number, mobile number, update, registered number, 6 months

---

**QUESTION\_ID:** PRF-004

**CANONICAL\_QUESTION:** How can I change my registered email ID?

**QUESTION\_VARIATIONS:**

- Email ID change cheyyatam ela?
- Registered email update cheyyocha?
- Email portal lo ela change cheyyali?
- Email address wrong ga undi, update cheyyali

**ANSWER:** You can update your registered email ID by visiting: <https://accounts.ccbp.in/profile/email/update>. You can also navigate to your profile in the portal and click the update option beside the email field.

**TAGS:** email, email ID, update, registered email, change

---

## Education Details

**QUESTION\_ID:** PRF-005

**CANONICAL\_QUESTION:** I am currently a 3rd year B.Tech student. What should I fill in the CGPA field? **QUESTION\_VARIATIONS:**

- 3rd year student, CGPA ela fill cheyyali?
- Incomplete degree lo CGPA emi ichali?
- Current CGPA ela calculate cheyyali profile ki?
- Still studying, CGPA emi fill cheyyali?

**ANSWER:** Fill in the CGPA calculated for the semesters you have completed so far. You do not need to wait until graduation to fill this field.

**TAGS:** profile, CGPA, 3rd year, education details, B.Tech, current CGPA

---

**QUESTION\_ID:** PRF-006

**CANONICAL\_QUESTION:** My college name or specialization is not listed in the profile form. What should I do?

**QUESTION\_VARIATIONS:**

- College name list lo ledi, ela fill cheyyali?
- Specialization dropdown lo ledi
- My branch not found in the list
- College not available in dropdown, what to do?

**ANSWER:** If your college name or specialization is not available in the dropdown list, select the "Other" option from the dropdown. This will allow you to manually type in your college name or specialization. **TAGS:** profile, college name, specialization, dropdown, Other option, education details

---

**QUESTION\_ID:** PRF-007

**CANONICAL\_QUESTION:** Where can I update my backlog status?

**QUESTION\_VARIATIONS:**

- Backlogs update cheyyatam ela?
- Backlog status profile lo ela change cheyyali?
- Backlogs cleared, profile update cheyyocha?

- Backlog status skill profile lo show avutunda?

**ANSWER:** You can update your backlog status in the Profile section here: <https://learning.ccbp.in/edit-profile>. Once updated, the change will be reflected in your Skill Profile and will be visible to our hiring partners (companies) during shortlisting.

The screenshot shows the 'Education Details' section of a profile. On the left, a sidebar lists '10th Standard', 'Intermediate/12th/Diploma', and 'Bachelor's Degree'. The 'Bachelor's Degree' section is expanded, showing fields for 'Bachelor's Degree' (with a dropdown menu), 'Department/Branch' (with a dropdown menu), 'Percentage' (with a text input field containing '85'), and 'Start Year' (with a date picker set to '2014'). The 'Degree Status' dropdown is highlighted with a red box and an arrow, showing the option 'Have backlogs. Will clear them soon'.

**TAGS:** backlogs, profile update, skill profile, edit profile, hiring partners

**QUESTION\_ID:** PRF-008

**CANONICAL\_QUESTION:** I have active backlogs. What should I fill in the End Year field of Education Information?

**QUESTION\_VARIATIONS:**

- Backlogs unnai, end year emi fill cheyyali?
- Active backlogs tho graduation year ela fill cheyyali?
- Expected graduation year backlogs tho emi ichali?

**ANSWER:** Fill in the **expected year of graduation** — the year by which you expect to clear all your active backlogs and complete your degree.

**TAGS:** profile, backlogs, end year, education, graduation year, expected year

**QUESTION\_ID:** PRF-009

**CANONICAL\_QUESTION:** I graduated in one year but cleared my backlogs in a later year. Which year should I mention as my graduation year in my resume?

**QUESTION\_VARIATIONS:**

- Backlogs clear chesina year graduation year aa?

- Resume lo graduation year emi pettali backlogs unna?
- 2019 lo graduated but 2021 lo backlogs clear chesanu, which year?
- Year of passing emi pettali resume lo?
- Backlogs tarvata clear chesthe graduation year change avutunda?
- Which year is considered as passing year if I had backlogs?
- Arrears clear chesina year resume lo pettali aa?

**ANSWER:** The year in which you clear all your backlogs is considered your official year of graduation/passing. For example, if you completed your degree in 2019 but cleared all backlogs in 2021, then **2021** should be mentioned as your year of graduation in your resume and profile.

**TAGS:** graduation year, backlogs, resume, year of passing, arrears, profile

---

## Skills/Work Experience

**QUESTION\_ID:** PRF-010

**CANONICAL\_QUESTION:** How do I update the Work Experience section in my profile?

**QUESTION\_VARIATIONS:**

- Work experience profile lo ela add cheyyali?
- Internship details profile lo ela fill cheyyali?
- Work experience update cheyyatam ela?
- No work experience, profile lo emi fill cheyyali?

**ANSWER:** Go to your profile at <https://learning.ccbp.in/edit-profile>. In the **Basic Details** section under **Current Expertise**, you will find the field: *"Do you have any Internship or Work Experience?"*

- If you **do not have** any work or internship experience, select **"No"**
- If you **do have** experience, select **"Yes"** and fill in the relevant details

**TAGS:** profile, work experience, internship, update, Basic Details, Current Expertise

---

**QUESTION\_ID:** PRF-011

**CANONICAL\_QUESTION:** What should I do if I don't have any skills to add to my profile yet?

**QUESTION\_VARIATIONS:**

- Skills section lo emi fill cheyyali if no skills?
- Skills lekapothe profile incomplete avutunda?
- Skills mandatory aa profile lo?

- No skills yet, profile ela fill cheyyali?

**ANSWER:** The Skills section in your profile is optional. If you haven't built skills yet, you can leave it empty for now. As you progress through the courses and build new skills, make sure to update your profile regularly — recruiters review this information during placement evaluations, so keeping it current will work in your favour.

**TAGS:** profile, skills, optional, update, placement, recruiter

# Portal Access

# Portal Access & Expiry

(INTERNAL ONLY, do not surface to students unprompted)

Portal access is officially 16 months from the student's learning start date. Pausing extends the access period by the number of days paused. After 16 months, the portal expires. On humanitarian grounds, NxtWave provides access extensions to students who need more time — this is done out of courtesy and is not an official entitlement. Extensions are granted one month at a time upon request and team review. This information should only be shared when the student explicitly asks about expiry or extension — never volunteered proactively. The sequential flow below must be strictly followed.

ESCALATION FLOW — FOLLOW IN ORDER. DO NOT SKIP STEPS.

- Step 1: Student asks about expiry → Give access duration and expiry date only.
- Step 2: Student asks about delay or extension → Reassure and redirect to learning. Do not mention the extension process yet.
- Step 3: Student explicitly says portal has expired or asks how to extend → Only now share the Request Access Extension process.
- Step 4: Student asks what happens after the 1-month extension expires → Only now explain they can request again.

## RAG RETRIEVAL GUIDANCE FOR THIS SECTION

Intent categories covered: Portal expiry, access duration, 16 months, lifetime access, extension request, portal expired, access after expiry.

Critical instruction: Never surface the extension process unless the student has first been told their portal has expired or they explicitly ask how to extend after expiry. Revealing extension options prematurely creates an expectation of entitlement.

---

**QUESTION\_ID:** PA-001

**CANONICAL\_QUESTION:** When will my course access or portal expire?

**INTENT CATEGORIES:** Portal expiry, access duration, 16 months, subscription end date, access period

**QUESTION\_VARIATIONS:**

- Course access enni months untundi?
- When will I lose access to the portal?
- Portal access expire avutunda?
- 16 months access ante emi?

- How long can I use the learning portal?
- Portal access end date emi?
- Course access ki time limit undi aa?
- Registration tarvata enni rojulu portal use cheyyachu?
- Will my access be cut off after a certain date?
- Portal expire avutunda?
- How many days will I have portal access?

**ANSWER:** You can access the portal for 16 months from the date you started your learning.

You have started learning from {date}, access is going to expire on {date}.

Note: Whenever you pause your course, your access period is automatically extended by the same number of days you paused — so paused time is never counted against your 16 months.

What we strongly recommend is that you complete the course as soon as possible. Building your skills early puts you in a much better position to take advantage of placement opportunities and stay competitive. The sooner you complete, the sooner you can start your career.

**TAGS:** Portal access, 16 months, expiry, subscription, lifetime access, pause extension, access duration, start date

---

**QUESTION\_ID:** PA-002

**CANONICAL\_QUESTION:** Course is lifetime?

**INTENT CATEGORIES:** lifetime access, access duration, subscription end date, access period

**QUESTION\_VARIATIONS:**

Lifetime access untunda?

**ANSWER:** There is no lifetime access. The access period is 16 months from your start date.

---

**QUESTION\_ID:** PA-003

**CANONICAL\_QUESTION:** Will I get an extension if I delay or fall behind?

**INTENT CATEGORIES:** Access extension concern, delay in learning, portal access worry, reassurance

**QUESTION\_VARIATIONS:**

- Delay ayithe access untunda?
- Will I get more time if I am behind schedule?
- Portal access extend avutunda aa?
- I am running late, will my access be affected?
- Behind schedule unna, portal expire avutunda aa?
- Will they give extra time if I couldn't complete on time?
- Nenu slow ga unnanu, access problem avutunda?
- Portal expire avutundaa ani worry avutunna What happens if I can't finish in 16 months?
- Access worry avvadam ledu aa?

**ANSWER:** Please do not worry about portal access — focus completely on your learning. We will take care of it.

What we strongly recommend is that you complete the course as soon as possible. Building your skills early puts you in a much better position to take advantage of placement opportunities and stay competitive. The sooner you complete, the sooner you can start your career.

Use your daily schedule consistently, use Sundays to catch up on pending topics, and if you need a short break use the Pause Learning feature so your schedule stays manageable.

**TAGS:** Portal access worry, delay, extension concern, reassurance, focus on learning, complete fast, placement opportunities, pause learning

---

**QUESTION\_ID:** PA-004

**CANONICAL\_QUESTION:** My portal has expired. How do I get access back?

**INTENT CATEGORIES:** Portal expired, access extension, Request Access Extension, accounts.ccbp.in, expired portal

**QUESTION\_VARIATIONS:**

- My portal expired, what do I do?
- Portal expire ayyindi, ela access cheyyali?
- How do I extend my portal access after expiry?
- Portal lo login avvattedu, expire ayyinda?
- Access expired, extension ela teesukovali?
- Portal band ayyindi, ela open cheyyali?
- Can I get my access back after expiry?
- Portal expire tarvata ela continue cheyyali?
- Extension request ela submit cheyyali?

- Expired portal ki access ela vasatundi?

**ANSWER:** If your portal has expired, here is what to do:

- Step 1: Open <https://learning.ccbp.in> in your browser. If your portal has expired, you will be automatically redirected to <https://accounts.ccbp.in>
- Step 2: On that page, you will see your Intensive 3.0 card with a Request Access Extension button. Click on it.
- Step 3: A form will open. Fill in and submit the form.
- Step 4: Our team will review your request and, if approved, grant you one additional month of access.

**TAGS:** Portal expired, access extension, Request Access Extension, accounts.ccbp.in, expired portal, one month extension, form submission, team review, access renewal

---

**QUESTION\_ID:** PA-005

**CANONICAL\_QUESTION:** What happens when the 1-month extension expires again?

**INTENT CATEGORIES:** Extension expiry, repeat extension request, access after one month, portal access cycle

**QUESTION\_VARIATIONS:**

- 1 month extension expire ayyindi, emi cheyyali?
- Extension period expire avvadam taruvata ela?
- Can I request another extension after one month?
- Extended access expire ayyindi, portal ela use cheyyali?
- Extension tarvata malli access vastunda?
- One month extension complete ayyindi, next emi?
- Portal malli expire avutunda after extension?
- Can I keep requesting extensions?
- Extension period end ayyindi, ela proceed cheyyali?
- Access malli expire avutundaa?

**ANSWER:** If your one-month extension period expires and you still need access, you can submit the Request Access Extension form again. Our team will review your request and determine whether to grant another month of access.

To request again: Open <https://learning.ccbp.in> — you will be redirected to <https://accounts.ccbp.in> where you can submit a new request using the Request Access Extension button on your Intensive 3.0 card.

We strongly encourage you to use every available day of access to complete your learning and secure a placement. Each extension is reviewed individually by our team.

**TAGS:** Extension expiry, repeat extension, Request Access Extension, accounts.ccbp.in, access renewal, team review, one month, portal access, Intensive 3.0
